Department of Printed Books, 1889 British Museum Catalogue of printed Books, 1889 Human Nature vs. Democracy Ludwig M. Auer, 2019-05-21 Modern liberal democracy is praised in a universalistic Western view as the best political system and a quasi prerequisite for full acceptance by the community of traditional hegemonial States However democracy is fully developed in only less than five percent of States globally and in decline in most Western countries In this book democracy is presented as a political system in danger due to its intrinsic flaws and tendency to self destruction. The major flaw is that human nature is not adequately considered in democracy s conception its citizens. We the people as individuals and as crowds are liberated into a dangerous ideology prioritizing freedom from society over membership in society and thereby causing decline in libertinism hedonism and polarization in divided and finally broken societies Proposals to resolve the rapidly growing crisis include education of citizens into the ethics of reciprocal altruism grounded in evidence from biological sciences and humanities professionalization of politics and a fundamental change of politics towards evidence based decision making thus ending politicking politicians personality affairs and the cold war of political parties the representative of class

warfare in the sheep skin of interest group pluralism The author uses his background in human biology and psychology to discuss the relevance of philosophical and politological issues around democracy raised in past and recent literature and to highlight the prospects of using scientific knowledge for evidence based socialization of the human factor and the True Nature of Anxiety-Based Disorders (Shinkeishitsu) Shoma Morita, 1998-04-30 This book presents the progressive nature of Morita therapy across four distinct stages an isolation rest stage a light monotonous work stage a labor intensive work stage and the social integration stage Essentially the experiential knowledge the clients gain by moving through the inpatient treatment becomes the therapy Though the classical therapy was initially designed to treat anxiety based disorders it is presently used in Japan China and Australia for depression personality disorders eating disorders and post traumatic stress disorder Morita therapy fosters akiraka ni mikiwameru koto in the client clear discernment and a healthy mind body Throughout the book Morita reflects on the theories of his contemporaries such as Sigmund Freud William James Mario Montessori and Jean Charcot Aspects of Nature, in Different Lands and Different Climates Alexander The Divine Covenants: Their Nature and Design; Or, The Covenants Considered as von Humboldt, 1849 Successive Stages in the Development of the Divine Purposes of Mercy. [Congregational Lecture for 1860.] John Kelly (Minister of Crescent Chapel, Everton.),1861 **Nature** ,1896 The Catholic Encyclopedia Charles George Herbermann, 1908 Ocean of Attainments Yael Bentor, 2024-04-16 This commentary on Guhyasamaja tantra is the seminal quide to deity yoga and tantric visualization for the Geluk school of Tibetan Buddhism Ocean of Attainments was composed by Khedrup J Gelek Palsang 1385 1438 one of Tsongkhapa Losang Drakpa's most prominent disciples Its subject is the creation stage a quintessential Buddhist tantric meditation that together with the completion stage comprises the path of unexcelled tantra The Guhyasamaja Tantra referred to as the king of all tantras is revered in Tibet especially by the Geluk school for its hermeneutic methods which are in turn applied to other tantras In the creation stage meditators visualize themselves as buddhas at the center of the celestial mandala surrounded in all directions by male and female bodhisattvas and enlightened beings Since the core of the practice is visualization this meditation perhaps more than other meditations presumes the creative power of the mind Visualizations form the basis not only of the creation stage and deity yoga but of all tantric practices and rituals since tantric practice takes place not in mundane existence but in the illusion like purity of the enlightened view While the previously published Essence of the Ocean of Attainments is a concise exposition on the practice of the Guhyasamaja sadhana Ocean of Attainments is much more detailed providing extensive scriptural citations clear explanation of the body mandala arguments on points of contention reference to other tantric systems and critiques of misinterpretations Complemented by the extensive and clear introduction this volume is a vital contribution to the growing body of scholarship on Guhyasamaja and on Buddhist tantra in general The Nature and Types of Sociological Theory Don Martindale, 2013-11-05 First Published in 1998 This is Volume XI of twenty two in a series on Social Theory and Methodology

