Religious Fundamentalism in the Contemporary World Santosh C. Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions

White Christian Privilege Khyati Y. Joshi, 2021-09-14 A pervasive Christian privilege dominates the United States today Christian beliefs norms and practices infuse our society and lie embedded in our institutions even dictating the structure of our week from Sunday closings for the Christian Sabbath to blue laws restricting the sale of alcohol The US is recognized as the most religiously diverse country in the world and yet Christianity has always been integral to the country's national identity These customs which many of us have come to see as natural features of American life keep the freedom of religion declared in the pages of the Constitution from becoming a reality White Christian Privilege traces Christianity's influence on the American experiment from before the founding of the Republic to the social movements of today Mapping the way through centuries of

salavery westward expansion immigration and citizenship laws the volume also reveals how Christian privilege in the US has always been entangled with notions of white supremacy Drawing on the voices of Christians and religious minorities Khyati Y Joshi explores how Christian privilege and white racial norms affect the lives of all Americans often in subtle ways that society overlooks By shining a light on the inequalities these privileges create Joshi highlights a way forward urging readers to help remake America as a diverse democracy with a commitment to true religious freedom Desert Passions Hsu-Ming Teo, 2012-11-15 The Sheikh E M Hull's best selling novel that became a wildly popular film starring Rudolph Valentino kindled sheik fever across the Western world in the 1920s A craze for all things romantically Oriental swept through fashion film and literature spawning imitations and parodies without number While that fervor has largely subsided tales of passion between Western women and Arab men continue to enthrall readers of today's mass market romance novels In this groundbreaking cultural history Hsu Ming Teo traces the literary lineage of these desert romances and historical bodice rippers from the twelfth to the twenty first century and explores the gendered cultural and political purposes that they have served at various historical moments Drawing on high literature erotica and popular romance fiction and films Teo examines the changing meanings of Orientalist tropes such as crusades and conversion abduction by Barbary pirates sexual slavery the fear of renegades the Oriental despot and his harem the figure of the powerful Western concubine and fantasies of escape from the harem She analyzes the impact of imperialism decolonization sexual liberation feminism and American involvement in the Middle East on women's Orientalist fiction Teo suggests that the rise of female authored romance novels dramatically transformed the nature of Orientalism because it feminized the discourse made white women central as producers consumers and imagined actors and revised reversed or collapsed the binaries inherent in traditional analyses of Orientalism Arabs and Muslims in the Media Evelyn Alsultany, 2012-08-20 After 9 11 there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U S media Arabs and Muslims in the Media examines this paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as The Practice 24 Law and Order NYPD Blue and Sleeper Cell news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality **Film Study** Frank Manchel, 1990-10 The four

volumes of Film Study include a fresh approach to each of the basic categories in the original edition Volume one examines the film as film volume two focuses on the thematic approach to film volume three draws on the history of film and volume four contains extensive appendices listing film distributors sources and historical information as well as an index of authors titles and film personalities

Race and Arab Americans Before and After 9/11 Amaney Jamal,Nadine Naber,2008-02-27 Bringing the rich terrain of Arab American histories to bear on conceptualizations of race in the United States this groundbreaking volume fills a critical gap in the field of U S racial and ethnic studies The articles collected here highlight emergent discourses on the distinct ways that race matters to the study of Arab American histories and experiences and asks essential questions What is the relationship between U S imperialism in Arab homelands and anti Arab racism in the United States In what ways have the axes of nation religion class and gender intersected with Arab American racial formations What is the significance of whiteness studies to Arab American studies Transcending multiculturalist discourses that have simply added on the category Arab American to the landscape of U S racial and ethnic studies after the attacks of September 11 2001 this volume locates September 11 as a turning point rather than as a beginning in Arab Americans

Islam in the Eyes of the West Tareq Y. Ismael,Andrew Rippin,2010-07-02 From the terrorist attacks of September 11 2001 in New York to the Madrid and London bombings of 2004 and 2005 the presence of Muslim communities in the West has generated security issues and major political concern The government the media and the general public have raised questions regarding potential links between Western Muslims radical Islam and terrorism This speculation has given rise to popular myths concerning the Islamic world and led to a host of illiberal measures such as illegal warranting denial of Habeas Corpus black prisons and extreme torture throughout the democratic world This book challenges the authenticity of these myths and examines the ways in which they have been used to provide an ideological cover for the war on terror and the subsequent Iraq war It argues that they are not only unfounded and hollow but have also served a dangerous purpose namely war mongering and the empowering of the national security state It further considers the origin and transmission of these myths focusing on media government policy and popular discourse

of Arab American arts The book opens up the ways that we discuss Arab American literary and fine arts so that we understand how Arab American identity and experience begets Arab American artistic enterprise Split into three sections the first offers a set of theoretical propositions for understanding aesthetics that traverse Arab American cultural production The second section focuses on material culture as a way to think through the creation of objects as an aesthetic enterprise The final section looks at narratives in theatre and how the impact of such a medium has the potential to recreate in both senses of the word play and invention By shifting the conversation from identity politics to the relationship between politics and aesthetics this book provides an important contribution to Arab American studies It will also appeal to students and scholars of ethnic studies museum studies and cultural studies
