Assessment of Carbon Footprint in Different Industrial Sectors, Volume 1 Subramanian Senthilkannan Muthu,2014-01-04 Carbon footprint is one of the important environmental impacts which has received greater attention from the public government and media It is one of the important topics of even any government s agenda as well and every nation is trying its best to reduce its carbon footprint to the maximum possible extent Every company would like to reduce the carbon footprint of its products and consumers are looking for the products which emit lower carbon emissions in their entire life cycle Assessment of Carbon footprint for different products processes and services and also carbon labelling of products have become familiar topics in the recent past in various industrial sectors Every industry has its unique assessment and modelling techniques allocation procedures mitigation methods and labelling strategies for its carbon emissions With this

background this book has been framed with dedicated chapters on carbon footprint assessment on various industrial sectors In each chapter details pertaining to the assessment methodologies of carbon footprint followed in a particular industry challenges in calculating the carbon footprint case studies of various products in that particular industry mitigation measures to be followed to trim down the carbon footprint recommendations for further research are discussed in detail This first volume includes the carbon footprint assessment methodology of agricultural sector telecommunication sector food sector ceramic industry packaging industry building and construction sector and solid waste sector **Jazz Age Barcelona** Robert

A. Davidson, 2009-08-20 One of the world's renowned centres of culture Barcelona is also one of the capitals of modernist art given its associations with the talents of Dali Picasso and Gaudi Jazz Age Barcelona focuses the lenses of cultural studies and urban studies on the avant garde character of the city during the cosmopolitan Jazz Age delving into the cultural forces that flourished in Europe between the late 1910s and early 1930s Studying literary journalism photography and the city of Barcelona itself Robert Davidson argues that the explosion of jazz culture and the avant garde was predominantly fostered by journalists and their positive reception of innovative new art forms and radical politics Using periodicals and recently rediscovered archival material Davidson considers the relationship between the political pressures of a brutal class war the grasp of a repressive dictatorship and the engagement of the city's young intellectuals with Barcelona's culture and environment Also analysing the 1929 International Exhibition and the down and out Raval District which housed many of the Age's clubs and bars Jazz Age Barcelona is an insightful portrait of one of the twentieth century's most culturally rich times and places *Encyclopedia of Contemporary Spanish Culture* Professor Eamonn Rodgers, Eamonn Rodgers, 2002-03-11

Some 750 alphabetically arranged entries provide insights into recent cultural and political developments within Spain including the cultures of Catalonia Galicia and the Basque country Coverage spans from the end of the Civil War in 1939 to the present day with emphasis on the changes following the demise of the Franco dictatorship in 1975 Entries range from shorter factual articles to longer overview essays offering in depth treatment of major issues Culture is defined in its broadest sense Entries include Antonio Gaud science Antonio Banderas golf dance education politics racism urbanization This Encyclopedia is essential reading for anyone interested in Spanish culture It provides essential cultural context for students of Spanish European History Comparative European Studies and Cultural Studies Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929-1939 , The news media have given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939 a decade marked on the one hand by dictatorship civil war and Franco's rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions Mendelson begins with an examination of El Pueblo Espa ol a model Spanish village featured at the 1929 International Exposition in Barcelona She then discusses Bu uel's and Dal's documentary films relating them not

only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities Her highly original book concludes with a discussion of the 1937 Spanish Pavilion where Picasso s famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau Based upon years of archival research Mendelson s book opens a new perspective on the cultural politics of a turbulent era in modern Spain It explores the little known yet rich intersection between avant garde artists and government institutions It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture
