Feroze, 2023-11-10 BIBLIOPHILIA A perfectly acceptable addiction marked by obsessive reading aggressive book sniffing and strategic hoarding For as long as Feroze a San Francisco based techie and gently mad bibliophile has understood books he has devoured them with the unmitigated enthusiasm of a toddler on a sugar rush For him reading has been more than a weekend pursuit or a hobby on steroids It has been a lifestyle

generously peppered with serendipitous first edition finds and deliberate in store title hunting of which he kept meticulous notes In this intimate and refreshingly honest essay collection illustrated by artists on the autism spectrum Ferose professes his undying love for books and elaborates on his relationship with the life affirming act of reading Enthusiastically noting titles that carry scribbles in the neglected margins to gushing over one of a kind collectibles he delves into his varied picks bringing his most formative bookish adventures to readers Part memoir and part fascinating study of the quiet fulfilling act of reading and collecting books this joyous meld of anecdotes and recollections explores the sweeping genius of books and storytelling and how they continually refine our collective conscience

Missions of Interdependence Gerhard Stilz, 2002

At the beginning of the twenty first century it is necessary to combine into a productive programme the striving for individual emancipation and the social practice of humanism in order to help the world survive both the ancient pitfalls of particularist terrorism and the levelling tendencies of cultural indifference engendered by the renewed imperialist arrogance of hegemonial global capital In this book thirty five scholars address and negotiate in a spirit of learning and understanding an exemplary variety of intercultural splits and fissures that have opened up in the English speaking world Their methodology can be seen to constitute a seminal field of intellectual signposts They point out ways and means of responsibly assessing colonial predicaments and postcolonial developments in six regions shaped in the past by the British Empire and still associated today through their allegiance to the idea of a Commonwealth of Nations They show how a new ethic of literary self assertion interpretative mediation and critical responsiveness can remove the deeply ingrained prejudices silences and taboos established by discrimination against race class and gender

A Comparative Study of R. K. Narayan and

Arundhati Roy: Linguistic and Literary Aspects N. Prasanna Lakshmi, 2020-11-23 Broadly speaking Indian English IE is that variety of English used by a large number of educated Indians as a second language Kachru 1983 used the term Indian English for the variety of English used generally in the South Asian countries David Crystal 2003 observes that in India the numbers of English speakers outrank the combined number of speakers in USA and UK A considerable body of creative writing is also produced in English and is increasing steadily Writers like Mulk Raj Anand R K Narayan and Raja Rao and Arundhati Roy have become part of India's literary tradition and they may continue to hold their status in world literature too The use of Indian English in different domains in interaction with other regional languages has resulted in its development and recognition as a distinct variety in its own right It is an attempt to study the styles of two of the prominent writers of Indian English namely R K Narayan and Arundhati Roy by examining the different linguistic and literary aspects as reflected in their selected fictions R K Narayan's Swami and Friends SF and The Guide TG and Arundhati Roy's The God of Small Things GST An examination of selected fictions of the two writers of this study has shown that stylistic analysis can be a rich field of enquiry in Indian English Studies of the present kind can be used as a source material for applied linguistics They can be extended for a comparative study of stylistic traits of Indian writers and non Indian writers The study suggests the

possibility of further research in comparative stylistic studies in Indian English fiction on the one hand and American British or Australian fiction on the other Our comparison of the two writers one of the colonial period and the other belonging to the post colonial period suggests that a more extensive stylistic study of Indian writing in English is called for to understand the changing phases of English in the socio cultural ethos of the Indian society The book is organized as follows Chapter I is an introduction to Indian English its importance and the objective of the research Chapter II deals with review of literature on Indian English as well as stylistic studies in Indian English fiction Chapter III is concerned with a brief introduction to the texts chosen for study Chapter IV discusses the methodology adopted in the study Chapter V deals with the results of the study and makes a comparison between the two authors styles Chapter VI consists of a summary of the research and concludes with suggestions regarding further research needs
