It seems like nothing stands between Scythe Goddard and absolute dominion over the world of scything. With the silence of the Thunderhead and the reverberations of the Great Resonance still shaking the earth to its core, the question remains: Is there anyone left who can stop him? The answer lies in the Tone, the Toll, and the Thunder.

He's a big believer in telling the truth, no matter what. So he develops The Truth App, a mobile application that listens in on your conversations and can tell when someone's lying. Then his app goes viral, and suddenly Jarli is an internet sensation. But soon enough, Jarli realizes that being famous can be dangerous, especially when you've just exposed everyone's deepest, darkest secrets. Now his entire town is out to get him: kids at school, teachers, the police, even his own family. Also, an underground network of criminals has just added Jarli to their hit list. Sometimes exposing the truth comes with a price.
