Local Brett L. Savage, Jacob Sutherland, 2025-03-11 In California Politics Is Local Brett L Savage and Jacob Sutherland argue that California politics should be viewed through a local lens due to the unique nature of the principal agent relationship present in local governments around the state Local governments make up the most common form of government in the United States and are responsible for a wide variety of public goods services and policies that affect their community members lives daily This is especially true in California which is home to 58 counties 482 cities 1 037 school districts and nearly 2 000 independent special districts However many questions remain regarding California local politics especially when it comes to the principal agent relationship between local representatives and community members By leveraging a variety of recent case studies about the contestation of civil rights and public goods and utilizing several novel datasets Savage and Sutherland present a comprehensive understanding of California local politics as it stands in the twenty first century Specifically they provide one of the first studies dedicated to examining the opinions and perceptions held by special district representatives about the nature of their roles as community representatives and they expand upon theories of participation at the local level pertaining to issue and office salience for different demographic and political groups California Politics Is Local brings a fresh perspective to students and scholars of urban affairs political institutions civic engagement and public policy in the Golden State **Laboratories Against Democracy** Jacob M. context **Outsiders No More?** Jennifer Hochschild, Jacqueline Chattopadhyay, Claudine Gay, 2013-08-15 *Outsiders No More* brings together a multidisciplinary group of scholars to consider pathways by which immigrants may be incorporated into the political processes of western democracies At a time when immigrants are increasingly significant political actors in many democratic polities this volume makes a timely and valuable intervention by pushing researchers to articulate causal dynamics provide clear definitions and measurable concepts and develop testable hypotheses By including historians sociologists and political scientists by ranging across North America and Western Europe by addressing successful and failed incorporative efforts this handbook offers guides for anyone seeking to develop a dynamic unified and supple model of immigrant political incorporation **Handbook of Civic Engagement and Education** Richard Desjardins, Susan Wiksten, 2022-12-08 Underscoring the complex relationship between civic engagement and education at all stages of life this innovative Handbook identifies the contemporary challenges and best approaches and practices to encourage civic engagement within education Segregation by Design Jessica Trounstein, 2018-11-15 *Segregation by Design* draws on more than 100 years of quantitative and qualitative data from thousands of American cities to explore how local governments generate race and class segregation Starting in the early twentieth century cities have used their power of land use control to determine the location and availability of housing amenities such as parks and negative land uses such as garbage dumps The result has been segregation first within cities and more recently between them Documenting changing patterns of segregation and their political mechanisms Trounstein argues that city governments have pursued these policies to enhance the wealth and resources of white property owners at the expense of people of color and the poor Contrary to leading theories of urban politics local democracy has not functioned to represent all residents The result is unequal access to fundamental local services from schools to safe neighborhoods to clean water *Local Politics and Mayoral Elections in 21st Century America* Sean D. Foreman, Marcia L. Godwin, 2014-11-20 Some of the most populated and storied American cities had mayoral elections in 2013 Open contests in New York City Los Angeles and Boston for example offer laboratories to examine electoral trends in urban politics Cities are facing varied predicaments Boston was rocked by the bombing of the marathon on April 15 Detroit is roiled by being the largest U S city to declare bankruptcy and Chicago which had an open competitive election in 2011 is dealing with significant gun violence San Diego's mayor resigned in August 2013 due to sexual harassment charges and other mayors are surrounded by corruption scandals Houston and St Louis had non competitive elections recently but their mayors are notable for their tenure in office and emphasis will be on public policy outcomes in those cases Leaders in most cities face dramatic changes and challenges due to economic and social realities The Keys to City Hall offers a complete and succinct review and analysis of the top mayoral campaigns in major American cities in recent years as well as the politics and public policy management of those urban areas Emerging theories of urban governance demographic changes and economic conditions are examined in introductory chapters the introduction will

provide a unique and comprehensive focus on major trends in advertisement changes in campaign strategies fundraising and the use of social media at the local level In Part Two scholars with expertise in local politics urban public policy and the governance explore some of the largest and most noteworthy U S cities each of which has a recent competitive mayoral election They will also provide updated data on mayoral powers and problems faced by local executives Written as lively narratives in a highly readable style this book advances theory on urban politics by reviewing developments in the field and aligning theoretical approaches with realities on the ground based on the most recent elections and governance structures As such it will be a much needed resource to scholars interested in local politics and the public policy debates of specific major urban and metropolitan areas **The American Political Economy** Jacob S. Hacker,Alexander

Hertel-Fernandez,Paul Pierson,Kathleen Thelen,2021-11-11 Drawing together leading scholars the book provides a revealing new map of the US political economy in cross national perspective **Political Campaigns** Costas Panagopoulos,2017

