Art Of Renaissance Florence 1400 1600

Hugh Honour, John Fleming

Art Of Renaissance Florence 1400 1600:

Art of Renaissance Florence, 1400-1600 Loren W. Partridge, 2009-10-27 Rich and engaging This account of Florentine art tells the story of who commissioned these works who made them where they were seen and how they were experienced and understood by their viewers Includes a useful timeline glossary and series of artists biographies Patricia L Reilly Swarthmore College An extraordinarily useful book not only for teachers but also for historically minded travelers interested in an illustrated guide to the art of Renaissance Florence Evelyn Lincoln Brown University Clear and compelling The well chosen illustrations include ground plans and diagrams of key architectural monuments and sculpture The updated judicious bibliography is a resource for anyone tackling the vast scholarship on the art of Renaissance Florence Cristelle Baskins editor of *The Triumph of Marriage Painted* Cassoni of the Renaissance

Art of Renaissance Venice, 1400 1600

Loren Partridge, 2015-03-14 A comprehensive and richly illustrated survey of Venetian Renaissance architecture sculpture and painting created between 1400 and 1600 addressed to students travellers and the general public The works of art are analysed within Venice's cultural circumstances political economic intellectual and religious and in terms of function style iconography patronage classical sources gender art theories and artist's innovations rivalries and social status The text has been divided into two parts the fifteenth century and the sixteenth century each part preceded by an introduction that recounts the history of Venice to 1500 and to 1600 respectively including the city's founding ideology territorial expansion social classes governmental structure economy and religion The twenty six chapters have been organized to lead readers systematically through the major artistic developments within the three principal categories of art governmental ecclesiastic and domestic and have been arranged sequentially as follows civic architecture and urbanism churches church decoration ducal tombs and altarpieces refectories and refectory decoration section two only confraternities architecture and decoration palaces palace decoration devotional works portraits secular painting and halls of state villas and villa decoration The conclusion offers an overview of the major types of Venetian art and architectural patronage and their funding sources Provided by publisher

The Early Modern Italian Domestic Interior, 1400-1700

Erin J. Campbell, Stephanie R. Miller, Elizabeth Carroll Consavari, 2016-03-23 Emphasizing on the one hand the reconstruction of the material culture of specific residences and on the other the way in which particular domestic objects reflect shape and mediate family values and relationships within the home this volume offers a distinct contribution to research on the early modern Italian domestic interior Though the essays mainly take an art historical approach the book is interdisciplinary in that it considers the social implications of domestic objects for family members of different genders age and rank as well as for visitors to the home By adopting a broad chronological framework that encompasses both Renaissance and Baroque Italy and by expanding the regional scope beyond Florence and Venice to include domestic interiors from less studied centers such as Urbino Ferrara and Bologna this collection offers genuinely new perspectives on the home in early modern Italy

Art in Renaissance

Italy, 1350-1500 Evelyn S. Welch, 2000 Between the Black Death in the mid fourteenth century and the French invasions at the end of the fifteenth artists such as Masaccio Donatello Fra Angelico and Leonardo working in the kingdoms princedoms and republics of the Italian peninsula created some of the most influential and exciting works in a variety of artistic fields Yet the traditional story of the Renaissance has been dramatically revised in the light of new scholarship and new issues have greatly enriched our understanding of the period Emphasis has been placed on recreating the experience of contemporary Italians the patrons who commissioned the works the members of the public who viewed them and the artists who produced them In this book Evelyn Welch presents a fresh picture of the Italian Renaissance Giving equal weight to the Italian regions outside Florence she discusses a wide range of works from paintings to coins and from sculptures to tapestries examines the issues of materials workshop practises and artist patron relationships and explores the ways in which visual imagery related to contemporary sexual social and political behaviour

