**Key Features** Written as a friendly engagement between six thoughtful but skeptical students who hold a variety of views and a philosophy professor who insists he's just trying to work out the answers with their help rather than convince them of one right answer Engages with the immigration debates in philosophy economics and politics without presupposing any specialist knowledge Includes discussion of the historical and institutional aspects of immigration so the conversation is never simply about abstract or hypothetical cases Concludes with a substantive theory about how to think about immigration and the free society to prompt further reflection