Political Campaigns is a detailed comprehensive in depth look at modern campaigns that reflects on both theory and practice It summarizes scholarly research on campaigns but also provides an in depth and inside look into how contemporary campaigns are conducted *Making Democracy Fun* Josh A. Lerner,2024-02-06 Drawing on the tools of game design to fix

democracy Anyone who has ever been to a public hearing or community meeting would agree that participatory democracy can be boring Hours of repetitive presentations alternately alarmist or complacent for or against accompanied by constant heckling often with no clear outcome or decision Is this the best democracy can offer In Making Democracy Fun Josh Lerner offers a novel solution for the sad state of our deliberative democracy the power of good game design What if public meetings featured competition and collaboration such as team challenges clear rules presented and modeled in multiple ways measurable progress such as scores and levels and engaging sounds and visuals These game mechanics would make meetings more effective and more enjoyable even fun Lerner reports that institutions as diverse as the United Nations the U S Army and grassroots community groups are already using games and game like processes to encourage participation Drawing on more than a decade of practical experience and extensive research he explains how games have been integrated into a variety of public programs in North and South America He offers rich stories of game techniques in action in children s councils social service programs and participatory budgeting and planning With these real world examples in mind Lerner describes five kinds of games and twenty six game mechanics that are especially relevant for democracy He finds that when governments and organizations use games and design their programs to be more like games public participation becomes more attractive effective and transparent Game design can make democracy fun and make it work *Reform and Retrenchment* Robert G. Boatright,2024 In Reform and Retrenchment Robert G Boatright explores changes in American primary election laws from the 1920s to the 1970s He shows that political parties factions and reform groups manipulated primary election laws in order to gain an advantage over their opponents often under the guise of enhancing democracy

Boatright looks at how this history can help us understand the reform ideas before us today ultimately suggesting that for all of its flaws there is likely little that can be done to improve primaries and those who would seek to change American politics are best off exploring reforms to other areas of elections and governance *Morality at the Ballot* Daniel R. Biggers,2014-12-15 *Morality at the Ballot* examines the ability of direct democracy the process of deciding policy through the ballot to increase turnout In contrast to previous studies Daniel R Biggers shows that this ability is much more limited than currently thought Using ballot matters that address morality policy combined with experimental and election data from the past twenty years he demonstrates how and when direct democracy can increase participation affect who votes and influence electoral and policy outcomes **Local Interests** Sarah F. Anzia,2022-05-06 A policy focused approach to understanding the role of interest groups in US municipal governments Local politics in the United States once seemed tranquil compared to the divisiveness and dysfunction of the country s national politics Those days have passed As multiple wide ranging crises have thrust America s local governments into the spotlight they have also exposed policy failures and systemic problems that have mounted for years While issues such as policing and the cost of housing are debated nationally much of the policymaking surrounding these issues occurs locally In *Local Interests* Sarah F Anzia explores how local governments and the interest groups that try to influence them create the policies that drive the national conversation policing economic development housing and challenges of taxing and spending Anzia examines local interest groups in terms of the specific policies they pursue including how these groups get active in politics and what impact they have By offering new perspectives on these issues Anzia contributes to our knowledge of how interest groups function and the significant role they play in shaping broader social outcomes *Dangerously Divided* Zoltan Hajnal,2020-01-02 Race more than class or any other factor determines who wins and who loses in American democracy *Neighborhood Defenders* Katherine Levine Einstein,David M. Glick,Maxwell Palmer,2019-12-05 Since the collapse of the housing market in 2008 demand for housing has consistently outpaced supply in many US communities The failure to construct sufficient housing especially affordable housing in desirable communities and neighborhoods comes with significant social economic and environmental costs This book examines how local participatory land use institutions amplify the power of entrenched interests and privileged homeowners The book draws on sweeping data to examine the dominance of land use politics by neighborhood defenders individuals who oppose new housing projects far more strongly than their broader communities and who are likely to be privileged on a variety of dimensions Neighborhood defenders participate disproportionately and take advantage of land use regulations to restrict the construction of multifamily housing The result is diminished housing stock and higher housing costs with participatory institutions perversely reproducing inequality **Just Ordinary Citizens?** Antoine Bilodeau,2016-04-06 Since the 1960s the number of immigrants living in liberal democracies has been steadily rising Despite the existence of numerous studies on social economic and geographic integration few books have addressed the integration

of immigrants into the politics of their host countries When it comes to politics are immigrants just ordinary citizens This edited collection considers the political integration of immigrants in a number of liberal democracies Just Ordinary Citizens offers a behavioural perspective on the political integration of immigrants describing and analysing the relationships that immigrants develop with politics in their host countries The chapters provide both unique national insights and a comparative perspective on the national case studies while editor Antoine Bilodeau offers both a framework within which to understand these examples and a systematic review of more than 300 studies of immigrant political integration from the last sixty years
