The Voice of Nature Christian Boustead,2014 A collection of 69 poems some reflective some playful some with a poignant or comical twist but all reveal Christian Boustead's immense respect and love for the natural world **Dragon Games, Book Two of the Weeding Chronicles** Christian Boustead,2016-04-27 there was something about his calm regular features that seemed wrong to Healm As he stared at the blond man he thought that his face flickered an instant as though he were seeing a mask slip to reveal the real face behind Vivid fantasy adventure Also in the series THE AWAKENING OF MAGIC BOOK ONE OF THE WEREDING CHRONICLES *The Dark Tide* Christian Boustead,2019-12-04 Vivid fantasy adventure From behind him there came a deep purr of a voice sounding like a cat And will they sweep us away or break upon our shores An animalistic snarl broke from his lips and his eyes blazed with a yellow fire as if a flame had flared up inside him The storm is gathering and we must stand to meet it The storm is gathering my love because I summoned it said the purr

Lemuel Adams,1856 **All Creation Sings** Dr. J. Ellsworth Kalas,2010-09-01 J Ellsworth Kalas adapted from chapter 1 There's an old hymn you may be familiar with that contains these words This is my Father's world And to my listening ears All nature sings and round me rings The music of the spheres This is my Father's world He shines in all that's fair In the rustling grass I hear him pass He speaks to me everywhere Maltbie D Babcock This Is My Father's World 1901 It is true still today that all nature sings but it is increasingly difficult to catch the melody Almost anywhere we go nature's voice is now muted by the sound of traffic and assorted electronic devices Those who go out to walk or jog are likely to wear a device that keeps them in touch with news or music or speech so that intentionally or not they have shut out nature's sound and dulled its influence Which brings me to the point of this book I rejoice greatly in the green movement that has made new millions conscious of the wonder of our creation and the blessed necessity of caring for it passionately This is a magnificent step in the right direction and it puts quality content into what might otherwise be little more than sentimental feelings But I want us to go farther than that I want us not simply to see and indeed to be grateful for the wonders of nature I want us to go beyond nature's exquisite beauty until we learn some of the lessons it would teach us lessons about both life and God When nature sings as it does every moment its melody draws

us to God if only we listen with our whole being This book will contain a discussion guide **The Voice of Nature** William
