*THE POLICE OFFICER'S GUIDE TO OPERATING AND SURVIVING IN LOW-LIGHT AND NO-LIGHT CONDITIONS* Tony L. Jones,2002-01-01 The majority of crimes occur during the hours of darkness and fully two thirds of all shooting incidents in which police officers on duty are killed take place during hours of diminished light The goal of this unique book is to increase officers awareness that training in low light and no light conditions is necessary in order for them to prevail in such situations to help facilitate correct decision making under these conditions and to help them understand the use of a myriad of illumination tools available for professional use today Major topics include 1 dim light and no light doctrine including navigation techniques threat location threat acquisition and threat identification 2 flashlight doctrine including many examples of engaging a threat using a flashlight 3 low light weapon sighting systems 4 techniques used for signalling during dim light and no light conditions and 5 illumination technologies supporting tactical and emergency operations including infrared systems thermal imagers night vision systems strobe lights and lasers Through the use of the techniques described throughout this unique and comprehensive book the skill professionalism and ability of police officers to operate and survive in dim light no light and artificial light conditions will be enhanced      On Her Majesty's Nuclear Service Eric Thompson,2020-01-10 A journey inside the submarines that patrolled beneath the surface to keep the peace during the Cold War from a Royal Navy officer and engineer During the Cold War nuclear submarines quietly helped prevent a third world war keeping watch and maintaining the deterrent effect of mutually assured destruction For security reasons very few knew the inside stories until now Eric Thompson is a career nuclear submarine officer who served from the first days of the Polaris missile boats until after the Cold War ending up as the top engineer in charge of the Navy s nuclear power plants Along the way he helped develop all manner of kit from guided torpedoes to the Trident ballistic missile system In this vivid personal account of his submarine operations he reveals what it was like to literally have your finger on the nuclear button He leads the reader through top secret submarine patrols hush hush scientific trials underwater weapon developments public relations battles with nuclear protesters arm wrestling with politicians and the changes surrounding gender and sexual preference in the Navy It is essentially a human story rich in both drama and comedy like the Russian spy trawler that played dance music

at passing submarines There was never a dull moment but it was always a deadly serious game Among other subjects Thompson discusses The two American nuclear submarines Thresher and Scorpion which sank with no survivors during the Cold War The history of submarines including the Hunley a Confederate submarine during the US Civil War which was the first sub to ever sink a ship though it did so kamikaze style What a submarine base is like How a Soviet sub in the Mediterranean was flushed out earning the crew a crate of champagne from America The author s personal experience with the Polaris and Trident classes of submarine and more Interesting sometimes thought provoking but above all an entertaining read Nuclear Futures *Research, development, test, and evaluation* United States.
