- New Insights Cengiz Mordeniz, 2025-01-29 Modern medicine often treats individuals as standardized patients categorizing them by defined diseases and creating lifelong dependency on medications Side effects are managed by introducing additional medications creating a never ending cycle Patients are not cured but their symptoms are depressed as long as the drug is taken For example a simple headache is broken down into subgroups each explained by different causes and mechanisms However some patients suffer for years and their headaches are not eliminated The same approach is applied to other pain conditions as well as diseases like cancer rheumatism and others A new idea emphasizes revisiting traditional methods and products to inspire new trials To integrate these methods more scientific studies and reliable data are needed This book introduces innovative methods that combine traditional approaches with scientific insights offering a personalized and holistic perspective for natural healing

New Age Capitalism Kimberly J. Lau, 2015-11-10 The pursuit of health and wellness has become a fundamental and familiar part of everyday life in America We are surrounded by an enticing world of products practices and promotions assuring health and happiness cereal boxes claim that their contents can reduce the risk of heart disease bars of aromatherapy soap seek to wash away our stresses newspapers celebrate the wonders of the latest superfoods and herbal remedies No longer confined to the domain of Western medicine suggestions for healthy living often turn to alternatives originating in distant times and places in cultures very different from our own Diets from ancient or remote groups are presented as cures for everything from colds to cancer exercise regimens based on Eastern philosophies are heralded as paths to physical health and spiritual wellbeing In New Age Capitalism Kimberly Lau examines the ideological work that has created this billion dollar business and allowed Eastern and other non Western traditions to be coopted by Western capitalism Extending the orientalist logic to the business of health and wellness American companies have created a lucrative and competitive market for their products encouraging consumers to believe that they are making the right choices for personal as well as planetary health In reality alternative health practices have been commodified for an American public longing not only for health and wellness but also for authenticity tradition and a connection to the cultures of an imagined Edenic past Although consumers might prefer to buy into authentic non Western therapies New Age Capitalism argues that the market economy makes this goal unattainable

The Heart and Its Healing Plants Wolf-Dieter Storl, 2024-01-02 An ethnobotanical look at ancient heart beliefs heart strengthening herbs and folk remedies for cardiovascular diseases Discusses traditional understandings of the heart from early European cultures and indigenous peoples of the Americas Asia and Africa Examines the heart as the home of the soul and an organ of perception and looks at traditional beliefs on what makes the heart sick Presents a materia medica of plants used for millennia to treat heart related conditions as well as plants in use by modern herbalists and cardiologists In the traditional worldview the heart was considered the home of the soul and the source of love and vitality As such heart sickness was not seen as a result of poor nutrition too much stress or lack of exercise but reflected an imbalance of the heart's emotional and spiritual energies Plants

and folk remedies used as traditional heart medicine worked on the mental and spiritual level to help make the heart happy again. Renowned ethnobotanist Wolf D. Storl, Ph.D., examines traditional understandings of the heart from early European cultures and indigenous peoples as well as a wealth of plants used in both ancient and contemporary times to treat heart conditions and ailments. He examines what makes the heart sick, including different healing paradigms used to address the causes. He also looks at how time is perceived by the heart and how the modern epidemic of heart disease can be linked to our culture's pervasive disconnection from nature's rhythms. Presenting a materia medica of heart-strengthening herbs and folk remedies for cardiovascular diseases, the author offers in-depth descriptions of plants used for millennia to treat heart-related conditions as well as plants in use by modern herbalists and cardiologists. Sharing a holistic view of the heart and heart disease based on traditional perspectives, ethnomedical research, and herbal wisdom, this book reveals new ways to heal the heart by recognizing its integrated role in our physical, emotional, and spiritual wellness.
