The Early Modern Italian Domestic Interior, 1400-1700 Erin J. Campbell, Stephanie R. Miller, Elizabeth Carroll Consavari, 2016-03-23 Emphasizing on the one hand the reconstruction of the material culture of specific residences and on the other the way in which particular domestic objects reflect shape and mediate family values and relationships within the home this volume offers a distinct contribution to research on the early modern Italian domestic interior Though the essays mainly take an art historical approach the book is interdisciplinary in that it considers the social implications of domestic objects for family members of different genders age and rank as well as for visitors to the home By adopting a broad chronological framework

that encompasses both Renaissance and Baroque Italy and by expanding the regional scope beyond Florence and Venice to include domestic interiors from less studied centers such as Urbino Ferrara and Bologna this collection offers genuinely new perspectives on the home in early modern Italy

European Art of the Fifteenth Century Stefano Zuffi, 2005 Influenced by a revival of interest in Greco Roman ideals and sponsored by a newly prosperous merchant class fifteenth century artists produced works of astonishingly innovative content and technique The International Gothic style of painting still popular at the beginning of the century was giving way to the influence of Early Netherlandish Flemish masters such as Jan van Eyck who emphasized narrative and the complex use of light for symbolic meaning Patrons favored paintings in oil and on wooden panels for works ranging from large hinged altarpieces to small increasingly lifelike portraits In the Italian city states of Florence Venice and Mantua artists and architects alike perfected existing techniques and developed new ones The painter Masaccio mastered linear perspective the sculptor Donatello produced anatomically correct but idealized figures such as his bronze nude of David and the brilliant architect and engineer Brunelleschi integrated Gothic and Renaissance elements to build the self supporting dome of the Florence Cathedral This beautifully illustrated guide analyzes the most important people places and concepts of this early Renaissance period whose explosion of creativity was to spread throughout Europe in the sixteenth century

Formative Modernities in the Early Modern Atlantic and Beyond Veronika Hyden-Hanscho, Werner Stangl, 2023-02-14 This book offers a new perspective on the concept of modernity Since its invention as a contrast to Antiquity or the Middle Ages modernity has been tied to ideas of superiority progress and efficiency As a counterpart to the Marxist history of class struggle modernization theories have transformed modernity into an almost teleological concept of historical development These strong connotations obstruct a clear look at other forms of modernity The contributions of the volume will show in a comparative perspective how modernity can also be understood and analyzed as multiple responses of societies and polities to organize themselves in facing ever more complex and integrated interactions at ever larger scales
