The Films of Clint Eastwood Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood's 2014 American Sniper a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

Wikipedia contributors, Monstrous Fantasies Leila K. Norako, 2024-08-15 Monstrous Fantasies asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre the last of the Latin crusader states in the Holy Land and what these texts reveal about the cultural anxieties of late medieval England Leila K Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance These two episodes inspired a sense of urgency over the fate of the Holy Land and of Latin Christendom itself resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims These romances which as Norako argues also influenced Geoffrey Chaucer's Canterbury Tales conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum Monstrous Fantasies also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so called wars on terror in the twenty first century in such films as Kingdom of Heaven and American Sniper

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet, 2020-12-16 Combat Death in Contemporary American Culture Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination American Cinema of the 2010s Dennis Bingham, 2021-12-10 Covering everything from Black Panther to American Sniper and from Frozen to Get Out American Cinema in the 2010s takes a close look at the memorable movies visionary filmmakers and behind the scenes drama that made this divisive decade such an exciting time to be a moviegoer

relationships and musical impacts Keep this book close by to re watch important movies Through the Crosshairs Roger Stahl,2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper s gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions Through the Crosshairs traces the genealogy of this weapon s eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence Mission Unaccomplished Alan Nadel,2025-10-07 An analysis of how post 9 11 war movies changed from following soldiers on specific missions to chronicling war as a day to day occupation In 2003 the United States began a war in Iraq without a mission Instead of fighting to restore peace the traditional objective of warfare servicemembers faced the grim reality that there was no goal Lacking even certainty as to who was the enemy soldiers discovered that their task was simply to survive Mission Unaccomplished explores how Hollywood grasped the experience of Iraq from the perspective of US soldiers reinventing the war film in the process Historically films such as Saving Private Ryan valorized the goals of war by chronicling missions that unambiguously contribute to the defeat of the enemy and the restoration of peace But in The Hurt Locker American Sniper Green Zone and other recent dramas soldiers just try to outlast the chaos Dramatizing the aimlessness of the war events occur in random order and soldiers have no sense of how their actions contribute to victory or peace Looking to recent WWII movies such as Dunkirk and Hacksaw Ridge which use this same cinematic vocabulary to position soldiering as merely a deadly job to be endured Alan Nadel argues that the disillusionment of Iraq has influenced cinema broadly inspiring a newly critical war film genre Clint Eastwood's Cinema of Trauma Charles R. Hamilton,Allen H. Redmon,2017-08-11 Throughout his directorial career Clint Eastwood s movies have presented sympathetic narratives of characters enduring personal trauma as they turn to violence to survive calamity or sustain social order a choice that leaves them marginalized rather than redeemed In this collection of new essays contributors examine his films from The Outlaw Josey Wales to Sully as studies on PTSD that expose the social conditions that tolerate or trigger traumatization and in his more recent work imagine a way through individual and collective trauma Focus On: 100 Most Popular American 3D Films Wikipedia contributors, **Gorgeous War** Tim Blackmore,2019-10-29 Gorgeous War argues that the Nazis used the swastika as part of a visually sophisticated propaganda program that was not only modernist but also the forerunner of contemporary brand identity When the United States military tried to answer Nazi displays of graphic power it failed In the end the best graphic response to the Nazis was produced by the Walt Disney Company Using numerous examples of US and Nazi military heraldry Gorgeous War compares the way the

American and German militaries developed their graphic and textile design in the interwar period. The book shows how social and cultural design movements like modernism altered and were altered by both militaries. It also explores how nascent corporate culture and war production united to turn national brands like IBM, Coca Cola, and Disney into multinational corporations that had learned lessons on propaganda and branding that were being tested during the Second World War. What is the legacy of apparently toxic signs like the swastika? The answer may not be what we hoped. Inheritors of the post-Second World War world increasingly struggle to find an escape from an intensely branded environment to find a place in their lives that is free of advertising and propaganda. This book suggests that we look again at how it is our culture makes that struggle into an appealing Gorgeous War.

The Defeated and the Dead Mark Percy, 2024-07-01

How do we teach about war? How can social studies teachers empower students to understand how wars are started, how they are fought, and how they are ended? Films about war are featured in nearly all social studies classrooms across the US, with practically every American teenager watching at least one historical film during their time in middle and high school. Without the mandatory class viewing, most of these movies would not have been seen by them otherwise. Film is the medium through which most Americans learn about their national past. But a passive viewing of a movie about war does little to help students learn to be critical thinkers about their country's choices.

In The Defeated and the Dead: Teaching About War Through Film Dr. Mark Percy outlines strategies and resources for teachers to incorporate movies about war into their classes in an effective, thoughtful manner. Employing elements of the Just War doctrine, the basis for most international law and treaties, this book highlights how teachers can make use of widely used films like *Saving Private Ryan*, *Platoon*, and *Glory*, as well as other movies that span our nation's history from the American Revolution to modern conflicts. By focusing on critical frameworks like Just War, as well as featuring films both about war and the avoidance of war, *The Defeated and the Dead* offers social studies teachers a valuable tool to approach difficult, contentious topics in their classrooms.

Hollywood's Imperial Wars Armando José Prats, 2024-04-16

When the Vietnam War punctured the myth of American military invincibility, Hollywood needed a new kind of war movie. The familiar triumphal narrative was relegated to history, and with it, the heroic legacy that had passed from one generation to the next for more than two hundred years. How Hollywood helped create and instill the American myth of heroic continuity, and how films revised that myth after the Vietnam War, is what Armando José Prats explores in *Hollywood's Imperial Wars*. The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war, from the mythic heroism of a film like *Sands of Iwo Jima* to the rupture of that myth in films such as *The Deer Hunter*, *Apocalypse Now*, and *Platoon*. As early as the mid-1940s, Prats suggests, fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth, anxieties reflected in the insistent, aggressive patriotism in films of the period. In this context, Prats considers the immeasurable cultural importance of John Wayne, the cinematic apotheosis of wartime valor and righteousness, whose patriotism was

nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats s analysis were forever altered by the loss in Vietnam Even movies like American Sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts Last Stands from the Alamo to Benghazi Frank Wetta,Martin Novelli,2016-12-08 Last Stands from the Alamo to Benghazi examines how filmmakers teach Americans about the country s military past Examining twenty three representative war films and locating them in their cultural and military landscape the authors argue that Hollywood s view of American military history has evolved in two phases The first phase extending from the very beginnings of filmmaking to the Korean War projected an essential patriotic triumphalism The second phase from the Korean and Vietnam Wars to the present reflects a retreat from consensus and reflexive patriotism In describing these phases the authors address recurring themes such as the experience of war and combat the image of the American war hero race gender national myths and more With helpful film commentaries that extend the discussion through popular movie narratives this book is essential for anyone interested in American military and film history
