All Stories Are True Tracie Church Guzzio, 2011-05-17 In *All Stories Are True* Tracie Church Guzzio provides the first full length study of John Edgar Wideman s entire oeuvre to date Specifically Guzzio examines the ways in which Wideman b 1941 engages with three crucial themes history myth and trauma throughout his career showing how they intertwine Guzzio argues that for four decades the influential African American writer has endeavored to create a version of the African American experience that runs counter to mainstream interpretations using history and myth to confront and then heal the trauma caused by slavery and racism Wideman s work intentionally blurs boundaries between fiction and autobiography myth and history particularly as that history relates to African American experience in his hometown of Pittsburgh Pennsylvania The fusion of fiction national history and Wideman s personal life is

characteristic of his style which due to its complexity and smudging of genre distinctions has presented analytic difficulties for literary scholars Despite winning the PEN Faulkner award twice for *Sent for You Yesterday* 1984 and *Philadelphia Fire* 1990 Wideman remains under studied Of particular value is Guzzio s analysis of the many ways in which Wideman alludes to his previous works This intertextuality allows Wideman to engage his books in direct intentional dialogue with each other through repeated characters images folktales and songs In Wideman s challenging of a monolithic view of history and presenting alternative perspectives to it and his allowing past present and future time to remain fluid in the narratives Guzzio finds an author firm in his notion that all stories and all perspectives have merit Handbook of the American Short Story

Masculinity in Vietnam War Narratives Brenda M. Boyle, 2014-01-10 Occurring alongside the Women's Rights, Gay Rights, Civil Rights and other identity movements of the 1960s, the Vietnam War was part of an era that rescripted gender and other social identity roles for many if not most Americans. This book examines the ways in which the war and its accompanying movements greatly altered traditional American conceptions of masculinity as reflected in discourses ranging from fictional narratives to memoirs, films and military recruiting advertisements. Analysis of two canonical fiction texts: John Del Vecchio's *The 13th Valley* and Bobbie Ann Mason's *In Country* illustrates the interrelatedness of race, sexuality, disability and masculinity, an approach appearing in no other book-length study. The text illustrates how decades later the masculine anxieties of the Vietnam era persist.

The Growth of the American Thought Merle Eugene Curti, Hailed as a pioneer achievement upon its original publication and awarded the Pulitzer Prize in history in 1944, *The Growth of American Thought* has won appreciative reviews and earned the highest regard among historians of the national experience. With his elaboration of the complex interrelationships between the growth of American thought and the whole American social milieu, Curti creates not only an intellectual history but a social history of American thought.

Black Masculinity and the U.S. South Riché Richardson, 2010-01-25 This pathbreaking study of region, race and gender reveals how we underestimate the South's influence on the formation of black masculinity at the national level. Many negative stereotypes of black men, often contradictory ones, have emerged from the ongoing historical traumas initiated by slavery. Are black men emasculated and submissive or hypersexed and violent? Nostalgic representations of black men have arisen as well: think of the philosophical, hardworking sharecropper or the abiding upright preacher. To complicate matters, says Riché Richardson, blacks themselves appropriate these images for purposes never intended by their mostly white progenitors. Starting with such well-known caricatures as the Uncle Tom and the black rapist, Richardson investigates a range of pathologies of black masculinity that derive ideological force from their associations with the South. Military policy, black liberation discourse and contemporary rap, she argues, are just some of the instruments by which egregious pathologies of black masculinity in southern history have been sustained. Richardson's sources are eclectic and provocative, including Ralph Ellison's fiction, Charles Fuller's plays, Spike Lee's films, Huey Newton's and Malcolm X's political rhetoric, the O. J. Simpson discourse and the music production of Master P, the Cash Money Millionaires and other Dirty South rappers. Filled with new insights into the region's role in producing hierarchies of race and gender in and beyond their African American contexts, this new study points the way toward more epistemological frameworks for southern literature, southern studies and gender studies.

How to Revise a True War Story John K. Young, 2017-01-15 You can tell a true war story if you just keep on telling it Tim O Brien writes in *The Things They Carried* Widely regarded as the most important novelist to come out of the American war in Viet Nam O Brien has kept on telling true war stories not only in narratives that cycle through multiple fictional and non fictional versions of the war s defining experiences but also by rewriting those stories again and again Key moments of revision extend from early drafts to the initial appearance of selected chapters in magazines across typescripts and page proofs for first editions and through continuing post publication variants in reprints *How to Revise a True War Story* is the first book length study of O Brien s archival papers at the University of Texas s Harry Ransom Center Drawing on extensive study of drafts and other prepublication materials as well as the multiple published versions of O Brien s works John K Young tells the untold stories behind the production of such key texts as *Going After Cacciato* *The Things They Carried* and *In the Lake of the Woods* By reading not just the texts that have been published but also the versions they could have been Young demonstrates the important choices O Brien and his editors have made about how to represent the traumas of the war in Viet Nam The result is a series of texts that refuse to settle into a finished or stable form just as the stories they present insist on being told and retold in new and changing ways In their lack of textual stability these variants across different versions enact for O Brien s readers the kinds of narrative volatility that is key to the American literature emerging from the war in Viet Nam Perhaps in this case you can tell a true war story if you just keep on revising it

Fight Sports and American Masculinity Christopher David Thrasher, 2015-06-14 Throughout America s past some men have feared the descent of their gender into effeminacy and turned their eyes to the ring in hopes of salvation This work explains how the dominant fight sports in the United States have changed over time in response to broad shifts in American culture and ideals of manhood and presents a narrative of American history as seen from the bars gyms stadiums and living rooms of the heartland Ordinary Americans were the agents who supported and participated in fight sports and determined its vision of masculinity This work counters the economic determinism prevalent in studies of American fight sports which overemphasize profit as the driving force in the popularization of these sports The author also disputes previous scholarship s domestic focus with an appreciation of how American fight sports are connected to the rest of the world

Masculinity in Contemporary New

York Fiction Peter Ferry, 2014-08-21 *Masculinity in Contemporary New York Fiction* is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction. This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives. Gendering canonical New York writers namely Paul Auster, Bret Easton Ellis, and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning. The themes that feature in this study include the role of the novel in American society, the individual and urban society, the journey from innocence to awareness of masculinity, the archetypal image of the absent and/or patriarchal father, the impact of homosocial relations on the everyday performance of masculinity, male sexuality and the male individual and globalization. What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature, the flâneur. These authors take the flâneur from the shadows of the Manhattan streets and elevate this figure to the role of self-reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity. This book is an essential reference for those with an interest in gender studies and contemporary American fiction.
