*The Signal-man* Charles Dickens, 2017-03-12 Halloo Below there When he heard a voice thus calling to him he was standing at the door of his box with a flag in his hand furled round its short pole One would have thought considering the nature of the ground that he could not have doubted from what quarter the voice came but instead of looking up to where I stood on the top of the steep cutting nearly over his head he turned himself about and looked down the Line There was something remarkable in his manner of doing so though I could not have said for my life what But I know it was remarkable enough to attract my notice even though his figure was foreshortened and shadowed down in the deep trench and mine was high above him so steeped in the glow of an angry sunset that I had shaded my eyes with my hand before I saw him at all

shadow of an unbearable secret haunted by an apparition whose appearance prefigures terrible rail accidents Drawing on Dickens own experiences and introduced by Simon Bradley author of *The Railways The Signaller* is both an important piece of rail history and a sinister tale which will make you think twice next time you enter the quiet carriage *The Signaller*, 1982 A signaller is visited by a ghostly figure who seems to warn of approaching tragedies along the railroad track

*Stories (Complete)* Various Authors, 1932-01-01 It was high holiday at Father Merlier s mill on that pleasant summer afternoon Three tables had been brought out into the garden and placed end to end in the shade of the great elm and now they were awaiting the arrival of the guests It was known throughout the length and breadth of the land that that day was to witness the betrothal of old Merlier s daughter Fran oise to Dominique a young man who was said to be not overfond of work but whom never a woman for three leagues of the country around could look at without sparkling eyes such a well favored young fellow was he That mill of Father Merlier s was truly a very pleasant spot It was situated right in the heart of Rocreuse at the place where the main road makes a sharp bend The village has but a single street bordered on either side by a row of low whitened cottages but just there where the road curves there are broad stretches of meadow land and huge trees which follow the course of the Morelle cover the low grounds of the valley with a most delicious shade All Lorraine has no more

charming bit of nature to show To right and left dense forests great monarchs of the wood centuries old rise from the gentle slopes and fill the horizon with a sea of waving trembling verdure while away toward the south extends the plain of wondrous fertility and checkered almost to infinity with its small enclosures divided off from one another by their live hedges But what makes the crowning glory of Rocreuse is the coolness of this verdurous nook even in the hottest days of July and August The Morelle comes down from the woods of Gagny and it would seem as if it gathered to itself on the way all the delicious freshness of the foliage beneath which it glides for many a league it brings down with it the murmuring sounds the glacial solemn shadows of the forest And that is not the only source of coolness there are running waters of all sorts singing among the copses one can not take a step without coming on a gushing spring and as he makes his way along the narrow paths seems to be treading above subterrene lakes that seek the air and sunshine through the moss above and profit by every smallest crevice at the roots of trees or among the chinks and crannies of the rocks to burst forth in fountains of crystalline clearness So numerous and so loud are the whispering voices of these streams that they silence the song of the bullfinches It is as if one were in an enchanted park with cascades falling and flashing on every side The meadows below are never athirst The shadows beneath the gigantic chestnut trees are of inky blackness and along the edges of the fields long rows of poplars stand like walls of rustling foliage There is a double avenue of huge plane trees ascending across the fields toward the ancient castle of Gagny now gone to rack and ruin In this region where drought is never known vegetation of all kinds is wonderfully rank it is like a flower garden down there in the low ground between those two wooded hills a natural garden where the lawns are broad meadows and the giant trees represent colossal beds When the noonday sun pours down his scorching rays the shadows lie blue upon the ground vegetation slumbers in the genial warmth while every now and then a breath of almost icy coldness rustles the foliage Such was the spot where Father Merlier s mill enlivened nature run riot with its cheerful clack The building itself constructed of wood and plaster looked as if it might be coeval with our planet Its foundations were in part laved by the Morelle which here expands into a clear pool A dam a few feet in height afforded sufficient head of water to drive the old wheel which creaked and groaned as it revolved with the asthmatic wheezing of a faithful servant who has grown old in her place Whenever Father Merlier was advised to change it he would shake his head and say that like as not a young wheel would be lazier and not so well acquainted with its duties and then he would set to work and patch up the old one with anything that came to hand old hogshead staves bits of rusty iron zinc or lead The old wheel only seemed the gayer for it with its odd round countenance all plumed and feathered with tufts of moss and grass and when the water poured over it in a silvery tide its gaunt black skeleton was decked out with a gorgeous display of pearls and diamonds