Notions are widespread that sociological theory is either an industrious activity on the drawing boards of the architects of fantasy or a branch of esoterics operating in a shadowy realm of semi darkness The present study holds neither of these conceptions of sociological The present study s function is to illuminate the difference between one theory and another The power and reliability of a theory are not always evident all at once A theory may have a power to explain what was not originally anticipated it may also disclose the existence of problems it cannot explain Historicity of Nature Wolfhart Pannenberg, 2008 Known as one of the most outstanding theologians of the twentieth century Wolfhart Pannenberg is also considered a great interdisciplinary thinker Now essays and articles on science and theology that are central to understanding Pannenberg's theories have been collected into one volume Niels Henrik Gregersen a former student of Pannenberg and now professor of systematic theology at Copenhagen University has compiled the writings in four sections Methodology Creation and Nature's Historicity Religion and Anthropology and Meaning and Metaphysics Included in this volume are Translations of Pannenberg's principled argument for the consonance between science and religion including contingency and laws of nature field theories and space time and divine action Translations of Pannenberg's theory of theology as a rational hypothetical science including his discussions with leading British and American scholars such as A N Whitehead John Cobb and Langdon Gilkey Previously unpublished articles on the problems between science and theology in the course of modern history explaining why chance may be more important for theology than design Translations of seminal articles that articulate Pannenberg's understanding of the role of religion in human nature One of the few theological articles on aggression as a psychological and social phenomenon With this collection the essays of this important contemporary theologian and his illuminating views are presented in one convenient volume Catalogue of Printed Books ,1889

The Origins of the Idea of Scientific Progress Daniel Špelda,2024-06-21 This volume offers a new interpretation of the genesis of the idea of scientific progress in early modern science and philosophy The interpretation argues that the idea of scientific progress was not a historical category but an epistemological one The main thesis of the book posits that the idea of scientific progress was a methodological means of dealing with the contingency of nature To illustrate the novelty of the idea the individual chapters compare several features of Renaissance natural philosophy with a new regime of knowledge that included time as an inevitable factor of empirical research The temporal regime of knowledge is illustrated by the work of Bernard de Fontenelle and his colleagues at the Acad mie des sciences in Paris at the end of the 17th century The new interpretation remedies a gap in recent scholarship where the idea of scientific progress has been overlooked even though the early modern natural philosophers themselves used it to describe the nature of their research The book places both well known texts and less studied documents in a new light thus contributing to the lively and rich debate on the origins and nature of early modern science and philosophy It is of interest to scholars studying the history of early modern philosophy and science

Incest, Drama and Nature's Law, 1550-1700 Richard A. McCabe, 2008-10-30 This is a full length study of

incest in English Renaissance and Restoration drama Richard McCabe s comprehensive survey offers a literary history of this theme informed by an investigation of the intellectual background with particular emphasis on changing concepts of natural law and consequent reassessments of classical tradition It examines a wide range of theological philosophical legal and literary sources in the context of modern psychological and sociological theories of family development Extensive comparisons with classical models and contemporary European dramatists from Tasso to Corneille and Racine explore the volatile association between dramatic form and emotional content structural experiment and sexual ambivalence The centrality of the family to all human relationships and the mutual reflection of familial politics and the patriarchal state make incest a powerful metaphor for the ambivalence of all concepts of natural authority and for various forms of social and political revolt The Nature Essay Simone Schröder, 2019-01-04 The Nature Essay Ecocritical Explorations is the first extended study of a powerful literary form born out of the traditions of Enlightenment and Romanticism It traces the varied stylistic paradigms of the nature essay down to the present day Reading essays as platforms for ecological discourse the book analyses canonical and marginalised texts mainly from German English and American literature Simone Schr der argues that the essay's environmental impact is rooted in its negotiation of scientific poetic spiritual and ethical modes of perceiving nature Together the chapters on these four aspects form a historical panorama of the nature essay as a genre that continues to flourish in our time of ecological crisis Authors discussed include Alexander von Humboldt Henry David Thoreau Virginia Woolf Robert Musil Ernst J nger W G Sebald Kathleen Jamie and David Foster Wallace Nature and Art ,1866
