The Function and Use of TO and OF in Multi-Word Units Michael Pace-Sigge, 2016-04-29 The highly frequent word items TO and OF are often conceived merely as prepositions carrying little meaning in themselves This book disputes that notion by analysing the usage patterns found for OF and TO in different sets of text corpora **Guide to Reference Books** Robert Balay, Vee Friesner Carrington, Murray S. Martin, 1996 Presents an annotated bibliography of general and subject reference books covering the humanities social and behavioral sciences history science technology and medicine **Sites of International Memory** Glenda Sluga, Kate Darian-Smith, Madeleine Herren, 2023-08-08 Whether we think of statues plaques street names practices material or intangible forms of remembrance the language of collective memory is everywhere installed in the name of not only nations or even empires but also an international past The essays in Sites of International Memory address the notion of a shared past and how this idea is promulgated through sites and commemorative gestures that create or promote cultural memory of such global issues as wars genocide and movements of cross national trade and commerce as well as resistance and revolution In doing so this edited collection asks Where are the sites of international memory What are the elements of such memories of international pasts and of internationalism How and why have we remembered or forgotten sites of international memory Which elements of these international pasts are useful in the present Some contributors address specific sites and moments World War II liberation movements in India and Ethiopia commemorations of genocide while other pieces concentrate more on the theoretical on the idea of cultural memory UNESCO's presence looms large in the volume as it is the most visible and iconic international organization devoted to creating critical heritage studies on a world stage Formed in the aftermath of World War II UNESCO was instrumental in promoting the idea of a humanity that exists beyond national regional or cultural borders or definitions Since then UNESCO's diplomatic and institutional channels have become the sites at which competing notions of international world and human communities have jostled in conjunction with politically specific understandings of cultural value and human rights This volume has been assembled to investigate sites of international memory that commemorate a past when it was possible to imagine identify and invoke international ideas institutions and experiences in diverse historically situated contexts Contributors Dominique Biehl Kristal Buckley Roland Burke Kate Darian Smith Sarah C Dunstan David Goodman Madeleine Herren Philippa Hetherington Rohan Howitt Alanna O Malley Eric Paglia Glenda Sluga Sverker Srin Carolien Stolte Beatrice Wayne Ralph Weber Jay Winter **Troubling Inheritances** Sara Cohen, Line Grenier, Ros Jennings, 2022-08-11 This book provides an interdisciplinary focus on music memory and ageing by examining how they intersect outside of a formal therapeutic context or framework and by offering a counter narrative to age as decline It contributes to the development of qualitative research methodologies by utilizing and reflecting on methods for studying music memory and ageing across diverse and interconnected contexts Using the notion of inheritance to trouble its core themes of music

memory ageing and methodology it examines different ways in which the concept of inheritance is understood but also how it commonly refers to the practice of passing on and the connections this establishes across time and space It confronts the ageist discourses that associate popular music predominantly with youth and that focus narrowly and almost exclusively on music s therapeutic function for older adults By presenting research which examines various intersections of music and ageing outside of a therapeutic context or framework the book brings a much needed intervention

Reader's Guide to the History of Science Arne Hessenbruch,2013-12-16 The Reader s Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn

Neutrality and International Sanctions John Ross,1989-11-03 Ross here presents a comparative historical study of European neutrality policy with special reference to the problem posed to neutral countries by the imposition of international collective sanctions The study takes the form of an extended and detailed comparative examination of Swedish and Swiss responses to the League of Nation s embargo against Italy in 1935 36 and the United Nation s sanctions against Rhodesia in 1965 79 Through this analysis the author explores how and why Swedish and Swiss policies toward sanctions have differed over time and what these differences reveal about neutrality policy in general particularly in relation to collective security actions taken by international organizations An ideal supplemental text for graduate and advanced undergraduate courses in comparative politics international relations and international organization this volume will also be of significant benefit to policymakers interested in reviewing past sanctions cases as a guidepost for determining the feasibility of similar operations in the future The book is distinguished by its broad historical approach and by its close comparison of the two countries not only in terms of their sanctions policies but also in terms of their domestic political structures and individual overall formulations of neutrality policy Ross demonstrates that despite the many background similarities between Sweden and Switzerland the two states have differed substantially in their responses to sanctions operations He analyzes the reasons for these differences challenging traditionally held views that characterize Sweden s policies as changeable and Switzerland s as consistent Finally Ross identifies seven explanatory factors derived from the four case studies which can be used to determine how other source states both neutral and non neutral might respond to future cases of sanctions

