An Army at War: Change in the Midst of Conflict (The Proceedings of the Combat Studies Institute [sic] 2005 Military History Symposium) , A Documentary History of Modern Iraq Stacy E. Holden, 2012-07-08 Previously published histories and primary source collections on the Iraqi experience tend to be topically focused or dedicated to presenting a top down approach By contrast Stacy Holden s A Documentary History of Modern Iraq gives voice to ordinary Iraqis clarifying the experience of the Shiites Sunnis Kurds Jews and women over the past century Through varied documents ranging from short stories to treaties political speeches to memoirs and newspaper articles to book excerpts the work synthesizes previously marginalized perspectives of minorities and women with the voices of the political elite to provide an integrated picture of political change from the Ottoman Empire in 1903 to the end of the second Bush administration in 2008 Covering a broad range of topics this bottom up approach allows readers to fully immerse themselves in the lives of everyday Iraqis as they navigate regime shifts from the British to the Hashemite monarchy the political upheaval of the Persian Gulf wars and beyond Brief introductions to each excerpt provide context and suggest questions for classroom discussion This collection offers raw history untainted and unfiltered by modern political framework and thought representing a refreshing new approach to the study of Iraq

Nonstate Warfare Stephen Biddle, 2022-07-26 How nonstate military strategies overturn traditional perspectives on warfare Since September 11th 2001 armed nonstate actors have received increased attention and discussion from scholars policymakers and the military Underlying debates about nonstate warfare and how it should be countered is one crucial assumption that state and nonstate actors fight very differently In Nonstate Warfare Stephen Biddle upturns this distinction arguing that there is actually nothing intrinsic separating state or nonstate military behavior Through an in depth look at nonstate military

conduct Biddle shows that many nonstate armies now fight more conventionally than many state armies and that the internal politics of nonstate actors their institutional maturity and wartime stakes rather than their material weapons or equipment determines tactics and strategies Biddle frames nonstate and state methods along a continuum spanning Fabian style irregular warfare to Napoleonic style warfare involving massed armies and he presents a systematic theory to explain any given nonstate actor's position on this spectrum Showing that most warfare for at least a century has kept to the blended middle of the spectrum Biddle argues that material and tribal culture explanations for nonstate warfare methods do not adequately explain observed patterns of warmaking Investigating a range of historical examples from Lebanon and Iraq to Somalia Croatia and the Vietcong Biddle demonstrates that viewing state and nonstate warfighting as mutually exclusive can lead to errors in policy and scholarship A comprehensive account of combat methods and military rationale **Nonstate Warfare** offers a new understanding for wartime military behavior
