

# A Review of Artificial Intelligence

E. S. Brunette, R. C. Flemmer and C. L. Flemmer

School of Engineering and Advanced Technology

Massey University

Palmerston North, New Zealand

Emma.Brunette.1@massey.ac.nz

**Abstract**— This paper reviews the field of artificial intelligence focusing on embodied artificial intelligence. It also considers models of artificial consciousness, agent-based artificial intelligence and the philosophical commentary on artificial intelligence. It concludes that there is almost no consensus nor formalism in the field and that the achievements of the field are meager.

**Keywords**—consciousness; artificial intelligence; embodied intelligence; machine intelligence

## I. INTRODUCTION

Over the fifty years during which artificial intelligence (AI) has been a defined and active field, there have been several literature surveys [1–4]. However the field is extraordinarily difficult to encapsulate either chronologically or thematically. We suggest that the reason for this is that there has never been a groundswell of effort leading to a recognized achievement. Never-the-less, there is a considerable body of literature which the neophyte must master before attempting to grapple with what has proved thus far to be a hydra-headed monster. This review attempts to order the literature in a way which can be comprehended.

We present a chronological narrative followed by a review of several perceived themes.

## II. HISTORICAL PERSPECTIVE

There have been speculations as to the nature of intelligence going back to the Greeks and other philosophers of the Mediterranean littoral. More recently, Thorndike, 1932 [5] and Hebb, 1949 [6] proposed that intelligence is fundamentally related to neuronal and synaptic activity.

With the nascent of computing in the nineteen fifties, it was natural that these concepts should be extended to artificial intelligence and we see the advent of the Turing Test [7] in 1950 and the first “Checkers” program of Strachey, 1952 [8] which was later updated by Samuel, 1959 [9] to the point where it was able to beat the best players of the time. This research led to the concept of an evolutionary program as old versions of the program were pitted against more modern versions.

The field of AI is generally held to have started at a conference in July 1956 at Dartmouth College when the phrase “Artificial Intelligence” was first used. It was attended by many of those who became leaders in the field including John McCarthy, Marvin Minsky, Oliver Selfridge, Ray Solomonoff, Trenchard More, Claude Shannon, Nathan Rochester, Arthur

Samuel, Allen Newell, and Herbert Simon [10]. Some of these researchers went on to open centers of AI research around the world, such as at MIT<sup>1</sup>, Stanford, Edinburgh and Carnegie Mellon University.

Two main approaches were developed for general AI; the “top down” approach which started with the higher level functions and implemented those, and the “bottom up” approach which looked at the neuron level and worked up to create higher level functions. By 1956, Allen Newell [11] had developed the “Logic Theorist”, a theorem-proving program.

In the following years several programs and methodologies were developed; “General Problem Solver” 1959 [12], “Geometry Theorem Prover” 1958 [13], “STRIPS” 1971 [14], Ottinger’s “Virtual Mall” 1952 [15], natural language processing implemented in the “Eliza” program in 1966 [16], SHRDLU 1973 [17], expert systems leading to Deep Blue 1997 [18], and some of the earlier versions of embodied intelligence such as “Herbert”, “Toto”, and “Genghis” by Brooks, 1987 [19, 20] which roamed the laboratories at MIT.

By the 1980’s AI researchers were beginning to understand that creating artificial intelligence was a lot more complicated than first thought. Given this, Brooks came to believe that the way forward in consciousness was for researchers to focus on creating individual modules based on different aspects of the human brain, such as a planning module, a memory module etc., which could later be combined together to create intelligence.

In the recent past, with the improvement of the technologies associated with computing and robots, there has been a broad-based attempt to build embodied intelligences. But the peculiar nature of this field has resulted in the many attempts being almost entirely unconnected. Because of the difficulty and lack of success in building physical robots, there has been a tendency towards computer simulation, termed “Artificial General Intelligence” where virtual agents in a virtual reality world attempt to achieve intelligent behaviour.

