Time is the Simplest Thing Clifford D. Simak, 2011-09-29 Without setting foot on another planet people like Shep Blaine were reaching out to the stars with their minds telepathically contacting strange beings on other worlds But even Blaine was unprepared for what happened when he communed with the soul of an utterly alien being light years from Earth After recovering from his experience he becomes a dangerous man not only has he gained startling new powers but he now understands that humankind must share the stars Hunted through time and space by those who he used to trust Blaine undergoes a unique odyssey that takes him through a nightmarish version of small town America as he seeks to find others who share his vision of a humane future Blaine has mastered death and time Now he must master the fear and ignorance that threatened to destroy him

Project Pope Clifford D. Simak, 2013-08-29 On the Rim planet fittingly called End of Nothing a bizarre society of robots and humans toiled for a thousand years to perfect a religion that would create a new and all embracing faith no novelty in a galaxy crowded with religions But one project was hidden from the hordes of pilgrims welcomed at Vatican 17 on End of Nothing A group of trained human sensitives were sending their minds ranging through all of time and space gathering information With that information a computer of infinite knowledge wisdom and infallibility was being constructed in secret the ultimate Pope Of the three outsiders allowed residence on End of Nothing one was tolerated at a distance by Vatican 17 one was welcome and one was a threat to be countered Decker hardly mattered His lifeboat had landed him on the remote planet and he kept to himself in the wilderness Neither the human nor robot authorities knew of the unseen

companion who whispered constantly in Decker's mind Dr Jason Tennyson had fled the political furies of his homeworld Here Vatican 17's physician had died and Tennyson's skills were desperately needed and well rewarded Jill Roberts was a journalist in quest of a sensational story she had scented Vatican 17 knew she could not be allowed to break the news of Project Pope before it was completed and debated two possible ways of stopping her The one of the Searcher sensitives threw Vatican 17 into turmoil threatening its very existence and involving the three outsiders in a sudden power struggle between human and robot Drifting in unsuspecting dimensions the woman had encountered Heaven *The Goblin Reservation* Clifford D. Simak, 2011-09-29 Having just returned to Earth from an intergalactic research mission Professor Peter Maxwell specialist in Supernatural Phenomena finds himself in desperate straits Earth as he is aware is well advanced in many areas perfected time travel for instance enables all creatures goblins dinosaurs and Shakespeare to coexist But Maxwell has accidentally discovered a mysterious crystal planet containing a storehouse of secret information not yet known to Earth Knowing the value of the planet for the future of Earth he attempts to convince those in power that they must at any cost get control of it But his efforts are thwarted by a startling fact Maxwell was ingeniously duplicated on his return trip The other him came back before he did and was soon after accidentally killed Now no one will believe the original Maxwell exists

Highway of Eternity Clifford D. Simak, 2011-09-29 It all began simply enough A client had vanished and Jay Corcoran went to investigate the man's empty hotel suite But Corcoran's trick vision spotted the room sized box stuck to the outside wall of the suite There was no way to get into the box so Corcoran cabled his long time pal Tom Boone Boone had a talent When threatened he could step around a corner into some otherwhere Boone stepped into the box taking Corcoran with him The box turned out to be a time traveler machine that transported them back to 1745 England where they found a family of refugees from a million years in the future In that far future alien Infinities were converting humanity to incorporeal form When the family had refused conversion they had to flee For more than a century the family had lain hidden in their time bubble Suddenly the Infinities killer monster broke through and things grew complicated as the family fled to the distant past and the farther future The Werewolf Principle Clifford D. Simak, 2011-09-29 In the middle distant future Andrew Blake discovered on a distant planet huddled inside a capsule is brought back to Earth suffering from total amnesia Over 200 years old he thinks and acts like a man but becomes frighteningly aware of two alien beings that lurk within his body a strange biological computer and a wolf like animal With the latter in control he breaks out of hospital to look for his past The Stuff of Science Fiction Gary Westfahl, 2022-10-07 While students and general readers typically cannot relate to esoteric definitions of science fiction they readily understand the genre as a literature that characteristically deals with subjects such as new inventions space robot and aliens This book looks at science fiction in precisely this manner with twenty one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries Based on a packet of original essays that the author assembled for his classes the book could serve as a supplemental textbook in science fiction classes

but also contains material of interest to science fiction scholars and others devoted to the genre In some cases chapters offer thorough surveys of numerous works involving certain subjects such as imagined vehicles journeys beneath the Earth and undersea adventures discovering intriguing patterns in the ways that various writers developed their ideas When comprehensive coverage of ubiquitous topics such as robots aliens and the planet Mars is impossible chapters focus on major themes referencing selected texts A conclusion discusses other science fiction subjects that were omitted for various reasons and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter
