Embattled Home Fronts Karsten H. Piep,2009-01-01 Embattled Home Fronts is an inquiry into the highly conflicted US American experience of World War I as it plays itself out in the diverse body of novelistic works to which it has given rise and by which it has been in turn shaped

and commemorated As such this book naturally concerns itself with the formal aspects of artistic war representation But rather than merely endeavoring to illustrate how American writers from various backgrounds chose to depict World War I the present work seeks to uncover the particular ideologies and political practices that inform these representational choices To this end *Embattled Home Fronts* examines both canonized and marginalized US American World War I novels within the context of contemporaneous debates over shifting class gender and race relations The book contends that American literary representations of the Great War are shaped less by universal insights into modern society's self destructiveness than by concerted efforts to fashion class gender and race specific experiences of warfare in ways that stabilize and heighten political group identities In moving beyond the customary focus on ironic war representations *Embattled Home Fronts* illustrates that the representational and ideological battles fought within American World War I literature not only shed light on the emergence of powerful identity political concepts such as the New Woman and the New Negro but also speak to the reappearance of utopian communitarian and social protest fictions in the early 1930s This study *Embattled Home Fronts* provides a new understanding of the relationship between war literature and home front politics that should be of interest to students and scholars working from a variety of disciplines and perspectives

Fictional Technique of Scott Fitzgerald James E. Miller Jr., 2013-12-11 John Heartfield and the Agitated Image Andrés

Mario Zervigón, 2012-12-01 Working in Germany between the two world wars John Heartfield born Helmut Herzfeld 1891 1968 developed an innovative method of appropriating and reusing photographs to powerful political effect As a pioneer of modern photomontage he sliced up mass media photos with his iconic scissors and then reassembled the fragments into compositions that utterly transformed the meaning of the originals In *John Heartfield and the Agitated Image* Andr's Mario Zervig n explores this crucial period in the life and work of a brilliant radical artist whose desire to disclose the truth obscured by the mainstream press and imperial propaganda made him a de facto prosecutor of Germany's visual culture Zervig n charts the evolution of Heartfield's photomontage from an act of antiwar resistance into a formalized and widely disseminated political art in the Weimar Republic Appearing on everything from campaign posters to book covers the photomonteur's notorious pictures challenged well worn assumption and correspondingly walked a dangerous tightrope over the political social and cultural cauldron that was interwar Germany Zervig n explains how Heartfield's engagement with montage arose from a broadly shared dissatisfaction with photography's capacity to represent the modern world The result was likely the most important combination of avant garde art and politics in the twentieth century A rare look at Heartfield's

early and middle years as an artist and designer this book provides a new understanding of photography's role at this critical juncture in history

The Kingfish in Fiction Keith Perry, 2004-06-01

The controversial almost mythic Louisiana politician Huey P Long inspired not just one but six American novels published between 1934 and 1946 And he continues to resonate in American cultural memory appearing in a 1995 work of historical fiction The Kingfish in Fiction offers the first study of all six Hueys who aren't Hueys as they strut and bluster their way across the literary page each character with his own particular story each towing a different authorial agenda Keith Perry carefully dissects the intertwining of documented history and artistic invention in Sinclair Lewis's *It Can't Happen Here* Hamilton Basso's *Cinnamon Seed and Sun in Capricorn* John Dos Passos's *Number One* Adria Locke Langley's *A Lion Is in the Streets* and Robert Penn Warren's *All the King's Men* Perry explains that Lewis cast his version of the Kingfish as a totalitarian menace a sort of homegrown Hitler in what Lewis later admitted was an unapologetic attempt to sabotage Long's designs on the White House Basso one of Long's most vocal detractors created two Long-based characters each a rabble rousing affront to what remained of the Old South order To warn readers of the dangers hidden in the politician constituent contract Dos Passos transformed Long into a shameless manipulator of the gullible American masses Langley's rendition suffers complete condemnation by its creator for personal as well as public transgressions Warren's spellbinding Willie Stark almost as much philosopher as politician ironically bears the least resemblance to Long though for almost six decades Stark has been Long's best known fictional embodiment Exploring how and why these five authors among them a Nobel laureate one of America's most celebrated political novelists and a two time Pulitzer Prize winner turned one politician into six fictional characters leads Perry to conclude that Huey P Long's lasting impression may well be a composite of both historical and imaginative interpretation
