L'Illustrazione italiana, 1883 *Construction Matters* Stefan Holzer, Silke Langenberg, Clemens Knobling, Orkun Kasap, 2025-03-04 Construction History Construction Heritage Recent Construction Historiography Industrialization Engineering Sciences Building Materials Building Actors Construction History is still a fairly new and small but quickly evolving field The current trends in Construction History are well reflected in the papers of the present conference Construction History has strong roots in the historiography of the 19th century and the evolution of industrialization but the focus of our research field has meanwhile shifted notably to include more recent and also more distant histories as well This is reflected in these conference proceedings where 65 out of 148 contributed papers deal with the built heritage or building actors of the 20th or 21st century The conference also mirrors the wide spectrum of documentary and analytical approaches comprised within the discipline of Construction History Papers dealing with the technical and functional analysis of specific buildings or building types are complemented by other studies focusing on the lives and formation of building actors from laborers to architects and engineers from economical aspects to social and political implications on legal aspects and the strong ties between the history of construction and the history of engineering sciences The conference integrates perfectly into the daily work at the Institute for Preservation and Construction History at ETH Zurich Its two chairs the Chair for Building Archaeology and Construction History and the Chair for Construction Heritage and Preservation endeavor to cover the entire field and to bridge the gaps between the different approaches methodologies and disciplines between various centuries as well as technologies learning together and from each other The proceedings of 8ICCH give a representative picture of the state of the art in the field and will serve as a reference point for future studies **L'illustrazione italiana rivista settimanale degli avvenimenti e personaggi contemporanei sopra la storia del giorno, la vita pubblica e sociale, scienze, belle arti, geografia e viaggi, teatri, musica, mode [ecc.]**, 1878 **Original Index to Art Periodicals** Frick Art Reference Library, 1983 **Gerardo Dottori** Gerardo Dottori, 2006 Still Lives Maria H. Loh, 2015-03-22 How portraits of artists during the Renaissance helped create the first art stars in modern history Michelangelo was one of the biggest international art stars of his time but being Michelangelo was no easy thing he was stalked by fans lauded and lambasted by critics and depicted in unauthorized portraits Still Lives traces the process by which artists such as Michelangelo D rer and Titian became early modern celebrities Artists had been subjects of biographies since antiquity but Renaissance artists were the first whose faces were sometimes as recognizable as their art Maria Loh shows how this transformation was aided by the rapid expansion of portraiture and self portraiture as independent genres in painting and sculpture She examines the challenges confronting artists in this new image economy What did it mean to be an image maker haunted by one's own image How did these changes affect the everyday realities of artists and their workshops And how did images of artists contribute to the way they envisioned themselves as figures in a history that would outlive

them Richly illustrated Still Lives is an original exploration of the invention of the artist portrait and a new form of secular stardom

The Court Cities of Northern Italy Charles M. Rosenberg, 2010-06-21 This volume examines the painting sculpture decorative arts and architecture produced in nine important court cities of Italy during the course of the fourteenth fifteenth and sixteenth centuries Although each chapter represents a separate study of a particular geographical locale many common themes emerge This volume gives a multifaceted consideration of the art created for princes prelates confraternities and civic authorities works displayed in public squares private palaces churches and town halls Including six essays specially commissioned that explore the interaction of artists and their civic and or courtly patrons within the context of prevailing cultural political and religious circumstances The Court Cities of Northern Italy provides a rich supplement to traditional accounts of the artistic heritage of the Italian Renaissance which has traditionally focused on the Florentine Venetian and Roman traditions The book includes 35 color plates and 221 black and white illustrations

Sofonisba's Lesson Michael W. Cole, 2019 Within a span of seven or eight years in the 1550s the Italian painter Sofonisba Anguissola produced more self portraits than any known painter before her had in a lifetime She was the first known artist in history to take her parents and siblings as primary subject matter and may have painted the first group portrait featuring only women Cole examines Sofonisba's paintings as expressions of her relationships and networks looking at why Sofonisba was able to become a great woman artist at her father who decided to allow her to be educated as a painter at her teacher Bernardino Campi and at her relationships with her students sisters and patrons who included the Queen of Spain Cole demonstrates that Sofonisba made teaching and education a central theme of her painting The book also provides the first complete catalogue of all of Sofonisba's known works

Flesh and Bones Monique Kornell, 2022-03-01 This illustrated volume examines the different methods artists and anatomists used to reveal the inner workings of the human body and evoke wonder in its form For centuries anatomy was a fundamental component of artistic training as artists such as Leonardo da Vinci and Michelangelo sought to skillfully portray the human form In Europe illustrations that captured the complex structure of the body spectacularly realized by anatomists artists and printmakers in early atlases such as Andreas Vesalius's *De humani corporis fabrica libri septem* of 1543 found an audience with both medical practitioners and artists *Flesh and Bones* examines the inventive ways anatomy has been presented from the sixteenth through the twenty first century including an animated corpse displaying its own body for study anatomized antique sculpture spectacular life size prints delicate paper flaps and 3 D stereoscopic photographs Drawn primarily from the vast holdings of the Getty Research Institute the over 150 striking images which range in media from woodcut to neon reveal the uncanny beauty of the human body under the skin