After this brief historical *mise en scene*, we discuss the field thematically.

## III. MODELS OF CONSCIOUSNESS

To review this theme and abstract a narrative thread is not possible because there have been very many proposals for a structure of consciousness/control but almost without exception they have not been implemented and further, they are totally

## **Artificial And Human Intelligence International Natosymposium Review Papers:**

Artificial and Human Intelligence Alick Elithorn, Ranan B. Banerji, 1984      Current Catalog National Library of Medicine (U.S.),      Nature, Cognition and System I M.E. Carvallo, 2012-12-06 usually called the classical scientific attitude according to which there is a dichotomy between nature and cognition and suggestions for better understanding of their mutual encroachment The authors belong more or less to the non standard systems science the third order cybernetics or find themselves already beyond the third stage in the history of artificial intelligence They take the inescapability of the mutual implication of the description of nature and that of cognition seriously Fourth ly closely linking up with the previous it emphatically calls attention to the forgotten microscopic dimension of science If I am not mistaken we have at this moment reached the historic stage where the tremendous renaissance of the mechanistic structural paradigm remarkably enough calls for its functional dynamic counterparts The volume strives to respond to this secret trend in various disciplines and to put into words that which is tacitly alive in the minds of the ever increasing number of people in this systems age The investigation on the intertwinement of nature and cognition finds itself in this very paradoxical niche structured by those two opposite developments      *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1971

*Researching Cognitive Processes of Translation* Defeng Li, Victoria Lai Cheng Lei, Yuanjian He, 2018-10-26 This edited volume covers an array of the most relevant topics in translation cognition taking different approaches and using different research tools It explores theoretical and methodological issues using case studies and examining their practical and pedagogical implications It is a valuable resource for translation studies scholars graduate students and those interested in translation and translation training enabling them to conceptualize translation cognition in order to enhance their research methods and designs manage innovations in their translation training or simply understand their own translation behaviours

**Encyclopedia of Language and Linguistics** , 2005-11-24 The first edition of ELL 1993 Ron Asher Editor was hailed as the field's standard reference work for a generation Now the all new second edition matches ELL's comprehensiveness and high quality expanded for a new generation while being the first encyclopedia to really exploit the multimedia potential of linguistics The most authoritative up to date comprehensive and international reference source in its field An entirely new work with new editors new authors new topics and newly commissioned articles with a handful of classic articles The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition Ground breaking and International in scope and approach Alphabetically arranged with extensive cross referencing Available in print and online priced separately The online version will include updates as subjects develop ELL2 includes c 7 500 000 words c 11 000 pages c 3 000 articles c 1 500 figures 130 halftones and 150 colour Supplementary audio video and text files online c 3 500 glossary definitions c 39 000 references Extensive list of commonly used abbreviations List of languages of the world including information on no of speakers language family etc Approximately 700 biographical entries now includes contemporary

linguists 200 language maps in print and online Also available online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit [www.infosciencedirect.com](http://www.infosciencedirect.com) The first Encyclopedia to exploit the multimedia potential of linguistics Ground breaking in scope wider than any predecessor An invaluable resource for researchers academics students and professionals in the fields of linguistics anthropology education psychology language acquisition language pathology cognitive science sociology the law the media medicine computer science The most authoritative up to date comprehensive and international reference source in its field

**Parallel Text Processing** Jean Véronis, 2013-03-14 | This book evolved from the ARCADE evaluation exercise that started in 1995 The project's goal is to evaluate alignment systems for parallel texts i.e. texts accompanied by their translation Thirteen teams from various places around the world have participated so far and for the first time some ten to fifteen years after the first alignment techniques were designed the community has been able to get a clear picture of the behaviour of alignment systems Several chapters in this book describe the details of competing systems and the last chapter is devoted to the description of the evaluation protocol and results The remaining chapters were especially commissioned from researchers who have been major figures in the field in recent years in an attempt to address a wide range of topics that describe the state of the art in parallel text processing and use As I recalled in the introduction the Rosetta stone won eternal fame as the prototype of parallel texts but such texts are probably almost as old as the invention of writing Nowadays parallel texts are electronic and they are becoming an increasingly important resource for building the natural language processing tools needed in the multilingual information society that is currently emerging at an incredible speed Applications are numerous and they are expanding every day multilingual lexicography and terminology machine and human translation cross language information retrieval language learning etc

