Americans In Paris A Literary Anthology Library Of America:

The Cambridge Companion to American Travel Writing Alfred Bendixen, Judith Hamera, 2009-01-29 Travel writing has always been intimately linked with the construction of American identity Occupying the space between fact and fiction it exposes cultural fault lines and reveals the changing desires and anxieties of both the traveller and the reading public These specially commissioned essays trace the journeys taken by writers from the pre revolutionary period right up to the present They examine a wide range of responses to the problems posed by landscapes found both at home and abroad from the Mississippi and the Southwest to Europe and the Holy Land Throughout the contributors focus on the role played by travel writing in the definition and formulation of national identity and consider the experiences of minority writers as well as canonical authors This Companion forms an invaluable guide for students approaching this new important and exciting subject for the first time

Voices of Cosmopolitanism in Early American Writing and Culture Chiara Cillerai, 2017-10-04 This book argues that cosmopolitanism was a feature of early American discourses of nation formation and eighteenth century colonialism With the analysis of writings by Thomas Jefferson Benjamin Franklin Elizabeth Graeme Fergusson Philip Mazzei and Olaudah Equiano the book reassesses the terms in which we understand cosmopolitanism its relationship with local and transatlantic environments and the way these representative writers from different segments of colonial society identified themselves and America within the transatlantic context The book shows that the transnational and universalist appeal of the cosmopolitan not only accompanies empire building and defines a narrative that aligns the cosmopolitan perspective of global understanding and cooperation with western political ideology The language of the cosmopolitan also forms the basis of a rhetoric that resists imperial expansion and allows writers in a variety of cultural social and political margins to find a voice to identify themselves America and the transatlantic world they imagine

Paris in the Americas: Yesterday and Today Carole Salmon, 2022-10-18 Across centuries France and especially its capital city Paris established itself as a major source of influence across the Americas through colonization diplomacy and political influence but also through intellectualism and cultural productions of all sorts either by imposition exportation or as a trend of fashion via a bilateral transatlantic movement of people and ideas In itself the influence of Paris the capital of the world as Patrice Higonnet 2002 analyzes it is similar to a phantasmagoria which results in a transatlantic fascination for the city of lights and all the tangible or intangible elements that function as its embodiment As Stuart Hall explains understanding cultures and languages and their representations through various manifestations presupposes that we can identify understand and interpret the signs that constitute their core identity Hall 2013 In an interdisciplinary approach this multi authored edited volume examines the long established relationships between Paris and cities across the American continent in the past as well as in the present time In order to explore all aspects of Paris s influence s in the Americas this volume is organized around two main axes of analysis first in a geographical progression from North to South the reader is invited to reflect upon

cultural productions that demonstrate the many influences of Paris in the Americas through theater literature philosophy fashion and cinema chapters 1 to 6 In the following chapters 7 to 11 the volume focuses particularly on a variety of urban connections that take the reader from South to North this time analyzing tangible architectural and urban design influences of Paris in major cities such as Rio de Janeiro Buenos Aires Mexico City New York or Washington D C In today's global world this multifaceted study of Paris visible and invisible influences in the Americas clearly reveals the transnational intersections of spaces languages people and cultures

Writing the Lost Generation Craig Monk,2010-11 Members of the Lost Generation American writers and artists who lived in Paris during the 1920s continue to occupy an important place in our literary history Rebellious against increased commercialism and the ebb of cosmopolitan society in early twentieth century America they rejected the culture of what Ernest Hemingway called a place of broad lawns and narrow minds Much of what we know about these iconic literary figures comes from their own published letters and essays revealing how adroitly they developed their own reputations by controlling the reception of their work Surprisingly the literary world has paid less attention to their autobiographies In Writing the Lost Generation Craig Monk unlocks a series of neglected texts while reinvigorating our reading of more familiar ones Well known autobiographies by Malcolm Cowley Ernest Hemingway and Gertrude Stein are joined here by works from a variety of lesser known but still important expatriate American writers including Sylvia Beach Alfred Kreymborg Samuel

Putnam and Harold Stearns By bringing together the self reflective works of the Lost Generation and probing the ways the writers portrayed themselves Monk provides an exciting and comprehensive overview of modernist expatriates from the United States *The Other Americans in Paris* Nancy L.
