Art History Volume 1 4th Edition:

The Art of Art History Donald Preziosi, 1998 What is art history Why how and where did it originate and how have its aims and methods changed over time The history of art has been written and rewritten since classical antiquity Since the foundation of the modern discipline of art history in Germany in the late eighteenth century debates about art and its histories have intensified Historians philosophers psychologists and anthropologists among others have changed our notions of what art history has been is and might be This anthology is a guide to understanding art history through a critical reading of the field s most innovative and influential texts over the past two centuries Each section focuses on a key issue aesthetics style history as an art iconography and semiology gender modernity and postmodernity deconstruction and museology More than thirty readings from writers as diverse as Winckelmann Kant Gombrich Warburg Panofsky Heidegger Lisa Tickner Meyer Schapiro Jacques Derrida Mary Kelly Michel Foucault Rosalind Krauss Louis Marin Margaret Iversen and Nestor Canclini are brought together and Donald Preziosi s introductions to each topic provide background information bibliographies and critical elucidations of the issues at stake His own concluding essay is an important and original contribution to scholarship in the field From the pre publication reviews Until now anthologies about the history of art have tended to be worthy yet inert plotting a linear evolution from the great precursors Vasari Winckelmann to the founding fathers of the modern discipline Wolfflin Riegl Panofsky to the achievements and refinements of today s scholarship The texts that Donald Preziosi has brought together provide something far more challenging the juxtapositions and alignments between individual essays point the reader towards unresolved problems ongoing debates and paths not taken or not taken yet In place of the consoling tale of intellectual progress the collection defamiliarizes the whole field and opens up a space for radical reflection on its basic procedures and assumptions Definitely the best introduction to art history currently available Professor Norman Bryson Harvard University Donald Preziosi has prepared an anthology from the Greek a collection of flowers of art history His bouquet contains representatives from the discipline s two hundred year history arranged in standard and innovative methodological categories Within each the readings selected provide stimulating congruencies and contradictions that will inspire productive debate and contemplation But what makes this anthology more than an arresting assemblage is the author s critical stance toward what he has wrought His introduction and concluding chapter write around and under the subjects presented emphasizing the art of art history its kinship with modernity s post Enlightenment project and its collaboration with the rise of nationalism Thus the discipline s past is probed and questioned and made relevant for its present and future The whole thereby addresses without healing or concealing the disciplinary ruptures of modernism The book might also have explored further nature of art history s history within the emergent discourse of post colonialism and the globalization of culture Yet the many new perspectives it does offer help to re present the discipline for its readers students teachers and curators for other areas of humanistic inquiry which are being subject to similar critiques and for

artists and the larger art community for whom history narrative and an accounting of art's past have once again become vital issues Professor Robert S Nelson Professor of Art History and Chair Committee for the History of Culture University of Chicago Rather than focusing on its Vasarian moment or on the later academic institutionalization of art history in the 19th and 20th centuries Donald Preziosi in *The Art of Art History* constructs a reading of this hegemonic and reductive practice of making the visible legible as one that is inextricably tied to the museographic paradigm of late 18th and early 19th centuries This shift he sees as equivalent in importance to the brought by the invention of perspective But the author goes further than to underline the implication of art history with the premises of modernity he makes a strong case in a vivid and inspiring prose for a tighter equation between art history and modernity an equation grounded in his insightful considerations and meteoric formulations of the epistemological setting rhetorical operations political colonialist aims and schizophrenic yet all invasive aestheticization of knowledge that in the last two centuries have fashioned what we will no longer dare to call the discipline of art history The result is a flamboyant book that offers anything but a celebratory reading of art history It does not constitute an articulation of canonical texts or an up to date menu of art historical currents methods or trends Yet it manages to avoid none of these dimensions Art history is not envisaged as the learned discourse of modernity on a specific class of objects nor is it reduced to a genealogy of outstanding artist subjects and their volatile constellations of contemporary subjects readers It becomes a practice wherein objects and subjects relate and relations often crystallize under the unrecognized aegis of the fetish this Other of art since Preziosi concisely defines art as the anti fetish fetish Far from the fantastic neutrality that is traditionally found in the format of such an historiographic endeavour Preziosi frames his selection of text and threads through them with an array of different strategic voices superimposed to stress a spatial figure he is keen to discern in order to elaborate a strong polemic position that situates art history as an enduring and well disguised fictional genre In the process the author courageously takes on the paradox that is at the core of his project to introduce students to the coming out of art history as art one that is not necessarily meant to be our coming out of it but that certainly well establishes our motives to continue to shake its grounds and its multi storied apparatus Professor Johanne Lamoureux University of Montreal

Volume 1-3 Michael Viktor Schwarz,2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto s life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto s lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure s double life relating it to the form of existence of the pre modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy s urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto s impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies Creative Writing and Art History Catherine Grant,Patricia Rubin,2012-03-19 Creative Writing and Art History considers the ways in which the writing of art history intersects with creative writing Essays range from the analysis of historical examples of art historical writing that have a creative element to examinations of contemporary modes of creative writing about art Considers the ways in which the writing of art history intersects with creative writing Covers a diverse subject matter from late Neolithic stone circles to the writing of a sentence by Flaubert The collection both contains essays that survey the topic as well as more specialist articles Brings together specialist contributors from both sides of the Atlantic **Art Book News Annual, volume 4: 2008Art Book News Annual, volume 4: 2008** , Investigating Art, History, and Literature with Astronomy Donald W.