**Handbook of Natural Language Processing**

Nitin Indurkha, Fred J. Damerau, 2010-02-22 The Handbook of Natural Language Processing Second Edition presents practical tools and techniques for implementing natural language processing in computer systems Along with removing outdated material this edition updates every chapter and expands the content to include emerging areas such as sentiment analysis New to the Second Edition Greater

**Intelligent Information Processing III** K. Shimohara, D. Feng, 2006-10-02 Intelligent Information Processing supports the most advanced productive tools that are said to be able to change human life and the world itself This book presents the proceedings of the 4th IFIP International Conference on Intelligent Information Processing This conference provides a forum for engineers and scientists in academia university and industry to present their latest research findings in all aspects of Intelligent Information Processing

**Handbook of Translation Studies** Yves Gambier, Luc van Doorslaer, 2010 Moreover many items in the reference lists are hyperlinked to the TSB where the user can find an abstract of a publication All articles between 500 and 6000 words are written by specialists in the different subfields

and are peer reviewed Last but not least the usability accessibility and flexibility of the HTS depend on the commitment of people who agree that Translation Studies does matter All users are therefore invited to share their feedback Any questions remarks and suggestions for improvement can be sent to the editorial team      **Automating Translation** Joss

Moorkens,Andy Way,Séamus Lankford,2024-08-29 Translation technology is essential for translation students practising translators and those working as part of the language services industry but looming above others are the tools for automating translation machine translation and more recently generative AI based on large language models LLMs This book authored by leading experts demystifies machine translation explaining its origins its training data how neural machine translation and LLMs work how to measure their quality how translators interact with contemporary systems for automating translation and how readers can build their own machine translation or LLM In later chapters the scope of the book expands to look more broadly at translation automation in audiovisual translation and localisation Importantly the book also examines the sociotechnical context focusing on ethics and sustainability Enhanced with activities further reading and resource links including online support material on the Routledge Translation studies portal this is an essential textbook for students of translation studies trainee and practising translators and users of MT and multilingual LLMs Additional resources are available on the Routledge Translation Studies Portal      **Applied Mechanics Reviews** ,1985      **Translation Tools and**

**Technologies** Andrew Rothwell,Joss Moorkens,María Fernández-Parra,Joanna Drugan,Frank Austermuehl,2023-04-18 To trainee translators and established professionals alike the range of tools and technologies now available and the speed with which they change can seem bewildering This state of the art copiously illustrated textbook offers a straightforward and practical guide to translation tools and technologies Demystifying the workings of computer assisted translation CAT and machine translation MT technologies Translation Tools and Technologies offers clear step by step guidance on how to choose suitable tools free or commercial for the task in hand and quickly get up to speed with them using examples from a wide range of languages Translator trainers will also find it invaluable when constructing or updating their courses This unique book covers many topics in addition to text translation These include the history of the technologies project management terminology research and corpora audiovisual translation website software and games localisation and quality assurance Professional workflows are at the heart of the narrative and due consideration is also given to the legal and ethical questions arising from the reuse of translation data With targeted suggestions for further reading at the end of each chapter to guide users in deepening their knowledge this is the essential textbook for all courses in translation and technology within translation studies and translator training Additional resources are available on the Routledge Translation Studies Portal

*Computational Linguistics for the New Millennium* Manfred Klenner,Henriëtte Visser,2002 The two seemingly conflicting tendencies synergy and divergence are both fundamental to the advancement of any science Their interplay defines the demarcation line between application oriented and theoretical research The papers in this festschrift in honour of Peter

