experience in the field the book promotes a new kind of medicine and medical education fit for the 21st century but envisages these through the ancient lens of Homer's two epics In the heroic glory elaborated in the Iliad and the themes of homecoming and hospitality set out in the Odyssey Homer provides a narrative arc that is a blueprint of modern medicine's development from a heroic endeavour to a contemporary collaborative provision of hospitality where the hospital remains true to its name and doctors engage in work of care rather than fighting disease with the hospital as battleground