**The New Century Speaker for School and College** Henry Allyn Frink,1898      *Prosthetic Body Parts in Nineteenth-Century Literature and Culture* Ryan Sweet,2021-12-03 This open access book investigates imaginaries of artificial limbs eyes hair and teeth in British and American literary and cultural sources from the nineteenth and early

twentieth century Prosthetic Body Parts in Nineteenth Century Literature and Culture shows how depictions of prostheses complicated the contemporary bodily status quo which increasingly demanded an appearance of physical wholeness. Revealing how representations of the prostheticized body were inflected significantly by factors such as social class, gender, and age, Prosthetic Body Parts in Nineteenth Century Literature and Culture argues that nineteenth century prosthesis narratives though presented in a predominantly ableist and sometimes disablist manner challenged the dominance of physical completeness as they questioned the logic of prostheticization or presented non normative subjects in threateningly powerful ways. Considering texts by authors including Charles Dickens, Edgar Allan Poe, and Arthur Conan Doyle alongside various cultural, medical, and commercial materials, this book provides an important reappraisal of historical attitudes to not only prostheses but also concepts of physical normalcy and difference. [Sleep](#) Alex Westcombe, Andrew Green, 2012-07-15. This multi disciplinary book offers an unprecedented range of contributions relating to sleep in one comprehensive volume. The science of sleep and its sociological and cultural aspects are explored, as are sleep disorders, the importance of sleep for daytime performance, and the ways in which sleep is affected by medical and psychiatric conditions. **Classic English Mystery And Detective Stories** Julian Hawthorne, 2010-03-01. When you're in the mood for suspense, nothing delivers like a collection of mystery and detective stories. These tales have been culled from the golden age of the genre when masters like Charles Dickens, Thomas De Quincey, Laurence Sterne, and William Makepeace Thackeray were producing stories at a rapid clip to satisfy millions of devoted readers. Curl up with Classic English Mystery and Detective Stories tonight. [Shifting the Blame](#) Nan Goodman, 2021-03-09. Drawing on legal cases, legal debates, and fiction including works by James Fenimore Cooper, Mark Twain, Stephen Crane, and Charles Chesnutt, Nan Goodman investigates changing notions of responsibility and agency in nineteenth century America. By looking at accidents and accident law in the industrializing society, Goodman shows how courts moved away from the doctrine of strict liability to a new notion of liability that emphasized fault and negligence. Shifting the Blame reveals the pervasive impact of this radically new theory of responsibility in understandings of industrial hazards, in manufacturing dangers, and in the stories that were told and retold about accidents. In exciting tales of the actions of good Samaritans or of sea steamboat or railroad accidents, features of risk that might otherwise escape our attention such as the suddenness of impact, the encounter between strangers, and the debates over blame and responsibility were reconstructed in a manner that revealed both imagined and actual solutions to one of the most difficult philosophical and social conflicts in the nineteenth century United States. Through literary and legal stories of accidents, Goodman suggests we learn a great deal about what Americans thought about blame, injury, and individual responsibility in one of the most formative periods of our history. **Literary Ghosts from the Victorians to Modernism** Luke Thurston, 2012. This book resituates the ghost story as a matter of literary hospitality and as part of a vital prehistory of modernism, seeing it not as a quaint neo gothic ornament but as a powerful literary response to the technological and psychological disturbances that

marked the end of the Victorian era Linking little studied authors like M R James and May Sinclair to such canonical figures as Dickens Henry James Woolf and Joyce Thurston argues that the literary ghost should be seen as no mere relic of gothic style but as a portal of discovery an opening onto the central modernist problem of how to write life itself Ghost stories are split between an ironic often parodic reference to Gothic style and an evocation of life itself an implicit repudiation of all literary style Reading the ghost story as both a guest and a host story this book traces the ghost as a disruptive figure in the hospitable space of narrative from Maturin Poe and Dickens to the fin de si cle and then on into the twentieth century