The Gothic Enterprise Robert A. Scott, 2011-06-28 The great Gothic cathedrals of Europe are among the most astonishing achievements of Western culture Evoking feelings of awe and humility they make us want to understand what inspired the people who had the audacity to build them This engrossing book surveys an era that has fired the historical imagination for centuries In it Robert A Scott explores why medieval people built Gothic cathedrals how they built them what conception of the divine lay behind their creation and how religious and secular leaders used cathedrals for social and political purposes As a traveler s companion or a rich source of knowledge for the armchair enthusiast The Gothic Enterprise helps us understand how ordinary people managed such tremendous feats of physical and creative energy at a time when technology was rudimentary famine and disease were rampant the climate was often harsh and communal life was unstable and incessantly violent While most books about Gothic cathedrals focus on a particular building or on the cathedrals of a specific region The Gothic Enterprise considers the idea of the cathedral as a humanly created space Scott discusses why an impoverished people would commit so many social and personal resources to building something so physically stupendous and what this says about their ideas of the sacred especially the vital role they ascribed to the divine as a protector against the dangers of everyday life Scott s narrative offers a wealth of fascinating details concerning daily life during medieval times The author describes the difficulties master builders faced in scheduling construction that wouldn t be completed during their own lifetimes how they managed without adequate numeric systems or paper on which to make detailed drawings and how climate natural disasters wars variations in the hours of daylight throughout the year and the celebration of holy days affected the pace and timing of work Scott also explains such things as the role of relics the quarrying and transporting of stone and the incessant conflict cathedral building projects caused within their communities Finally by drawing comparisons between Gothic cathedrals and other monumental building projects such as Stonehenge Scott expands our understanding of the human impulses that shape our landscape

Art Patronage, Family, and Gender in Renaissance Florence Maria DePrano, 2018-02-22 This book examines a Renaissance Florentine

family's art patronage even for women inspired by literature music love loss and religion Florence: Oxford Bibliographies Online Research Guide Oxford University Press,2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com

A Short History of Renaissance Italy Lisa Kaborycha,2023-11-30 From Giotto's artistic revolution at the dawn of the fourteenth century to the scientific discoveries of Galileo in the early seventeenth this book explores the cultural developments of one of the most remarkable and vibrant periods of history the Italian Renaissance What makes the period all the more amazing is that this flowering of the visual arts literature and philosophy occurred against a turbulent backdrop of civic factionalism foreign invasions war and pestilence The fifteen chapters move briskly from the Fall of the Roman Empire in the West through the growth of the Italian city states where in the crucible of pandemic disease and social unrest a new approach to learning known as humanism was forged political and religious certainties challenged Traversing the entire Italian Peninsula Florence Rome Milan Venice Naples and Sicily this book examines the rich regional diversity of Renaissance cultural experience and considers men's and women's lives their changing social attitudes and beliefs across three centuries This second edition has been updated throughout it now contains dozens of color images and timelines as well as links to the author's new companion book of primary sources *Voices from the Italian Renaissance* Readers will need no preliminary background on the subject matter as the story is told in a lively readable narrative Interdisciplinary in nature its characters are merchants bankers artists saints soldiers of fortune poets popes and courtesans With brief literary excerpts first hand accounts maps and illustrations that help bring the era to life this is an ideal text for students in a college survey course as well as for the interested general reader or traveler to Italy who is curious to learn more about the extraordinary heritage of the Renaissance

Images and Identity in Fifteenth-century Florence Patricia Lee Rubin,2007-01-01 An exploration of ways of looking in Renaissance Florence where works of art were part of a complex process of social exchange Renaissance Florence of endless fascination for the beauty of its art and architecture is no less intriguing for its dynamic political economic and social life In this book Patricia Lee Rubin crosses the boundaries of all these areas to arrive at an original and comprehensive view of the place of images in Florentine society The author asks an array of

questions Why were works of art made Who were the artists who made them and who commissioned them How did they look and how were they looked at She demonstrates that the answers to such questions illuminate the contexts in which works of art were created and how they were valued and viewed Rubin seeks out the meeting places of meaning in churches in palaces in piazzas places of exchange where identities were taken on and transformed often with the mediation of images She concentrates on questions of vision and visuality on seeing and being seen With a blend of exceptional illustrations close analyses of sacred and secular paintings by artists including Fra Angelico Fra Filippo Lippi Filippino Lippi and Botticelli and wide ranging bibliographic essays the book shines new light on fifteenth century Florence a special place that made beauty one of its defining features

Art in Renaissance Italy John T. Paoletti, Gary M. Radke, 2005 Art in Renaissance Italy sets the art of that time in its context exploring why it was created and in particular looking at who commissioned the palaces and cathedrals the paintings and the sculptures

European Art of the Fifteenth Century Stefano Zuffi, 2005 Influenced by a revival of interest in Greco Roman ideals and sponsored by a newly prosperous merchant class fifteenth century artists produced works of astonishingly innovative content and technique The International Gothic style of painting still popular at the beginning of the century was giving way to the influence of Early Netherlandish Flemish masters such as Jan van Eyck who emphasized narrative and the complex use of light for symbolic meaning Patrons favored paintings in oil and on wooden panels for works ranging from large hinged altarpieces to small increasingly lifelike portraits In the Italian city states of Florence Venice and Mantua artists and architects alike perfected existing techniques and developed new ones The painter Masaccio mastered linear perspective the sculptor Donatello produced anatomically correct but idealized figures such as his bronze nude of David and the brilliant architect and engineer Brunelleschi integrated Gothic and Renaissance elements to build the self supporting dome of the Florence Cathedral This beautifully illustrated guide analyzes the most important people places and concepts of this early Renaissance period whose explosion of creativity was to spread throughout Europe in the sixteenth century

Art and the Relic Cult of St. Antoninus in Renaissance Florence Sally J. Cornelison, 2017-07-05 Tracing the history of St Antoninus cult and burial from the time of his death in 1459 until his remains were moved to their final resting place in 1589 this interdisciplinary study demonstrates that the saint s relic cult was a key element of Florence s sacred cityscape The works of art created in his honor as well as the rituals practiced at his fifteenth and sixteenth century places of burial advertised Antoninus saintly power and persona to the people who depended upon his intercessory abilities to negotiate life s challenges Drawing on a rich variety of contemporary visual literary and archival sources this volume explores the ways in which shifting political familial and ecclesiastical aims and agendas shaped the ways in which St Antoninus holiness was broadcast to those who visited his burial church Author Sally Cornelison foregrounds the visual splendor of the St Antoninus Chapel which was designed built and decorated by Medici court artist Giambologna and his collaborators between 1579 and 1591 Her research sheds new light on the artist whose secular and

mythological sculptures have received far more scholarly attention than his religious works Cornelison draws on social and religious history patronage and gender studies and art historical and anthropological inquiries into the functions and meanings of images relics and ritual performance to interpret how they activated St Antoninus burial sites and defined them in ways that held multivalent meanings for a broad audience of viewers and devotees Among the objects for which she provides visual and contextual analyses are a banner from the saint's first tomb early printed and painted images and the sculptures frescoes panel paintings and embroidered textiles made for the present St Antoninus Chapel

Painted Palaces: The Rise of Secular Art in Early Renaissance Italy, 2009 Even many Renaissance specialists believe that little secular painting survives before the late fifteenth century and its appearance becomes a further argument for the secularizing of art This book asks how history changes when a longer record of secular art is explored It is the first study in any language of the decoration of Italian palaces and homes between 1300 and the mid Quattrocento and it argues that early secular painting was crucial to the development of modern ideas of art Of the cycles discussed some have been studied and published but most are essentially unknown A first aim is to enrich our understanding of the early Renaissance by introducing a whole corpus of secular painting that has been too long overlooked Yet Painted palaces is not a study of iconography In examining the prehistory of painted rooms like Mantegna's Camera Picta the larger goal is to rethink the history of early Renaissance art

Women in Italian Renaissance Art Paola Tinagli, 1997-06-15 This is the first book which gives a general overview of women as subject matter in Italian Renaissance painting It presents a view of the interaction between artist and patron and also of the function of these paintings in Italian society of the fifteenth and sixteenth centuries Using letters poems and treatises it examines through the eyes of the contemporary viewer the way women were represented in paintings

