Books, *Americanizing the Movies and Movie-Mad Audiences, 1910-1914* Richard Abel, 2006-08-28 This engaging deeply researched study provides the richest and most nuanced picture we have to date of cinema both movies and moviegoing in the early 1910s At the same time it makes clear the profound relationship between early cinema and the construction of a national identity in this important transitional period in the United States Richard Abel looks closely at sensational melodramas including westerns cowboy cowboy girl and Indian pictures Civil War films especially girl spy films detective films and animal pictures all popular genres of the day that have received little critical attention He simultaneously analyzes film distribution and exhibition practices in order to reconstruct a context for understanding moviegoing at a time when American cities were coming to grips with new groups of immigrants and women working outside the home Drawing from a wealth of research in

archive prints the trade press fan magazines newspaper advertising reviews and syndicated columns the latter of which highlight the importance of the emerging star system Abel sheds new light on the history of the film industry on working class and immigrant culture at the turn of the century and on the process of imaging a national community

Remixing the Civil War Thomas J. Brown, 2011-11-10 In his book The Legacy of the Civil War Robert Penn Warren remarked that the Civil War is for the American imagination the great single event of our history This volume reconsiders whether fifty years later Warren's influential claim still holds true Essays from scholars in art literature and history examine how the Civil War is represented and interpreted in contemporary culture They look at the works of more than thirty artists and writers as well as multiple political movements to reveal the many and provocative ways in which Americans engage the Civil War today including chapters on the importance of Abraham Lincoln to Barack Obama's presidential campaign controversies over the Confederate flag and the proliferation of Juneteenth observances Special attention is paid to the works of African Americans and white southerners for whom the Civil War was a revolutionary and defining moment Such prominent scholars as Robert H Brinkmeyer Jr W Fitzhugh Brundage Kirk Savage and Elizabeth Young explore the works of major artists and less well known figures including Bobbie Ann Mason Kara Walker Dario Robleto and John Huddleston The authors repeatedly find that Americans today openly and playfully manipulate familiar images of the Civil War to explore the malleability of traditional social categories such as national identity gender and race With the sesquicentennial of the Civil War upon us this collection continues the conversation Warren began fifty years ago albeit in unorthodox and challenging ways to offer fresh and stimulating perspectives on the war's presence in the collective imagination of the nation
