Justin Whitmel Earley, 2023-08-15. Discover the art of fostering life-giving, long friendships and the individual habits that make them possible. Loneliness is deadly. We know this psychologically and spiritually. Sin wants us to be alone, and it often feels like today's world is tailor-made to keep us that way. In *Made for People*, by bestselling author of *The Habits of the Household*, Justin Whitmel Earley explains why God made us to experience deep friendship and how we can cultivate them despite a culture of busyness, disconnection, and fear of vulnerability. Through personal stories, research, and biblical wisdom, Justin paints a picture of God's design for covenant friendships. This book will teach you how loneliness points to our God-given needs. Why vulnerability is the beginning of real friendship. How to deepen the friendships we already have. Key habits that create a lifestyle of friendship. Isolation may be the norm of modern life, but it doesn't have to be the story of yours, and it isn't what you were made for. In fact, you were made to be among people who know you fully and love you anyway. Leave behind loneliness and build the life of deep connection you long for. **Car Safety Wars** Michael R. Lemov, 2015-03-19.

Car Safety Wars is a gripping history of the hundred-year struggle to improve the safety of American automobiles and save lives on the highways. Described as the equivalent of war by the Supreme Court, the battle involved the automobile industry, unsung and long-forgotten safety heroes, at least six US Presidents, a reluctant Congress, new auto technologies, and most of all, the mindset of the American public. Would they demand and be willing to pay for safer cars? The *Car Safety Wars* were at first won by consumers and safety advocates. The major victory was the enactment in 1966 of a ground-breaking federal safety law. The safety act was pushed through Congress over the bitter objections of car manufacturers by a major scandal involving General Motors, its private detectives, Ralph Nader, and a gutty cigar-chomping old politician. The act is a success story for government safety regulation. It has cut highway death and injury rates by over seventy percent in the years since its enactment, saving more than two million lives and billions of taxpayer dollars. But the car safety wars have never ended.

GM has recently been charged with covering up deadly defects resulting in multiple ignition switch shut offs Toyota has been fined for not reporting fatal unintended acceleration in many models Honda and other companies have for years sold cars incorporating defective air bags These current events suggesting a failure of safety regulation may serve to warn us that safety laws and agencies created with good intentions can be corrupted and strangled over time This book suggests ways to avoid this result but shows that safer cars and highways are a hard road to travel We are only part of the way home
