Technoculture in Don DeLillo's Novels Laila Sougri,2023-09-04 This book is the first to explore technoculture in all of Don DeLillo s novels From *Americana* 1971 to *The Silence* 2020 the American author anatomizes the constantly changing relationship between culture and technology in overt and layered aspects of the characters experiences Through a tendency to discover and rediscover technocultural modes of appearance DeLillo emphasizes settings wherein technological progress is implicated in cultural imperatives This study brings forth representations of such implication interaction through various themes particularly perception history reality space architecture information and the posthuman The chapters are based on a thematic structure that weaves DeLillo s novels with the rich literary criticism produced on the author and with the various

theoretical frameworks of technoculture This leads to the formulation and elaboration on numerous objects of research extracted from DeLillo s novels namely the theorization of DeLillo s radiance in dailiness the investigation of various uses of technology as an extension the role of image technologies in redefining history the reconceptualization of the ethical and behavioral aspects of reality the development of tele visual and embodied perceptions in various technocultural spaces and the involvement of information technologies in reconstructing the beliefs behaviors and activities of the posthuman One of the main aims of the study is to show how DeLillo s novels bring to light the constant transformation of technocultural everydayness It is argued that though such transformation is confusing or resisted at times it points to a transitional mode of being This transitional state does not dehumanize DeLillo s characters it reveals their humanity in a continually changing world

Literary Contexts in Novels ,2006 **The Future Without a Past** John Paul Russo,2005 Argues that technological imperatives like rationalization universalism monism and autonomy have transformed the humanities and altered the relation between humans and nature Examines technology and its impact on education historical memory and technological and literary values in criticism and theory concluding with an analysis of the fiction of Don DeLillo Provided by publisher **SPIN** ,1997-10 From the concert stage to the dressing room from the recording studio to the digital realm SPIN surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of SPIN pulsate with the energy of today s most innovative sounds Whether covering what s new or what s next SPIN is your monthly VIP pass to all that rocks **Zero K** Don DeLillo,2016 Jeffrey Lockhart s father Ross is a billionaire in his sixties with a younger wife Artis Martineau whose health is failing Ross is the primary investor in a remote and secret compound where death is exquisitely controlled and bodies are preserved until a future time when biomedical advances and new technologies can return them to a life of transcendent promise Jeff joins Ross and Artis at the compound to say an uncertain farewell to her as she surrenders her body We are born without choosing to be Should we have to die in the same manner Isn t it a human glory to refuse to accept a certain fate These are the questions that haunt the novel and its memorable characters and it is Ross Lockhart most particularly who feels a deep need to enter another dimension and awake to a new world For his son this is indefensible Jeff the book s narrator is committed to living to experiencing the mingled astonishments of our time here on earth Don DeLillo s seductive spectacularly observed and brilliant new novel weighs the darkness of the world terrorism floods fires famine plague against the beauty and humanity of everyday life love awe the intimate touch of earth and sun

Alienation and Resistance Laura Findlay,Gordon Spark,2020-05-22 This collection draws together recent work by new and emerging scholars which examines the representation of alienation and resistance in texts and images both modern and traditional The essays collected here incorporate both high and low culture covering a wide range of disciplines from traditional literary sources to the more modern mediums of film and comic Informing each of the contributions is one

overriding question what are the roles forms and conditions of alienation and resistance in our culture and its diverse media The contributors to this collection find examples of both alienation and resistance everywhere from sixteenth century drama to contemporary fiction from American comics to Eastern European cinema from representations of the body to the site of the body itself In seeking out these representations of alienation and resistance the essays begin also to probe the limits and limitations of such terms As such the collection as a whole offers both a broad overview of the field of play as it stands today and makes tentative suggestions as to potential paths of future inquiry

The Imagery of Writing in the Early Works of Paul Auster Clara Sarmiento, 2017-01-06 The early works of Paul Auster convey the loneliness of the individual fully committed to the work of writing as if he were confined within the book that dominates his life All through Auster's poetry essays and fiction the work of writing is an actual physical effort an effective construction as if the words aligned in the poem text were stones to place in a row when building a wall or some other structure in stone This book studies the symbolism of the genetic substance of the world re built through the work of writing inside the walls of the room closed in space and time though open to an unlimited mental expansion Paul Auster's work is an aesthetic literary self reflection about the mission of writing The writer character is like an inexperienced God whose hands may originate either cosmos or chaos life or death hence Auster's recurring meditation on the work and the power of writing at the same time an autobiography and a self criticism The stones the wall and the room the words the page and the book are the ontological structure of the imaginary cosmos generated in Paul Auster's mind like a real world born of the magma of words lost in another interior world

Samuel Beckett's Legacies in American Fiction James Baxter, 2021-11-30 Samuel Beckett's Legacies in American Fiction provides an overdue investigation into Beckett's rich influences over American writing Through in depth readings of postmodern authors such as Robert Coover Donald Barthelme Thomas Pynchon Don DeLillo Paul Auster and Lydia Davis this book situates Beckett's post war writing of exhaustion and generation in relation to the emergence of an explosive American avant garde In turn this study provides a valuable insight into the practical realities of Beckett's dissemination in America following the author's long standing relationship with the countercultural magazine Evergreen Review and its dramatic role in redrawing the possibilities of American culture in the 1960s While Beckett would be largely removed from his American context this book follows his vigorous albeit sometimes awkward reception alongside the authors and institutions central to shaping his legacies in 20th and 21st century America

Life between Two Deaths, 1989-2001 Phillip E. Wegner, 2009-07-10 An argument that it was only on September 11 2001 that the symbolic universe of the Cold War was finally destroyed and a new world order put into place