Hellwig are geared to answer questions that arise from this insight where does the discipline of Computational Linguistics currently stand what has been achieved so far and what should be done next Given the complexity of such questions no simple answers can be expected However each of the practitioners and researchers are contributing from their very own perspective a piece of insight into the overall picture of today s and tomorrow s computational linguistics DECISION SUPPORT SYSTEMS ,1985 *Analysis of Medical Modalities for Improved Diagnosis in Modern Healthcare* Varun Bajaj,G. R. Sinha,2021-08-10 In modern healthcare various medical modalities play an important role in improving the diagnostic performance in healthcare systems for various applications such as prosthesis design surgical implant design diagnosis and prognosis and detection of abnormalities in the treatment of various diseases *Analysis of Medical Modalities for Improved Diagnosis in Modern Healthcare* discusses the uses of analysis modeling and manipulation of modalities such as EEG ECG EMG PCG EOG MRI and FMRI for an automatic identification classification and diagnosis of different types of disorders and physiological states The analysis and applications for post processing and diagnosis are much needed topics for researchers and faculty members all across the world in the field of automated and efficient diagnosis using medical modalities To meet this need this book emphasizes real time challenges in medical modalities for a variety of applications for analysis classification identification and diagnostic processes of healthcare systems Each chapter starts with the introduction need and motivation of the medical modality and a number of applications for the identification and improvement of healthcare systems The chapters can be read independently or consecutively by research scholars graduate students faculty members and practicing scientists who wish to explore various disciplines of healthcare systems such as computer sciences medical sciences and biomedical engineering This book aims to improve the direction of future research and strengthen research efforts of healthcare systems through analysis of behavior concepts principles and case studies This book also aims to overcome the gap between usage of medical modalities and healthcare systems Several novel applications of medical modalities have been unlocked in recent years therefore new applications challenges and solutions for healthcare systems are the focus of this book Cloud-IoT Technologies in Society 5.0 Kamta Nath Mishra Ph.D.,Subhash Chandra Pandey Ph.D.,2023-04-21 This book provides in depth knowledge in the areas of convergence of cloud IoT technologies and industry 4.0 with society 5.0 machine to machine communication machine to person communication techno psychological perspective of society 5.0 sentiment analysis of smart digital societies multi access edge computing for 5G networks discovery location reporting of multi access edge enabled clients servers in health systems enhancing the concert of M health technologies in smart societies supervising communication services in smart societies life quality enhancement in smart city societies multiple disease infection predictions and societal opinion mining algorithms for smart cities societies using cloud IoT integrated intelligent machine deep learning technologies to the readers in the distributive environment In this book the authors have mandatorily discussed the implementation of cloud IoT based machine learning technologies like clustering

technique Na ve Bayes classifier artificial neural network ANN Firefly algorithm Rough set classifiers support vector machine classifier decision tree classifier ensemble classifier random forest and deep learning algorithms to analyze the behavior of intelligent machines and human habits using automated data scheduling and smart digital networks At present we live in a self motivated and dynamic global society where technologies and challenges are unexpectedly changing overnight These rapid changes in globalization and technological advances are creating new market forces every day Therefore day to day innovation is essential for any business or institution to survive and flourish in such an atmosphere Though innovation is no longer just to create value to do good to individuals societies or organizations The utmost purpose of innovation is to create a smart futuristic society where people can enjoy the best quality of life using natural resources and manmade technologies including cloud IoT technologies and industry 4 0 Hence the innovators and their innovations must search for intelligent solutions to tackle major socio technical problems and remove barriers of rural urban and smart city societies The smart digitization and intelligent implementation of manufacturing development processes are the necessities for today s rural urban and smart city industries All types of industries including development manufacturing and research are presently shifting from bunch production to customized production The fast advancements in manufacturing technologies have an in depth impact on all types of societies including societies of rural areas urban areas and smart cities Industry 4 0 includes the Internet of Things IoT Industrial Internet Smart Manufacturing Cloud based computing and Manufacturing Technologies The objective of this book is to establish linkage between the Industry 4 0 components and various rural urban smart city societies including society 5 0 to bring actual prosperity where human values peace of mind human relations man machine relations and calmness will have utmost preference These objectives can be achieved by the integration of human societal values and social opinion mining SOM approaches with the existing technologies     *Artificial Intelligence* Henry Manfred Rylko,1984     *Database Journal* ,1985     *The British National Bibliography* Arthur James Wells,1979