Education and Political Subjectivities in Neoliberal Times and Places Eva Reimers,Lena Martinsson,2016-10-04 Education and Political Subjectivities in Neoliberal Times and Places investigates the

conditions and possibilities for political subjectivities to emerge in international educational contexts where neoliberal norms are repeated performed and transformed Through demonstrating the possibility of political subjectivities this book argues that neoliberalism should neither be considered post political nor a natural law by which educational practices have to abide This book considers how political subjectivities are made possible in education in spite of dominant neoliberal norms Chapters address key theoretical discussions surrounding these different sometimes contradicting norms and their relationship to education economy and politics This innovative approach considers diverse educational and political initiatives in the wake of new public management postcolonial perspectives on neoliberal education and educational practices and critical possibilities The book advocates understanding and enacting democracy as an experiment based on the conception that democracy is constantly constructed and constitutes a transformative process in society in general as well as in education This book advances the argument that there is still room for political subjectivity in spite of the dominance of neoliberal educational governance It will appeal to researchers academics and postgraduate students in the fields of higher education education policy and politics sociology of education and comparative and international education as well as those interested in neoliberalism new public management and inequality

Crusade and Conversion on the Baltic Frontier 1150-1500 Alan V. Murray,2017-07-05 This volume represents a major contribution to the history of the Northern Crusades and the Christianization of the Baltic lands in the Middle Ages from the beginnings of the Catholic mission to the time of the Reformation The subjects treated range from discussions of the ideology and practice of crusade and conversion through studies of the motivation of the crusading countries Denmark Sweden and Germany and the effects of the crusades on the countries of the eastern Baltic coast Finland Estonia Livonia Prussia and Lithuania to analyses of the literature and historiography of the crusade It brings together essays from both established and younger scholars from the

western tradition with those from the modern Baltic countries and Russia and presents in English some of the fruits of the first decade of historical scholarship and dialogue after the collapse of the Iron Curtain The depth of treatment diversity of approaches and accompanying bibliography of publications make this collection a major resource for the teaching of the Baltic Crusades

Nature in the New World Antonello Gerbi,2010-06-20 Translated by Jeremy Moyle In *Nature in the New World* translated into English in 1985 Antonello Gerbi examines the fascinating reports of the first Europeans to see the Americas These accounts provided the basis for the images of strange and new flora fauna and human creatures that filled European imaginations Initial chapters are devoted to the writings of Columbus Vespucci Cortes Verrazzano and others The second portion of the book concerns the *Historia general y natural de las Indias* of Gonzalo Fernandez de Oviedo a work commissioned by Charles V of Spain in 1532 but not published in its entirety until the 1850s Antonello Gerbi contends that Oviedo a Spanish administrator who lived in Santo Domingo has been unjustly neglected as a historian Gerbi shows that Oviedo was a major authority on the culture history and conquest of the New World

Ice and Snow in the Cold War Julia Herzberg,Christian Kehrt,Franziska Torma,2018-10-19 The history of the Cold War has focused overwhelmingly on statecraft and military power an approach that has naturally placed Moscow and Washington center stage Meanwhile regions such as Alaska the polar landscapes and the cold areas of the Soviet periphery have received little attention However such environments were of no small importance during the Cold War in addition to their symbolic significance they also had direct implications for everything from military strategy to natural resource management Through histories of these extremely cold environments this volume makes a novel intervention in Cold War historiography one whose global and transnational approach undermines the simple opposition of East and West

