classroom teachers from across the country as they give witness to their hopes and struggles to teach our nation's children. Why We Teach Now offers us the voices of teachers like 42-year veteran Mary Ginley who wonders, "Why would anyone with any brains and imagination ever want to be a teacher?" Who then answers her own question affirmatively: "It's because somehow even today, even with all the insanity, all the rules, all the poorly designed textbooks, all the directives to teach to the test, there are kids out there who need good teachers." At a time when politicians, policymakers, and philanthropists are quick to denigrate teachers' work and arrogantly speak for the profession, Why We Teach Now offers teachers the room and respect to speak for themselves. Once again, Nieto gives teachers and those who care about education the inspiration and energy to embrace their role as advocates, a role that is vital not only for the well-being of students but also for the future of the profession and our nation.

*The Modern Language Journal*, 1957 Includes section: *Reviews* **SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS** Elva Duran, 2013-04-01. Students whose first language is not English are the fastest growing group in public schools in all regions of the United States. Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken, and presently most schools in the U.S. are educating many English learners. The achievement of Hispanic students needs to improve dramatically over the next five years, and this book describes the cornerstone elements for bringing about this change. The initial chapter introduces direct instruction to be used with reading and literacy programs. Chapters 2 and 3 provide an excellent review of the literature in language development and address developing language instruction, listening and speaking with Spanish-speaking students, and offers what a comprehensive language development program should look like. Chapter 4 reviews academic language and literacy instruction, while the next addresses the components of instruction in Spanish. Chapter 6 offers lesson plan suggestions for Spanish-speaking students, while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction. Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs. Finally, Chapter 10 discusses two-way bilingual immersion and shares actual classroom schedules and lessons. This unique text will help in the preparation of primary grade teachers throughout the U.S. so that they may be successful with Hispanic students entering the public schools with little or no English background. It will also be a useful tool for school districts' staff development in addressing school improvement goals for increasing the achievement of Hispanic students.