A World History of Art Hugh Honour, John Fleming, 2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage From our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion In this Seventh Edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years providing a new perspective on the latest developments The insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour These images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression

Re-membering Masculinity in Early Modern Florence Allison Levy, 2017-03-02 From Pliny to Petrarch to Pope Hennessy and beyond many have understood the obvious connection between portraiture and commemorative practice This book expands and nuances our understanding of Renaissance portraiture the author shows it to be complexly generated within a discourse of male anxiety and pre mortuary mourning She argues that portraiture could

defer memory loss or at the very least pictorially console the subject against his own potentially unmourned death This book recognizes a socio cultural anxiety the fear not merely of death but also of being forgotten and identifies a set of pictorial literary and theoretical strategies consequently formulated to ensure memory To explore this phenomenon this interdisciplinary but fundamentally art historical project merges early modern visual culture and critical theories of the body The author examines an extensive selection of fifteenth and sixteenth century male and female portraits primarily associated with the Medici family circle and court in and against both historical writings and contemporary discourses including literary and cultural theory psychoanalysis feminism and gender studies and critical theories of race and disability Re membering Masculinity generates new ideas about both male and female portraiture in early modern Florence raises even more questions about the experiences and representations of widowhood and mourning and re configures our understanding of masculinity from the early modern male body to Renaissance Man to postmodern manhood **The Dogaressa of Venice,**

1200-1500 H. Hurlburt, 2016-09-27 This book focuses on the identity and public personae of the dogaressa wives of the elected doges of medieval and early modern Venice The study traces the evolution of the public functions of the group of quasi royal wives rare for their visibility during Venice s development into a regional economic and political power

Netherlandish and Italian Female Portraiture in the Fifteenth Century Elisabetta Toreno, 2025-10-01 This book investigates the aesthetic and conceptual characteristics of fifteenth century female portraiture on panel Portraits of women increased substantially during this century They formed part of a material and a visual culture borne out of the rapid rise of an oligarchy from entrepreneurial activities that was especially advanced in the urbanised territories of Italy and Flanders For this reason the portraits in this book are by Netherlandish and Italian painters They are simultaneously illustrative of the emancipation of the genre from its medieval idiom and of the responses to the matrix of patriarchy under which society was organised Patriarchy is an androcentric structure that places women in a paradoxical situation of legal and social disenfranchisement on the account of purported psychophysical inadequacy whilst making them the catalysts through arranged marriages for the success of the spheres of power which are controlled by men Thus these portraits are also a window into women s lives in this structure This book is the first systematic study of their sign system and of the feminine experience of seeing and being seen at the intersection of disciplines that include art history anthropology legal history philosophy The surprising results suggest new interpretations of form and function in female portraiture women s active role in the imaging process and the early instances of a pro women ideology **Printed Icon** Lisa Pon, 2015-03-23 Lisa Pon

examines the cultural biography of the city of Forl s miraculous woodcut the Madonna of the Fire The Renaissance World John Jeffries Martin, 2015-01-09 With an interdisciplinary approach that encompasses the history of ideas political history cultural history and art history this volume in the successful Routledge Worlds series offers a sweeping survey of Europe in the Renaissance from the late thirteenth to early seventeenth centuries and shows how the Renaissance laid key foundations

for many aspects of the modern world Collating thirty four essays from the field s leading scholars John Jeffries Martin shows that this period of rapid and complex change resulted from a convergence of a new set of social economic and technological forces alongside a cluster of interrelated practices including painting sculpture humanism and science in which the elites engaged Unique in its balance of emphasis on elite and popular culture on humanism and society and on women as well as men The Renaissance World grapples with issues as diverse as Renaissance patronage and the development of the slave trade Beginning with a section on the antecedents of the Renaissance world and ending with its lasting influence this book is an invaluable read which students and scholars of history and the Renaissance will dip into again and again