Social Studies of Science and Technology: Looking Back, Ahead B. Joerges,H. Nowotny,2012-12-06 BERNW ARD JOERGES AND HELGA NOWOTNY YET ANOTHER TURN The thing that doesn't fit is the

thing that's most interesting Richard Feynman This volume was originally conceived as a contribution to yet another turn not captured by one of the many adjectives that have served to describe the collective meandering of the scholarly community in search of direction It was meant to mark the millennial turn a seemingly purely chronological event but one in search for great meanings and invested with loaded significances The editors wanted to seize the opportunity of the moment in order to pause and reflect on the sociology and history of social studies of science and technology The moment came and went and the new millennium barely nine months later thrust its historical marker upon the world through a horrendous and cruel shock in an unforeseen and unforeseeable way Since then the world appears more vulnerable and volatile fragmented and fraught with uncertainty The universal values as bequeathed by the Enlightenment are either refused or appear refuted The dream of a universal civilization which has accompanied the unfolding of the existing multiple modernities in their historically unique trajectories has been discarded and its promises in tatters

Dismantled Leanne Kang, 2020 *Dismantled* is an accessible critical look at the devolution of local power in the Detroit public school system The author examines the rise of charter schools and other private enterprises the eclipse of control from local actors to new players and influences and the invaluable lessons the experience holds for urban school systems nationwide Kang provides a compelling narrative of this shift in power beginning in the 1980s and leading to the breakup of Detroit Public Schools in 2016 and concludes with a discussion on the implications and dilemmas of regime change The text looks at such questions as What happens when local actors no longer have a voice in what happens to their schools What are the consequences when teachers and administrators cede control to private interests and cease to participate in decisionmaking What are some ways to redirect public schooling towards democracy in the aftermath of dismantling the Progressive Era system

Book Features Examines how a series of policies dismantled the Detroit Public Schools resulting in new educational characteristics such as the marketization and privatization of schooling Offers an historical perspective on market based reform including why and how race and politics serve as barriers to reform Explains the role and influence of Secretary of Education Betsy DeVos in the Detroit events Provides a framework from which to envision the next steps for public education in the 21st century

The Digital Frontier Sangeet Kumar, 2021-05-25 The global web and its digital ecosystem can be seen as tools of emancipation communication and spreading knowledge or as means of control fueled by capitalism surveillance and geopolitics The Digital Frontier interrogates the world wide web and the digital ecosystem it has spawned to reveal how their conventions protocols standards and algorithmic regulations represent a novel form of global power Sangeet Kumar shows the operation of this power through the web's infrastructures of control visible at sites where the universalizing imperatives of the web run up against local values norms and cultures These include how the idea of the global common good is used as a ruse by digital oligopolies to expand their private enclosures how seemingly collaborative spaces can simultaneously be exclusionary as they regulate legitimate knowledge how selfhood is being redefined online along Eurocentric ideals and how the web's political challenge is felt differentially by sovereign nation states In analyzing this new modality of cultural power in the global digital ecosystem The Digital Frontier is an important read for scholars activists academics and students inspired by the utopian dream of a truly representative global digital network

Guta Lag and Guta Saga: The Law and History of the Gotlanders Christine Peel, 2015-02-11 Guta Lag the law of the independent island of Gotland is one of the earliest laws of Scandinavia The historical appendix to the law Guta Saga was written in the thirteenth or fourteenth century Together Guta Lag and its accompanying Saga provide an invaluable insight into the lives of the people living on Gotland the largest of Sweden's Baltic islands in 1000 1400 Guta Lag and Guta Saga The Law and History of the Gotlanders is the first time that these two important texts have been translated into English and combined in one edition accompanied by an extensive commentary and historical contextualisation by Christine Peel In the Viking Age the island of Gotland maintained its own law and administrative system It was distinctive among Swedish provinces retaining its own laws until 1645 while mainland provincial laws were all superseded by national law in the mid fourteenth century Preserved in eight manuscripts it illustrates the everyday life and administrative system of the people of Gotland Guta Saga tells the story of the island from its discovery by the legendary ielvar who removed the enchantment upon