## Whispering the Techniques of Language: An Mental Quest through **Artificial And Human Intelligence International Natosymposium Review Papers**

In a digitally-driven world where displays reign great and instant conversation drowns out the subtleties of language, the profound techniques and emotional nuances hidden within phrases often get unheard. However, nestled within the pages of **Artificial And Human Intelligence International Natosymposium Review Papers** a charming fictional value pulsing with raw emotions, lies an extraordinary journey waiting to be undertaken. Composed by an experienced wordsmith, that marvelous opus invites viewers on an introspective journey, lightly unraveling the veiled truths and profound affect resonating within ab muscles fabric of each word. Within the mental depths with this emotional evaluation, we will embark upon a sincere exploration of the book is primary styles, dissect their interesting writing fashion, and fail to the strong resonance it evokes strong within the recesses of readers hearts.

### Artificial And Human Intelligence International Natosymposium Review Papers Introduction

Artificial And Human Intelligence International Natosymposium Review Papers Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Artificial And Human Intelligence International Natosymposium Review Papers Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Artificial And Human Intelligence International Natosymposium Review Papers : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Artificial And Human Intelligence International Natosymposium Review Papers : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Artificial And Human Intelligence International Natosymposium Review Papers Offers a diverse range of free eBooks across various genres. Artificial And Human Intelligence International Natosymposium Review Papers Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Artificial And Human Intelligence International Natosymposium Review Papers Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Artificial And Human Intelligence International Natosymposium Review Papers, especially related to Artificial And Human Intelligence International Natosymposium Review Papers, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following

steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Artificial And Human Intelligence International Natosymposium Review Papers, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Artificial And Human Intelligence International Natosymposium Review Papers books or magazines might include. Look for these in online stores or libraries. Remember that while Artificial And Human Intelligence International Natosymposium Review Papers, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Artificial And Human Intelligence International Natosymposium Review Papers eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Artificial And Human Intelligence International Natosymposium Review Papers full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Artificial And Human Intelligence International Natosymposium Review Papers eBooks, including some popular titles.

### **FAQs About Artificial And Human Intelligence International Natosymposium Review Papers Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Artificial And Human Intelligence International Natosymposium Review Papers is one of the best book in our library for free trial. We provide copy of Artificial And Human Intelligence International Natosymposium Review Papers in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Artificial And Human Intelligence International Natosymposium Review Papers. Where to download Artificial And Human Intelligence International Natosymposium Review Papers online for free?

Are you looking for Artificial And Human Intelligence International Natosymposium Review Papers PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Artificial And Human Intelligence International Natosymposium Review Papers. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Artificial And Human Intelligence International Natosymposium Review Papers are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Artificial And Human Intelligence International Natosymposium Review Papers. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Artificial And Human Intelligence International Natosymposium Review Papers To get started finding Artificial And Human Intelligence International Natosymposium Review Papers, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Artificial And Human Intelligence International Natosymposium Review Papers So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Artificial And Human Intelligence International Natosymposium Review Papers. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Artificial And Human Intelligence International Natosymposium Review Papers, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Artificial And Human Intelligence International Natosymposium Review Papers is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Artificial And Human Intelligence International Natosymposium Review Papers is universally compatible with any devices to read.
