[Virus Mania](#) Torsten Engelbrecht, Claus Köhnlein, Samantha Bailey, Stefano Scoglio, 2021-04-22 The book Virus Mania has been written with the care of a master craftsman courageously evaluating the medical establishment the corporate elites and the powerful government funding institutions Wolfgang Weuffen MD Professor of Microbiology and Infectious Epidemiology The book Virus Wahn can be called the first work in which the errors frauds and general misinformations being spread by official bodies about doubtful or non virus infections are completely exposed Gordon T Stewart MD professor of public health and former WHO advisor The population is terrified by reports of so called COVID 19 measles swine flu SARS BSE AIDS or polio However the authors of Virus Mania investigative journalist Torsten Engelbrecht Dr Claus Köhnlein MD Dr Samantha Bailey MD and Dr Stefano Scoglio BSc PhD show that this fearmongering is unfounded and that virus mayhem ignores basic scientific facts The existence the pathogenicity and the deadly effects of these agents have never been proven The book Virus Mania will also outline how modern medicine uses dubious indirect lab tools claiming to prove the existence of viruses such as antibody tests and the polymerase chain reaction PCR The alleged viruses may be in fact also be seen as particles produced by the cells

themselves as a consequence of certain stress factors such as drugs. These particles are then picked up by antibody and PCR tests and mistakenly interpreted as epidemic causing viruses. The authors analyze all real causes of the illnesses named COVID 19, avian flu, AIDS or Spanish flu among them: pharmaceuticals, lifestyle, drugs, pesticides, heavy metals, pollution, malnutrition and stress. To substantiate it, the authors cite dozens of highly renowned scientists among them the Nobel laureates Kary Mullis, Barbara McClintock, Walter Gilbert and Sir Frank Macfarlane Burnet as well as microbiologist and Pulitzer Prize winner René Dubos and it presents more than 1 400 solid scientific references. The topic of Virus Mania is of pivotal significance. Drug makers and top scientists rake in enormous sums of money and the media boosts its audience ratings and circulations with sensationalized reporting. The coverage of the New York Times and Der Spiegel are specifically analyzed. The enlightenment about the real causes and true necessities for prevention and cure of illnesses is falling by the wayside. For more reviews see the older edition of Virus Mania.

Values and Vaccine Refusal

Mark Navin, 2015-09-16. Parents in the US and other societies are increasingly refusing to vaccinate their children even though popular anti vaccine myths e.g. vaccines cause autism have been debunked. This book explains the epistemic and moral failures that lead some parents to refuse to vaccinate their children. First some parents have good reasons not to defer to the expertise of physicians and to rely instead upon their own judgments about how to care for their children. Unfortunately epistemic self reliance systematically distorts beliefs in areas of inquiry in which expertise is required like vaccine immunology. Second vaccine refusers and mainstream medical authorities are often committed to different values surrounding health and safety. For example while vaccine advocates stress that vaccines have low rates of serious complications vaccine refusers often resist vaccination because it is unnatural and because they view vaccine preventable diseases as a natural part of childhood. Finally parents who refuse vaccines rightly resist the utilitarian moral arguments for the greater good that vaccine advocates sometimes make. Unfortunately vaccine refusers also sometimes embrace a pernicious hyper individualism that sanctions free riding on herd immunity and that cultivates indifference to the interpersonal and social harms that unvaccinated persons may cause.

What is the truth about UFOs, pyramids, religious apparitions, psychic phenomena, visions of the future and ancient prophecies and what is their connection to famous conspiracy theories concerning the Moon landings, 9 11, the New World Order and claims that the planet is secretly run by a powerful ruling elite.
