Psychoanalysis and Religion in the 21st Century David M. Black, 2012-07-26 What can be gained from a dialogue between psychoanalysis and religion Freud described religion as the universal obsessional neurosis and uncompromisingly rejected it in favour of science Ever since there has been the assumption that psychoanalysts are hostile to religion Yet from the beginning individual analysts have questioned Freud's blanket rejection of religion In this book David Black brings together contributors from a wide range of schools and movements to discuss the issues They bring a fresh perspective to the subject of religion and psychoanalysis answering vital questions such as How do religious stories carry or distort psychological truth How do religions work psychologically What is the nature of religious experience Are there parallels between psychoanalysis and particular religious traditions Psychoanalysis and Religion in the 21st Century will be of great interest to psychoanalysts psychoanalytic therapists psychodynamic counsellors and anyone interested in the issues surrounding psychoanalysis religion theology and spirituality

Mirroring and Attunement Kenneth Wright, 2009-05-07 This book offers a new approach to psychoanalysis artistic creation and religion proposing that each provides a medium for creative dialogue and can be seen as a cultural attempt to provide the self with resonant containment

Little Madnesses Annette Kuhn, 2013-02-21 Little madnesses are our most deeply felt enthusiasms investments and attachments in the sphere of culture The term was coined by the child psychoanalyst Donald Winnicott whose work on transitional phenomena grew out of his naming of the transitional object and extended into preliminary explorations of the crucial role played by cultural experience in a life that feels satisfying In our socially and culturally sanctioned little madnesses everyone can find relief from the burden of having to maintain a clear boundary between inner and outer worlds fantasy and reality because it is in the space between them that we can find the enthusiasms and passions that excite our creative imaginations This idea offers intriguing pathways towards understanding how we can engage effectively with the world at a public social level without setting aside our inner lives our emotions and our most deeply felt attachments In Little Madnesses writers artists scholars and experts in a range of fields and disciplines explore the idea of transitional phenomena and consider its potential to extend and deepen our understanding of cultural experience in mental and social life focusing on the importance of space place and boundaries in cultural experience on how we can negotiate media use and cultural identity and on the aesthetic and creative aspects of cultural experience Topics covered include cult films computer use installation art trips to the cinema museums and galleries the agony and ecstasy of making art and the significance of life stage in cultural experience

Who is the Scientist-Subject? Esha Shah, 2018-05-20 This book explores two disparate sets of debates in the history and philosophy of the life sciences the history of subjectivity in shaping objective science and the history of dominance of reductionism in molecular biology It questions the dominant conception of the scientist subject as a neo Kantian ideal self that is the scientist as a unified and wilful self determined self regulated active and autonomous rational subject wilfully driven by social and scientific ethos in favour of a narrative that shows how the microcosm of reductionism is sustained adopted questioned or challenged in the creative struggles of the scientist subject The author covers a century long history of the concept of the gene as a series of pioneering moments through an engagement with life writings of eminent scientists to show how their ways of being and belonging relate with the making of the science The scientist self is theorized as fundamentally a feeling experiencing and suffering subject split between the conscious and unconscious and constitutive of personality aspects that are emotional psychological situated cultural and ideological metaphysical intersubjective and existential at the same time An engaging interdisciplinary interpretation of the dominance of reductionism in genetic science this book will be of major interest to scholars and researchers of science history and philosophy alike

Sex and Sexuality Lesley Caldwell, 2018-03-29 Winnicott and sex are two subjects that are rarely associated with one another Sexuality is not a prominent theme within the work of Winnicott who preferred to concentrate on the development of the self from infancy However his writings contain unexplored insights into sexuality and

it is these hidden insights that prompted the author to invite papers from leading analysts to expand upon them This collection provides a fresh and innovative look at the work of Winnicott and into sexuality in particular infantile sexuality The unusual link of Winnicott to Freud and to a psychoanalysis located in the drives encourages a different perspective into British psychoanalysis Other diverse themes include a historical examination of Winnicott through the British Society an exploration of the similarities between Laplanche and Winnicott the use of Winnicott s work in the treatment of sexual dysfunction and the interrelation between sexuality and play This is the sixth volume in the Winnicott Studies Monograph Series

The Elusive Child Lesley Caldwell, 2018-05-08 Fuelled by agitation and panic about paedophilia child abuse violence and neglect on the one side and by children as violent murderers and killers on the other there has been an explosion of concern regarding the place care treatment and life of Children in Europe and beyond This broad ranging and provocative collection of papers a volume in the Winnicott Studies Monograph Series focuses on all factors pertaining to the child and childhood including the role that psychoanalysis has to play The book offers a unique and fascinating understanding of developmental issues from early infancy through latency and into adolescence from various psychoanalytic approaches The papers written by experts in the field examine closely all aspects of this fascinating subject from Freud to Winnicott from neo natal care to adolescence The contributors take into account issues such as fostering and adoption vital scrutiny of the role of the family and presentation of children in the media while all the time asking the salient question What is a child
