American Sniper Vs Lone Survivor:

American War Stories Brenda M. Boyle,2020-11-13 American War Stories asks readers to contemplate what traditionally constitutes a war story and how that constitution obscures the normalization of militarism in American culture The book claims the traditionally narrow scope of war story as by a combatant about his wartime experience compartmentalizes war casting armed violence as distinct from everyday American life Broadening war story beyond the specific genres of war narratives such as war films war fiction or war memoirs American War Stories exposes how ingrained militarism is in everyday American life a condition that challenges the very democratic principles the United States is touted as exemplifying

The Defeated and the Dead Mark Percy,2024-07-01 How do we teach about war How can social studies teachers empower students to understand how wars are started how they are fought and how they are ended Films about war are featured in nearly all social studies classrooms across the US with practically every American teenager watching at least one historical film during their time in middle and high school Without the mandatory class viewing most of these movies would not have been seen by them otherwise Film is the medium through which most Americans learn about their national past But a passive viewing of a movie about war does little to help students learn to be critical thinkers about their country s choices In *The Defeated and the Dead Teaching About War Through Film* Dr Mark Percy outlines strategies and resources for teachers to incorporate movies about war into their classes in an effective thoughtful manner Employing elements of the Just War doctrine the basis for most international law and treaties this book highlights how teachers can make use of widely used films like *Saving Private Ryan* *Platoon* and *Glory* as well as other movies that span our nation s history from the American Revolution to modern conflicts By focusing on critical frameworks like Just War as well as featuring films both about war and the avoidance of war *The Defeated and the Dead* offers social studies teachers a valuable tool to approach difficult contentious topics in their classrooms

A Global Racial Enemy Saher Selod,Inaash Islam,Steve Garner,2023-11-28 Prejudice against Muslims has a long and complex history In recent decades discrimination violence and human rights abuses against Muslims have taken a significant turn with rising reports and discussions of Islamophobia across the globe However much of the conversation has missed the key features of this increasingly insidious phenomenon This original book puts race at the center of the analysis exposing the global racialization of Muslims With special attention paid to the United States China India and the United Kingdom the authors examine both the unique national contexts and crucially the shared characteristics of anti Muslim racism They uncover how a range of counterterrorism policies from hyper surveillance to racialized policing and the ensuing representation of Islam have taken a decisive role in shaping social life for Muslims and have worked across borders to justify and institutionalize an acceptable state sponsored face of racism Ultimately *A Global Racial Enemy* argues that anti Muslim animus is a symptom of a global and powerful form of twenty first century racism

Studying The Hurt Locker Terence McSweeney,2019-07-02 In this vibrant and dynamic book length study drawing on

a broad tapestry of research Terence McSweeney offers an exploration of *The Hurt Locker* 2009 its stylistic and narrative devices its cultural impact its reception and its relationship to the genre of the war film McSweeney places the film in a richly textured historical political and industrial context arguing that *The Hurt Locker* is part of a long tradition of films about American wars that play a considerable role in how audiences come to understand the conflicts that they depict Thus films about a nation's wars are never only a movie but rather should be considered a cultural battleground themselves on which a war of representation is waged

The Films of Clint Eastwood Matt Wanat, Leonard

Engel, 2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood's 2014 *American Sniper* a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

Victory Undone Carter Andress, Malcolm McConnell, 2014-10-20 Here is a dramatic first person account of how the United States won the war in Iraq only to see the peace lost by an unengaged administration with Iraqis terrorized and the new caliph of ISIS promising I'll see you in New York Military contractor Carter Andress was the ultimate boots on the ground civilian in Iraq While reporters aid workers diplomats and even U.S. soldiers were often cut off from the ground truth in Iraq by the blast walls protecting the Green Zone and our bases Andress was in the thick of things driving through insurgent infested territory negotiating with hostile tribes and witnessing the transformation of Iraq from chaos and violence to a stable multi ethnic multi sectarian democracy that needed only minimal American support to defend itself support however that thanks to the Obama administration was not forthcoming A page turner of a story but also an incredibly important account of what actually happened in the Iraq War and afterwards Victory Undone is a book every American needs to read *Military Ethics*

Disappearing War Christina Hellmich, 2017-02-03 The battles fought in the name of the war on terror have re-ignited questions about the changing nature of war and the experience of war for those geographically distant from its real world consequences What is missing from our highly mediated experience of war What are the intentional and unintentional processes of erasure through which the distortion happens What are their consequences Cinema is a key site at which questions about our highly mediated experience of war can be addressed or more significantly elided Looking at a range of films that have provoked debate from award winning features like Zero Dark Thirty

Film as Religion, Second Edition John C. Lyden, 2019-11-26 Argues that popular films perform a religious function in our culture The first edition of Film as Religion was one of the first texts to develop a framework for the analysis of the religious function of films for audiences Like more formal religious institutions films can provide us with ways to view the world and the values to confront it Lyden argues that the cultural influence of films is analogous to that of religions so that films can be understood as representing a religious worldview in their own right Thoroughly updating his examples Lyden examines a range of film genres and individual films from The Godfather to The Hunger Games to Frozen to show how film can function religiously

From man to man Alexander von Gruenau, 2025-03-13 Understanding male menopause as a new beginning Even the longest journey begins with the first step says Confucius I too had to overcome myself to take this step and write this book Male menopause A taboo subject that I experienced first hand What started out as a mild uneasiness became a relentless process that put my marriage my career and my self image to the test Inexplicable fits of rage sleepless nights cheating and constant mood swings I felt like I was on an unstoppable rollercoaster ride Sound familiar You're not alone This book is more than just an account of my experiences it's an honest look at the lows and the turning points in the life of a man who has grown not only through the menopause but also through himself There are countless books and guides by women for women but there is not a single book in the German speaking world that supports us men in this phase of life I break the silence and show that talking about it is not a sign of weakness Rather there is an unexpected strength in acceptance I reveal my innermost thoughts my failings my successes and my failures Starting with my childhood and continuing to the present day You will learn how physical changes affect our self image and why men often fall into the trap of affairs or unhealthy behavior patterns And more importantly I will show you ways to rediscover yourself and set new goals whether in your relationship your career or your inner self This book will help you to reflect on yourself to accept the changes and hopefully not to make the same mistakes as me Yours sincerely Alexander von Gruenau

the Nazis used the swastika as part of a visually sophisticated propaganda program that was not only modernist but also the forerunner of contemporary brand identity When the United States military tried to answer Nazi displays of graphic power it failed In the end the best graphic response to the Nazis was produced by the Walt Disney Company Using numerous examples of US and Nazi military heraldry *Gorgeous War* compares the way the American and German militaries developed their graphic and textile design in the interwar period The book shows how social and cultural design movements like modernism altered and were altered by both militaries It also explores how nascent corporate culture and war production united to turn national brands like IBM Coca Cola and Disney into multinational corporations that had learned lessons on propaganda and branding that were being tested during the Second World War What is the legacy of apparently toxic signs like the swastika The answer may not be what we hoped Inheritors of the post Second World War world increasingly struggle to find an escape from an intensely branded environment to find a place in their lives that is free of advertising and propaganda This book suggests that we look again at how it is our culture makes that struggle into an appealing *Gorgeous War* *Our Fears Made Manifest* Ashley Jae Carranza, 2021-02-24 The beginning of the 21st century was a time of unprecedented events in American society Y2K 9 11 and the wars that followed partisan changes in government and the rapid advancements of the Internet and mass consumerism In the two decades since popular culture particularly film has manifested the underlying anxieties of the American psyche This collection of new essays examines dozens of movies released 1998 2020 and how they drew upon and spoke to mass cultural fears Contributors analyze examples across a range of genres horror teen rom coms military flicks slow burns and animated children s films covering topics including gender and sexuality environmental politics technophobia xenophobia and class and racial inequality *Blockbusters and the Ancient World* Chris Davies, 2019-03-21 Following the release of Ridley Scott s *Gladiator* in 2000 the ancient world epic has experienced a revival in studio and audience interest Building on existing scholarship on the Cold War epics of the 1950s 60s including *Ben Hur* *Spartacus* and *The Robe* this original study explores the current cycle of ancient world epics in cinema within the social and political climate created by September 11th 2001 Examining films produced against the backdrop of the War on Terror and subsequent invasions of Iraq and Afghanistan this book assesses the relationship between mainstream cinema and American society through depictions of the ancient world conflict and faith Davies explores how these films evoke depictions of the Second World War the Vietnam War and the Western in portraying warfare in the ancient world as well as discussing the influence of genre hybridisation narration and reception theory He questions the extent to which ancient world epics utilise allegory analogy and allusion to parallel past and present in an industry often dictated by market forces Featuring analysis of *Alexander* *Troy* *300* *Centurion* *The Eagle* *The Passion of the Christ* and more this book offers new insight on the continued evolution of the ancient world epic in cinema **White Supremacy and the American Media** Sarah D. Nilsen, Sarah E. Turner, 2021-11-29 This volume examines the ways in which the media including film television

social media and gaming has constructed and sustained a narrative of white supremacy that has entered mainstream American discourse. With chapters by today's preeminent critical race scholars, the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape. Systematically scrutinizing every media platform, this volume provides readers with an understanding of the ways in which media has provided institutional support for white supremacist ideology and presents them with the means to examine and analyze the persistence of these narratives within our racial discourse, thus offering the necessary knowledge to challenge and transform these racially divisive and destructive narratives. *White Supremacy and the American Media* will be of interest not only to scholars working in critical race studies and popular culture in the United States but also to those working in the fields of Film and Television Studies, Sociology, Geography, Art History, Communication, and Media Studies, Cultural Studies, American Studies, Popular Culture, and Media Studies.

Security and Terror Eli Jelly-Schapiro, 2018-05-11. When in 1492 Christopher Columbus set out for Asia but instead happened upon the Bahamas, Cuba, and Hispaniola, his error inaugurated a specifically colonial modernity. This is *Security and Terror*, which contends the colonial modernity within which we still live. And its enduring features are especially vivid in the current American century, a moment marked by a permanent War on Terror and pervasive capitalist dispossession. Resisting the assumption that September 11, 2001, constituted a historical rupture, Eli Jelly Schapiro traces the political and philosophic genealogies of security and terror from the settler colonization of the New World to the wars in Afghanistan, Iraq, and beyond. A history of the present crisis, *Security and Terror* also examines how that history has been registered and reckoned with in significant works of contemporary fiction and theory in novels by Teju Cole, Mohsin Hamid, Junot Díaz, and Roberto Bolaño and in the critical interventions of Jean Baudrillard, Giorgio Agamben, Judith Butler, Michael Hardt, and Antonio Negri and others. In this richly interdisciplinary inquiry, Jelly Schapiro reveals how the erasure of colonial pasts enables the perpetual reproduction of colonial culture.
