Un amore di Dino Buzzati Manuela Cavallaro, 2009 Opere Dino Buzzati, 1963 **Un amore** Dino Buzzati, 2013-06-25
Una Milano che con i suoi inferni vecchi e nuovi i suoi falansteri giganteschi certi suoi grovigli di vicoli insieme ritratto della metropoli in un preciso momento storico e simbolo della Babele d'ogni tempo *The Fire Within* Elena Borelli, 2014-04-11
Desire for love desire for knowledge desire to possess desire to desire and to be desired our life is shaped by what we want and by our efforts to achieve it Hailed by philosophers and psychoanalysts as the core of human identity desire informs not only our actions but also our dreams and hopes and their sublimation into art and literature This collection of essays explores how desire is portrayed in modern and contemporary Italian literature by analysing some of the most interesting literary figures of the last two centuries The authors of this collection approach desire from various perspectives psychoanalytical sociological political and semiotic in order to show that desire albeit at times not explicitly mentioned pervades the literary works of modern and contemporary Italy either as a central theme or as the secret motor of the narrative Through the filter of desire the essays of this collection highlight the international dimension of Italian literature establishing a connection between Italian authors and the major theoretical works of the last two centuries As the notion of desire as represented in literary texts is informed by psychoanalytical and philosophical concepts that operate across the boundaries of nationality and language modernists and scholars of Comparative Literature will find the papers in this book of considerable interest **Encyclopedia of Italian Literary Studies: A-J** Gaetana Marrone, 2007 Publisher description **Eros and Thanatos. Love across Civilizations** Alberto Castelli, 2024-02-06 Eros and Thanatos is about the deadly nature of love It is remarkable that literary critics have paid so little attention to the combination between love and death in literature This book seeks to address this significant scholarly lacuna by exploring key literary texts of the last two hundred years as exemplary of a consistent tendency toward love and death Its emphasis on singular characters and close readings suggests the spectrum of an arbitrary dichotomy never fully resolved The existential discussion triggered by each plot is so intense that the erotic and the merely sexual seem inappropriate Indeed each writer chose to reduce it to the setting and background of a story that takes place elsewhere With this in mind the author intends to reflect love's paradoxical nature If love is triggered by beauty beauty can be immoral and love must die to preserve the illusion of beauty **Death Or Deception** Felix Siddell, 2006 Examining the key works of Buzzati and Morante Siddell looks at two coexisting and conflicting approaches one which defined place as an outcome of individual perception and another in which place is understood as an arrangement of locations separate from the individual The progression of Buzzati's texts from plausible indications of location to perception bound space is examined as is Morante's use of enclosed spaces as the basis of a conceptualisation of elsewhere paying attention to the contrast and interaction between opposing constructs of place *Love, Beauty or Morality* Alberto Castelli, 2024-05-23 This book is moved by two main questions Is Love a matter of beauty or mortality In other words is love

an ethical ideal Also modernity understood as the age of mechanical reproduction has shaped not simply our cities but our very same way of feeling How has our conception of love changed if it has in the past two centuries This book is to address these questions It is not to trace the evolution of the idea of love in Western culture from Plato to the present day It aims to bring to the surface different shades of love lingering at the heart of Western culture to rehabilitate the myth of love to its original credibility Our confused civilization has split love into sensual and moral aspects but to be aware of it is perhaps to defeat a dilemma that seems so unnatural This book is about how we make sense of our lives through love and how nineteenth and twentieth century literature records it
