The Only True America David R. Hauser, 2000-08-14 Probing the Journals of Lewis and Clark far more closely than other works the book develops the understanding that these Enlightenment gentlemen from Virginia gradually entered the unfamiliar world of the West and Native American animism and magic and they responded differently Clark adapted and learned from the Indians whereas Lewis resisted them as savages Clark returned after having envisioned a landscape of hope and lives a long life of service to native tribes Lewis saw a landscape of despair and in the three remaining years of his life encountered conflict and disappointment Both perspectives on the West are still alive Some find in the virtual obliteration of Native American cultures and the despoiling of the land itself the loss of the West But another impulse toward energy inventiveness and community spirit seems alive especially evident in the smaller cities and larger towns along the route of the explorers In such places the landscape of hope is very much alive The experience of Lewis and Clark then parallels our experience today

America's Strategy in Southeast Asia James A. Tyner, 2006-12-21 Geography encompasses everything from the local where human beings live work and travel to metageographies like nations and regions James A Tyner s inventive and multidisciplinary ideas on geography similarly range from the personal his father s experience in the military during the Vietnam War to a broad discussion of how the United States has come to exercise power through the production of geographic knowledge in this case in Southeast Asia Since the end of the Second World War Southeast Asia has served as a surrogate space to further American imperial interests which are economic political territorial and moral in scope America s Strategy in Southeast Asia contends that the construction of Southeast Asia as a geographic entity has been a crucial component in the creation of the American empire For example America s most blatant experience of colonial rule occurred the Philippines America s longest

war was fought in Vietnam and most recently some American policymakers have identified Southeast Asia as the Second Front in the War on Terror Yet America s overriding strategy in Southeast Asia and the region itself remains something of a mystery for the American populace a black box in America s geographical imagination This clear and innovative book educates readers about Southeast Asia s importance in American foreign policy *Official Gazette of the United States*

John McClintock, James Strong, 1890 *The Sea Lions* James Fenimore Cooper, 2023-04-01 *The Sea Lions* 1849 is the twelfth and last of Cooper's sea novels a genre he largely invented Drawing upon memories from nearly three decades earlier of his own ventures in whaling and his reviews of accounts of exploring and hunting in cold seas Cooper fashioned an exciting tale of two small vessels capturing seals near the Antarctic Circle When

the sealers are trapped by the ice and forced to winter over in extreme conditions Cooper's hero undergoes a spiritual transformation amidst the sublime threat of hostile Nature The editors argue that this transformation parallels Cooper's gradual shift from a religion of Nature to his embracing Trinitarian Christianity In expanding the scope of his sea fiction to embrace spiritual questions Cooper anticipates Melville who reviewed the novel favorably This scholarly edition the thirtieth in The Writings of James Fenimore Cooper series presents an accurate text that draws upon both the American first edition and the British first edition for which the editors have determined Cooper provided some revisions not found in his American text The edition provides extensive historical cultural and geographic explanatory notes The editors also provide a full scholarly apparatus discussing their editorial choices and the edition has been approved by scholarly peers in the Committee for Scholarly Editions of the Modern Language Association
