Sir Ranulph Fiennes *The Car Show* Nicolae Sfetcu, 2014-04-27 This e-book details the most interesting and important characteristics of the automobiles: car maintenance, styling features, car body style, the standard classification of the cars, an history of the automobiles, introduction in the automotive industry and the traffic code rules and signs. An automobile usually called a car, an old word for carriage or a truck is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car with motor referring to what is now usually called the engine. It has seats for the driver and almost without exception for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction in New York City over 10 000 tons of manure had to be removed from the streets daily. However in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects **Driven** John Aston, 2019 John Aston's anecdotes with strong opinion and acute observations recount insightful and affectionate portraits of the many facets of motor sport, its people and its places. **DRIVEN** takes you on a journey from Lake District vintage car trials to drag racing at Santa Pod, NASCAR racing in North Carolina and international events at Silverstone **The Primary Objective** Martin Venning, 2021-01-28 For some the primary objective is to stop a conflict, for others the primary objective is to exercise power but for most the primary objective is to make money. Peace International is a New York based global reconciliation and mediation charity that seeks to prevent wars, regional disputes and rebuild civil societies. When a tip comes in that Iran is building a chemical and biological weapons research and production centre it soon becomes clear that where they're considering building close to the border with Azerbaijan could destabilise the Gulf region and beyond. Selecting a small team of volunteers they form a task force to collect evidence entering through a dangerous semi-lawless area in southern Azerbaijan. What they discover is a far more complicated web of challenges than a weapons facility. For PI Operations Director Edwin Wilson the mission is his most perilous yet threatening the lives of his team and the international reputation of his organisation. But for two Iranian men Fawaz and Jamshid the stakes are even higher. Driven by contrasting personal circumstances and life chances they face difficult choices as they seek different paths to prosperity in a controlling repressive society that takes no prisoners alive.

Detective Superintendent Mark Faraday of Special Branch and DCI Kay Yin are determined to find out but in their search for answers they encounter MI5 and America's NSA, treason and callous murder where deception and duplicity are common place and truth an inconvenience and an illusion.
