*Contemporary Fiction and Science from Amis to McEwan* Rachel Holland, 2019-04-26 This book identifies in contemporary fiction a new type of novel at the interface of science and the humanities working from the premise that a shift has taken place in the relations between the two cultures in the last two or three decades As popular science comes to assume an ever greater cultural significance contemporary authors are engaging in new ways with ideas that it disseminates A new literary phenomenon is emerging in which the focus on language based theories of the self and the world that has been predominant in the latter half of the previous century is making way for a

, 2014-07 **Euthanasia and the Ethics of a Doctor's Decisions** Ole Hartling, 2021-04-22 Why do so many doctors have profound misgivings about the push to legalise euthanasia and assisted suicide Ole Hartling uses his background as a physician university professor and former chairman of the Danish Council of Ethics to introduce new elements into what can often be understood as an all too simple debate Alive to the case that assisted dying can be driven by an unattainable yearning for control Hartling concentrates on two fundamental questions whether the answer to suffering is to remove the sufferer and whether self determination in dying and death is an illusion He draws on his own experience as a medical doctor to personalize the ethical arguments share patients narratives and make references to medical literature Here is a sceptical

stance towards euthanasia one that is respectful to those who hold different opinions and well informed about the details and nuances of different euthanasia practices Written from a Scandinavian perspective where respect for autonomy and high quality palliative care go hand in hand Hartling s is a nuanced valuable contribution to the arguments that surround a question doctors have faced since the birth of medicine He shows us how the intentions of doing something good can sometimes lead to even greater dilemmas opening us up to those situations where an inclination to end suffering by ending life is deeply conflicting both for the clinician and for any fellow human being The Coincidence Authority John Ironmonger,2013-09-12 For fans of THE UNLIKELY PILGRIMAGE OF HAROLD FRY THE ADJUSTMENT BUREAU Mark Watson and Mark Haddon here is a cleverly written mystery about fate circumstance destiny and coincidence from COSTA AWARD shortlisted author John Ironmonger This quirky read is hard to put down and spans philosophy conflict relationships and romance Thomas Post is an expert on coincidences He s an authority People come to see him to ask him if he can explain strange events that have befallen them and he can always explain these things away We poor humans he would say have a tendency to make patterns out of random shapes or to construct meaning from the random behaviour of the universe But one day Thomas gets a visit from Azalea Lewis and his world will never be the same again For Azalea s coincidences seem to go off the scale The lives of Thomas and Azalea become entwined their destinies entangled And now with Azalea apparently dead in a foreign land Thomas must reassemble the pieces of her life in search for the patterns that drove it And that means he must try to unravel the coincidences that so afflicted her **Jumping Sharks and Dropping Mics** Gareth Carrol,2022-02-25 Gareth Carrol presents a collection of modern idioms which have become a part of our vocabulary in the past 50 years or so In most cases idioms such as raining cats and dogs that colour our everyday communication are deeply rooted in culture and history However just like words new idioms emerge in language and many have entered our vocabulary through TV movies and the internet These modern idioms can be dated very precisely Jumping Sharks and Dropping Mics finds the origins of these idioms and charts their development **Ostrich** Matt Greene,2013-09-05 Growing up is hard enough without a deadline Alex s parents know something he doesn t They know what s happening inside his head Alex is more interested in what s happening outside it He has homework to do and a marriage to save The clock is ticking But there s still time to win the heart of Chloe Gower Laugh out loud funny and cry out loud sad Ostrich is a book about what happens when you have to lift your head from the sand His parents The Wreckage Robin Morgan-Bentley,2020-02-06 One fatal crash Ben is driving on the motorway on his usual commute to the school where he works A day like any other except for the crash Two colliding worlds Adam has left his home for the last time In his final despairing act he jumps in front of Ben s car turning the teacher s world upside down Three wrecked lives Wracked with guilt Ben seeks out Alice Adam s widow and her 7 year old son Max But as he tries to escape the trauma of the wreckage could Ben go too far in trying to ease his conscience Gripping and sinister The Wreckage is guaranteed to keep you up all night A terrific debut exploring the vulnerabilities and

co dependency of damaged individuals I loved the wonderfully subtle but insistent tone of menace woven into the narrative winding me into the colliding worlds of Ben and Alice and pushing me on to finish it Clever and compelling Fiona Barton bestselling author of *The Widow* *Kaapse bibliotekaris* ,2013 Issues for Nov 1957 include section Accessions Aanwinste
