**The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state

ER List** United States. Department of State. External Research Division, 1964      **Paramilitarism in the Balkans** Dmitar Tasić, 2020-07-10  
 Paramilitarism in the Balkans analyses the origins and manifestations of paramilitary violence in three neighbouring Balkan countries Yugoslavia Bulgaria and Albania after the First World War. It shows the role of paramilitarism in internal and external policies in all three states focusing on the main actors and perpetrators of paramilitary violence their social backgrounds motivations and future career trajectories. Dmitar Tasić places the region into the broader European context of booming paramilitarism that came as the result of the first global conflict dissolution of old empires the creation of nation states and simultaneous revolutions. While paramilitarism in most post Great War European states was the product of violence of the First World War and brutalization which societies of both victorious and defeated countries went through paramilitarism in the Balkans was closely connected with the already existing traditions originating from the period of armed struggle against Ottoman rule and state and nation building projects of the late nineteenth and early twentieth centuries. Paramilitary traditions were so strong that in all subsequent crises and military conflicts in the Balkans the legacy of paramilitarism remained alive and present.

Basing his work on a wide range of unpublished documentary sources David French reassesses for the benefit of students and scholars alike what was meant by a war of attrition.

British Clandestine Activities in Romania during the Second World War Dennis Deletant, 2016-04-08  
 British Clandestine Activities in Romania during the Second World War is the first monograph to examine the activity throughout the entire war of SOE and MI6. It was generally believed in Britain's War Office after Hitler's occupation of Austria in March 1938 that Germany would seek to impose its will on South East Europe before turning its attention towards Western Europe. Given Romania's geographical position there was little Britain could offer her. The brutal fact of British Romanian relations was that Germany was inconveniently in the way opportunity proximity of manufacture and the logistics of supply all told in favour of the Third Reich. This held of course for military as well as economic matters. In these circumstances the British concluded that their only weapon against German ambitions in countries which fell into Hitler's orbit were military subversive operations and a concomitant attempt to draw Romania out of her alliance with Germany.
