Kimmel, Jeff Hearn, Raewyn Connell, 2005 In the

past research in the field of gender has mainly addressed issues about women and has for the most part been developed by women. Recently the study of gender has rapidly expanded and there has been a growing interest in men's and boys' identities, conduct, and problems. The Handbook of Studies on Men and Masculinities is an interdisciplinary and international culmination of the growth of men's studies that also offers insight about future directions for the field. The Handbook provides a broad view of masculinities primarily across the social sciences with the inclusion of important debates in some areas of the humanities and natural sciences. The various approaches presented in this Handbook range across different disciplines, theoretical perspectives, methodologies, and conceptualizations in relation to the topic of men. Editors Michael S. Kimmel, Jeff Hearn, and Robert W. Connell have assembled an esteemed group of contributors who are among the best known experts in their particular fields. The Handbook of Studies on Men and Masculinities examines the construction of masculinities in four different frames: the social organization of masculinities in their global and regional iterations; the institutional reproduction and articulation of masculinities; the ways in which masculinities are organized and practiced within a context of gender relations; and the ways in which individual men express and understand their gendered identities. The Handbook is organized in a way that moves from the larger global and institutional articulations of masculinities to the more intimate and personal expressions. The Handbook of Studies on Men and Masculinities provides scholars, researchers, and students with the most current incisive scholarship available for the men's studies area of gender studies. It is a vital resource for those interested in the practical or cultural issues about men, boys, and gender, as well as an excellent addition to any academic library.

American Juvenile Justice Franklin E. Zimring, 2018-12-21 American Juvenile Justice is a definitive volume for courses on the criminology and policy analysis of adolescence. The focus is on the principles and policy of a separate and distinct system of juvenile justice. The book opens with an introduction of the creation of adolescence, presenting a justification for the category of the juvenile or a period of partial responsibility before full adulthood. Subsequent sections include empirical investigations of the nature of youth criminality and legal policy toward youth crime. At the heart of the book is an argument for a penal policy that recognizes diminished responsibility and a youth policy that emphasizes the benefits of letting the maturing process continue with minimal interruption. In this updated and expanded second edition, Zimring has included four new chapters with examinations on important topics including US Supreme Court decisions of life sentences for minors; the elected use of juvenile courts over criminal court; punitive sex offender registration for juveniles; and appropriate tactics for juvenile justice reform.

Crime & Politics Ted Gest, 2001 Why has America experienced an explosion in crime rates since 1960? Why has the crime rate dropped in recent years? Though politicians are always ready both to take the credit for crime reduction and to exploit grisly headlines for short-term political gain, these questions remain among the most important and most difficult to answer in America today. In *Crime Politics*, award-winning journalist Ted Gest gives readers the inside story of how crime policy is formulated inside the Washington beltway and state capitols, why we've had

cycle after cycle of ineffective federal legislation and where promising reforms might lead us in the future Gest examines how politicians first made crime a national rather than a local issue beginning with Lyndon Johnson's crime commission and the landmark anti crime law of 1968 and continuing right up to such present day measures as three strikes laws mandatory sentencing and community policing Gest exposes a lack of consistent leadership backroom partisan politics and the rush to embrace simplistic solutions as the main causes for why Federal and state crime programs have failed to make our streets safe But he also explores how the media aid and abet this trend by featuring lurid crimes that simultaneously frighten the public and encourage candidates to offer another round of quick fix solutions Drawing on extensive research and including interviews with Edwin Meese Janet Reno Joseph Biden Ted Kennedy and William Webster Crime Politics uncovers the real reasons why America continues to struggle with the crime problem and shows how we do a better job in the future
