Sight and Sound ,2004 *The Big Fat Surprise* Nina Teicholz,2014-05-13 A New York Times bestseller Named one of The Economist s Books of the Year 2014 Named one of The Wall Street Journal s Top Ten Best Nonfiction Books of 2014 Kirkus Reviews Best Nonfiction Books of 2014 Forbes s Most Memorable Healthcare Book of 2014 In *The Big Fat Surprise* investigative journalist Nina Teicholz reveals the unthinkable that everything we thought we knew about dietary fat is wrong She documents how the low fat nutrition advice of the past sixty years has amounted to a vast uncontrolled experiment on the entire population with disastrous consequences for our health For decades we have been told that the best possible diet involves cutting back on fat especially saturated fat and that if we are not getting healthier or thinner it must be because we are not trying hard enough But what if the low fat diet is itself the problem What if the very foods we ve been denying

ourselves the creamy cheeses the sizzling steaks are themselves the key to reversing the epidemics of obesity diabetes and heart disease In this captivating vibrant and convincing narrative based on a nine year long investigation Teicholz shows how the misinformation about saturated fats took hold in the scientific community and the public imagination and how recent findings have overturned these beliefs She explains why the Mediterranean Diet is not the healthiest and how we might be replacing trans fats with something even worse This startling history demonstrates how nutrition science has gotten it so wrong how overzealous researchers through a combination of ego bias and premature institutional consensus have allowed dangerous misrepresentations to become dietary dogma With eye opening scientific rigor The Big Fat Surprise upends the conventional wisdom about all fats with the groundbreaking claim that more not less dietary fat including saturated fat is what leads to better health and wellness Science shows that we have been needlessly avoiding meat cheese whole milk and eggs for decades and that we can now guilt free welcome these delicious foods back into our lives **The Strong, Silent**

Kidd, Joseph T. Thomas Jr., 2016-11-10 Children's book awards have mushroomed since the early twentieth century and especially since the 1960s when literary prizing became a favored strategy for both commercial promotion and canon making. There are over 300 awards for English language titles alone but despite the profound impact of children's book awards scholars have paid relatively little attention to them. This book is the first scholarly volume devoted to the analysis of Anglophone children's book awards in historical and cultural context. With attention to both political and aesthetic concerns the book offers original and diverse scholarship on prizing practices and their consequences in Australia, Canada, and especially the United States. Contributors offer both case studies of particular awards and analysis of broader trends in literary evaluation and elevation drawing on theoretical work on canonization and cultural capital. Sections interrogate the complex and often unconscious ideological work of prizing the ongoing tension between formalist awards and so-called identity-based awards all the more urgent in light of the We Need Diverse Books campaign the ever-morphing forms and parameters of prizing and scholarly practices of prizing. Among the many awards discussed are the Pura Belpré Medal the Inky Awards the Canada Governor General Literary Award the Printz Award the Best Animated Feature Oscar the Phoenix Award and the John Newbery Medal giving due attention to prizes for fiction as well as for non-fiction poetry and film. This volume will interest scholars in literary and cultural studies social history book history sociology education library and information science and anyone concerned with children's literature.
