Wace,Layamon,Mediaeval Academy of America,1996-01-01 The spread of the Arthurian legend during the course of the twelfth century is one of the most remarkable phenomena in literary history *Arthurian Chronicles* looks at two unsung but deserving poets who contributed to the diffusion of the legend Wace who preceded the more famous Chretien de Troyes and Layamon who followed him Wace was of an inquiring turn of mind with for his day a scholarly and sceptical approach to *lais* marvellous tales and fables Not all lies nor all true all foolishness nor all sense So much have the story tellers told and so much have the makers of fables fabled to embellish their stories that they have made all seem fable he writes He was the first to mention the famous Round Table In Layamon's *Brut* Arthur hero and emperor makes his first appearance in English vernacular literature It is Layamon who tells of the elves that attended on the infant Arthur and endowed him with gifts and qualities he also launched Arthur after his last battle to Argante in Avallon to be healed of his wounds In this English language prose translation of the Wace and Layamon *Arthurian* poems the folk tale ferocity of Arthur is made as exciting to the readers as to the poets who contributed so much to Arthur's legend Originally published by J M Dent Sons 1962

The Medieval Chronicle, 2022-11-07 In the summer of 1996 the first international conference was held on the medieval chronicle a genre which until then had received but scant attention from historians or specialists in literary history or art history There are several reasons why the chronicle is particularly suited as the topic of an international conference In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions It is the aim of the present volume to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds
