Chaplin, 2013-11-19 Originally published in hardcover in 2012 *19th Century Female Explorers* Caroline Roope, 2025-08-05 As any historian will testify a nineteenth century woman's place was very much at home Or was it For a lucky and plucky few who had a little determination and the ability to withstand lice infestations climbing mountains in corsets rascally guides and occasional certain death as well as the raised eyebrows of the society they left behind then the world really was their oyster In this lively re-telling of twenty two extraordinary ladies who did just that Caroline Roope invites you to journey to the further corners of the earth along with them From humble missionary Annie Royle Taylor who knew God would keep her safe to the haughty aristocrat Lady Hester Stanhope who defied convention and dressed as a Turkish man including pistol knife and turban their collective voices still resonate hundreds of years later Drawing on their original accounts and archival sources this expertly researched book brings to light a wealth of stories that are full of grit sometimes literally courage and

just enough humor to wish we'd been there with them on their adventures on the other side of the horizon So pack a suitcase along with a good thick skirt la Mary Kingsley and prepare to go beyond the garden gate *Claiming the Bicycle* Sarah Hallenbeck, 2015-12-21 Although the impact of the bicycle craze of the late nineteenth century on women's lives has been well documented rarely have writers considered the role of women's rhetorical agency in the transformation of bicycle culture and the bicycle itself In *Claiming the Bicycle* Sarah Hallenbeck argues that through their collective rhetorical activities women who were widely dispersed in space genre and intention negotiated what were considered socially acceptable uses of the bicycle destabilizing cultural assumptions about femininity and gender differences Hallenbeck describes the masculine culture of the Ordinary bicycle of the 1880s and the ways women helped bring about changes in this culture asserts that women contributed to bicycle design helping to produce the more gender neutral Safety bicycle in response to discourse about their needs and analyzes women writers' uses of the new venue of popular magazines to shape a bicycle girl ethos that prompted new identities for women The author considers not only how technical documents written by women bicyclists encouraged new riders to understand their activity as transforming gender definitions but also how women used bicycling as a rhetorical resource to influence medical discourse about their bodies Making a significant contribution to studies of feminist rhetorical historiography rhetorical agency and technical communication *Claiming the Bicycle* asserts the utility of a distributed model of rhetorical agency and accounts for the efforts of widely dispersed actors to harness technology in promoting social change *Kinesis* Dónal Mac Erlaine, 2024-03-01

Trekking Across America Lyell D Jr Henry,2024 For several decades following the end of the Civil War the most popular sport in the United States was walking Professional pedestrians often covered 500 miles or more for up to six grueling days and nights in pursuit of large money prizes in competitions held in big city arenas Walking was also a favorite amateur sport newspapers often noted a pedestrian mania or walking fever that only began to give way in the mid 1880s to fast rising crazes for baseball bicycling and roller skating As competitive walking faded however another kind of walking that had also begun in the late 1860s came to full flower Between 1890 and 1930 hundreds of men women even children and entire families were on the nation s roads and railroad tracks trekking between widely separated points frequently New York and San Francisco and sometimes moving in unusual ways such as on roller skates or by walking barefooted backwards on stilts or while rolling a hoop To finance their attention seeking journeys many sold souvenir postcards Although they claimed various reasons for making these treks for most the treks clearly were a means of personal expression The public usually found these performers entertaining but public officials and newspaper editors often denounced them as nuisances or frauds Tapping vintage postcards and old newspaper articles this is the first book to bring back to view this once familiar feature of American life Following a prologue providing background and context five chapters address different aspects of this trekking phenomenon In 106 illustrations and seventy six vignettes some poignant many amusing all engaging the book provides a fair representation of the many trekkers who moved across the country during those years An epilogue offers some final musings about those trekking performers and their place in the annals of American popular culture *The Cycling City* Evan Friss,2015 As Evan Friss shows in his mordant history of urban bicycling in the late nineteenth century the bicycle has long told us much about cities and their residents In a time when American cities were chaotic polluted and socially and culturally impenetrable the bicycle inspired a vision of an improved city in which pollution was negligible transport was noiseless and rapid leisure spaces were democratic and the divisions between city and country blurred Friss focuses not on the technology of the bicycle but on the urbanisms that bicycling engendered Bicycles altered the look and feel of cities and their streets enhanced mobility fueled leisure and recreation promoted good health and shrank urban spaces as part of a larger transformation that altered the city and the lives of its inhabitants even as the bicycle s own popularity fell not to rise again for a century Publisher s description *A World of Her Own* Michael Elsohn Ross,2014-03-01 An inspiration for any young person who loves the outdoors wildlife or science *A World of Her Own* tells the stories of 24 brave women from different cultures epochs and economic backgrounds who have shared similar missions to meet the physical and mental challenges of exploring the natural world to protect the environment and native cultures and to leave a mark in the name of discovery Among the many bold women profiled are Rosaly Lopes who worked for NASA and discovered 71 volcanoes on one of Jupiter
