Translation in Alison Wong's novel "As the Earth Turns Silver" Doreen Klahold, 2013-10-01 Essay from the year 2012 in the subject Didactics for the subject English Miscellaneous grade 1 3 University of Dusseldorf Heinrich Heine language English abstract *As the Earth Turns Silver* is the first novel by the poet and fiction writer Alison Wong and was published by Penguin in New Zealand in 2009 The plot is set in Wellington New Zealand around the turn of the 20th century and reconstructs the cultural climate there at the time given In explanation New Zealand had become a country of immigrants the British Empire had annexed the country in 1840 the Mori consequently lost their sovereignty and were forced back further by the huge number of British settlers besides gold discoveries triggered the first wave of immigration from China in 1865 Thus a racial hierarchy had established with the British considering themselves superior to the others and an active Anti Chinese League had built up Wong s novel now is both a love story and tragedy as well as a representation of Chinese settlement in the country On the one hand there is Katherine McKechnie as one of the protagonists of the novel whose husband Donald drowns in a drunken accident and her two children Edie and Robbie On the other hand there are Chung Yung and his elder brother Shun who have fled from Kwangtung China in 1905 leaving wife and children behind and now run a greengrocer s shop in Wellington Their stories intermingle since Katherine usually buys her fruit and vegetables in their

shop Gradually she befriends the younger of the two brothers Yung and after her husband's death their friendships eventually deepens into a secret love affair secret because the interracial relationship would be regarded as a scandal in both communities Disastrously Katherine's son Robbie has taken on his father's and Lionel Terry's racist views so that knowing of his mother's and Yung's affair he finally kills the Chinese in his shop and later on commits suicide in the garden of their house Even though Wong herself is of Chinese descent she points out that the story is not her family's story nor a real representation of history but a mere work of fiction All in all Wong has produced a thought provoking work about choices we make the courage to stay true to oneself and last but not least racism xenophobia and its absurdity and consequences

Re-Imagining the First World War Anna Branach-Kallas, Nelly Strehlau, 2015-09-18 In the Preface to his groundbreaking *The Great War and Modern Memory* 1975 Paul Fussell claimed that the dynamics and iconography of the Great War have proved crucial political rhetorical and artistic determinants on subsequent life Forty years after the publication of Fussell's study the contributors to this volume reconsider whether the myth generated by World War I is still part of the fiber of people's lives in English speaking countries What is the place of the First World War in cultural memory today How have the literary means for remembering the war changed since the war Can anything new be learned from the effort to re imagine the First World War after other bloody conflicts of the 20th century A variety of answers to these questions are provided in *Re-Imagining the First World War New Perspectives in Anglophone Literature and Culture* which explores the Great War in British Irish Canadian Australian and post colonial contexts The contributors to this collection write about the war from a literary perspective reinterpreting poetry fiction letters and essays created during or shortly after the war exploring contemporary discourses of commemoration and presenting in depth studies of complex conceptual issues such as gender and citizenship *Re-Imagining the First World War* also includes historical philosophical and sociological investigations of the first industrialised conflict of the 20th century which focus on responses to the Great War in political discourse life writing music and film from the experience of missionaries isolated during the war in the Arctic and Asia through colonial encounters exploring the role of Irish Chinese and Canadian First Nations soldiers during the war to the representation of war in the world famous series *Downton Abbey* and the 2013 album released by contemporary Scottish rock singer Fish The variety of themes covered by the essays here not only confirms the significance of the First World War in memory today but also illustrates the necessity of developing new approaches to the first global conflict and of commemorating new victims and agents of war If modes of remembrance have changed with the postmodern ethical shift in historiography and cultural studies which encourages the exploration of other subjectivities in war so far concealed affinities and reverberations are still being discovered on the macro and micro historical levels the Western and other fronts the battlefield and the home front Although it has been a hundred years since the outbreak of hostilities there is a need for increased sensitivity to the tension between commemoration and contestation and to re member re conceptualise and re imagine the Great War **Teaching**
