Readicide Kelly Gallagher, 2023-10-10 Read i cide The systematic killing of the love of reading often exacerbated by the inane mind numbing practices found in schools Reading is dying in our schools Educators are familiar with many of the factors that have contributed to the decline poverty second language issues and the ever expanding choices of electronic entertainment In this provocative book Readicide How Schools are Killing Reading and What You Can Do About It author and teacher Kelly

Gallagher suggests it is time to recognize a new and significant contributor to the death of reading in our schools. Readicide. Gallagher argues that American schools are actively though unwittingly furthering the decline of reading. Specifically he contends that the standard instructional practices used in most schools are killing reading by valuing standardized testing over the development of lifelong readers. Mandating breadth over depth in instruction. Requiring students to read difficult texts without proper instructional support and insisting students focus on academic texts. Ignoring the importance of developing recreational reading. Losing sight of authentic instruction in the looming shadow of political pressures. Readicide provides teachers, literacy coaches, and administrators with specific steps to reverse the downward spiral in reading steps that will help prevent the loss of another generation of readers.

Teaching the Tough Issues Jacqueline Darvin, 2015-04-24 This book introduces a groundbreaking teaching method intended to help English, social studies, and humanities teachers address difficult or controversial topics in their secondary classrooms. Because these issues are rarely addressed in teacher preparation programs, few teachers feel confident facilitating conversations around culturally and politically sensitive issues in ways that honor their diverse students' voices and lead to critical, transformative thinking. The author describes a four-step method to help teachers structure discussions and written assignments while concurrently assisting them in addressing Common Core State Standards. Designed to aid students in both developing their own viewpoints on contentious issues and in actively critiquing those of their teachers and peers, these practices will enhance any humanities curriculum.

But when her own five-year-old son Nathaniel is traumatized by a sexual assault, Nina and her husband Caleb, a quiet and methodical stone mason, are shattered, ripped apart by an enraging sense of helplessness in the face of a futile justice system that Nina knows all too well. In a heartbeat, Nina's absolute truths and convictions are turned upside down, and she hurtles toward a plan to exact her own justice for her son, no matter the consequence, whatever the sacrifice. *Second Glance*: Second Glance, an eerie and engrossing work, delves into a virtually unknown chapter of American history: Vermont's eugenics project of the 1920s and 30s to provide a compelling study of the things that come back to haunt us literally and figuratively. *Do We Love Across Time or in Spite of It?* *My Sister's Keeper*: *My Sister's Keeper* examines what it means to be a good parent, a good sister, a good person. Is it morally correct to do whatever it takes to save a child's life, even if that means infringing upon the rights of another? Is it worth trying to discover who you really are if that quest makes you like yourself less? Should you follow your own heart or let others lead you? Once again, Jodi Picoult tackles a controversial real-life subject with grace, wisdom, and sensitivity.
