Aziz, 2017 Proceedings of the 5th International Conference on Innovation and Entrepreneurship held in Cyberjaya Malaysia on 26th-27th April 2017      **Audit Culture** Cris Shore, Susan Wright, 2024-02-20 A new and compelling argument for why so many institutions continue to be spellbound by rankings and

metrics despite the cultural carnage they cause How can we halt this death by audit The authors develop a radical agenda that will strike fear into number loving technocrats around the world Peter Fleming author of Dark Academia How Universities Die A powerful and definitive critical diagnosis of the effects of audit culture on individuals organisations and society Essential reading Michael Power Professor LSE A visionary book Marilyn Strathern Emeritus Professor University of Cambridge All aspects of our work and private lives are increasingly measured and managed But how has this audit culture arisen and what kind of a world is it producing Cris Shore and Susan Wright provide a timely account of the rise of the new industries of accounting enumeration and ranking from an anthropological perspective Audit Culture is the first book to systematically document and analyse these phenomena and their implications for democracy The book explores how audit culture operates across a wide range of fields including health higher education NGOs finance the automobile industry and the military The authors build a powerful critique of contemporary public sector management in an age of neoliberal market making privatisation and outsourcing They conclude by offering ideas about how to reverse its damaging effects on communities and restore the democratic accountability that audit culture is systematically undermining Cris Shore is Emeritus Professor of Social Anthropology at Goldsmiths University of London and Research Fellow at the Institute for Advanced Study Central European University One of his recent publications is The Shapeshifting Crown Susan Wright is Professor of Educational Anthropology at Aarhus University Denmark One of her recent books is Enacting the University Together they are co editors of the Stanford Anthropology of Policy book series Streaming and Copyright Law Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing

digital content even if they lack any knowledge about the content's infringing nature. Moreover, the grey areas in circumventing geo-blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo-blocking. End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement. Despite the intricacies between copyright and access to digital content, the recently implemented website blocking laws have emboldened copyright owners while suppressing end users' access to digital content. This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions.

*Milton Friedman* Jennifer Burns, 2023-11-14 An Economist Best Book of 2023. One of The New York Times 33 Nonfiction Books to Read This Fall. Named a most anticipated fall book by the Chicago Tribune and Bloomberg. Finalist for the 2024 Hayek Book Prize. Wherever you sit on the political spectrum, there's a lot to learn from this book. More than a biography of one controversial person, it's an intellectual history of twentieth-century economic thought. Greg Rosalesky NPR's Planet Money. The first full biography of America's most renowned economist, Milton Friedman, was alongside John Maynard Keynes, the most influential economist of the twentieth century. His work was instrumental in the turn toward free markets that defined the 1980s, and his full-throated defenses of capitalism and freedom resonated with audiences around the world. It's no wonder the last decades of the twentieth century have been called the Age of Friedman, or that analysts have sought to hold him responsible for both the rising prosperity and the social ills of recent times. In *Milton Friedman*, the first full biography to employ archival sources, the historian Jennifer Burns tells Friedman's extraordinary story with the nuance it deserves. She provides lucid and lively context for his groundbreaking work on everything from why dentists earn less than doctors to the vital importance of the money supply to inflation and the limits of government planning and stimulus. She traces Friedman's long-standing collaborations with women, including the economist Anna Schwartz, his complex relationships with powerful figures such as the Federal Reserve chairman Arthur Burns and the Treasury secretary George Shultz, and his direct interventions in policymaking at the highest

levels Most of all Burns explores Friedman s key role in creating a new economic vision and a modern American conservatism The result is a revelatory biography of America s first neoliberal and perhaps its last great conservative Asia-Pacific Regional Security Assessment 2022 The International Institute for Strategic Studies (IISS),2022-06-10 The Asia Pacific Regional Security Assessment examines key regional security issues relevant to the policy focused discussions of the IISS Shangri La Dialogue Asia s premier defence summit convened by the International Institute for Strategic Studies It is published each year in association with the Dialogue and the issues analysed within its covers are central to discussions at the event Among the topics explored are US Indo Pacific strategy alliances and security partnerships Chinese perspectives on regional security Taiwan s security and the possibility of conflict the continuing challenges posed by North Korea s nuclear and missile programmes the nuclear dynamics of Sino American security relations air and naval operations in the Asia Pacific Sino American technology competition Japan s competition and cooperation with China India s role in the Quadrilateral Security Dialogue Quad the evolving regional security engagement of European states and the European Union China s role as an upstream state in the Mekong sub region and the climate crisis and Asia Pacific security As this volume goes to press the war in Ukraine overshadows the international security landscape and many chapters in this volume touch on the conflict s ramifications for security in the Asia Pacific Authors include leading regional analysts and academics at the forefront of research and analysis Aidan Foster Carter James Crabtree Peter A Dutton Brian Eyler Michael Green Sheryn Lee Jeffrey G Lewis Tanvi Madan Jeffrey Mazo Ben Schreer Yun Sun Nicholas Szechenyi Brendan Taylor Ashley Townshend and Paul Triolo
