Slavery, Philosophy, and American Literature, 1830-1860 Maurice S. Lee, 2005-08-18 Examining the literature of slavery and race before the Civil War Maurice Lee in this 2005 book demonstrates how the slavery crisis became a crisis of philosophy that exposed the breakdown of national consensus and the limits of rational authority Poe Stowe Douglass Melville and Emerson were among the antebellum authors who tried and failed to find rational solutions to the slavery conflict Unable to mediate the slavery controversy as the nation moved toward war their writings form an uneasy transition between the confident rationalism of the American Enlightenment and the more skeptical thought of the pragmatists Lee draws on antebellum moral philosophy political theory and metaphysics bringing a different perspective to the literature of slavery one that synthesizes cultural studies and intellectual history to argue that romantic sentimental and black Atlantic writers all struggled with modernity when facing the slavery crisis

American Documentary Filmmaking in the Digital Age Lucia Ricciardelli, 2014-11-20 American Documentary Filmmaking in the Digital Age examines the recent challenges to the conventions of realist documentary through the lens of war documentary films by Ken Burns Michael Moore and Errol Morris During the twentieth century the invention of new technologies of audiovisual representation such as cinema television video and digital media have transformed the modes of historical narration and with it forced historians to assess the impact of new visual technologies on the construction of history This book investigates the manner in which this contemporary Western crisis in historical narrative is produced by a larger epistemological shift in visual culture Ricciardelli uses the theme of war as depicted in these directors' films to focus her study and look at the models of national identity that Burns Morris and Moore shape through their depictions of US military actions She examines how postcolonial critiques of historicism and the advent of digitization have affected the narrative structure of documentary film and the shaping of historical consciousness through cinematic representation

Patriarchy and Power in Magical Realism Maryam Ebadi Asayesh, 2017-08-21 Although the term magical realism appeared in 1925 in pictorial art in Germany it became well known with the boom of magical realist fiction in Latin America in the 1960s Since the 1980s it has become one of the popular modes of writing worldwide Due to its oxymoronic and hybrid nature it has caught the attention of critics Some have called it a postcolonial form of writing because of its prominence in postcolonial countries while others have called it a postmodern mode because of the time of its emergence and the techniques applied in these kinds of novels This book discusses how magical realism was used in the works of three contemporary female writers Indigo or Mapping the Waters 1992 by the British Marina Warner The House of the Spirits 1982 by the Latin American writer Isabel Allende and Fatma a novel of Arabia 2002 by the Saudi Arabian Raja Alem It shows how by applying magical realism these writers empowered women Using revisionary nostalgia these works changed the process of history writing by the powerful showed the presence of women and gave voice to their unheard stories Even the techniques applied in these novels presented the clash with patriarchy and power

Hybrid Fictions Daniel Grassian, 2015-09-11 Since the 1960s academics have theorized that literature is on its way to becoming obsolete or at the very least has lost part of its power as an influential medium of social and cultural critique This work argues against that misconception and maintains that contemporary American literature is not only alive and well but has grown in significant ways that reflect changes in American culture during the last

twenty years In addition this work argues that beginning in the 1980s a new allied generation of American writers born from the late 1950s to the early 1970s has emerged whose hybrid fiction blend distinct elements of previous American literary movements and contain divided social cultural and ethnic allegiances The author explores psychological philosophical ethnic and technological hybridity The author also argues for the importance of and need for literature in contemporary America and considers its future possibilities in the realms of the Internet and hypertext David Foster Wallace Neal Stephenson Douglas Coupland Sherman Alexie William Vollmann Michele Serros and Dave Eggers are among the writers whose hybrid fictions are discussed *Realist Ethics* Valerie Morkevicius, 2018-02 Appealing to just war thinkers international relations scholars policymakers and the public this book claims that the historical Christian Islamic and Hindu just war traditions reflect political concerns with domestic and international order This underlying realism serves to counterbalance the overly optimistic approach of contemporary liberal just war approaches **The Oxford Handbook of American Literary**

Realism Keith Newlin, 2019 The Oxford Handbook of American Literary Realism offers fresh interpretations of the artistic and political challenges of representing life accurately It is the first book to treat the subject topically and thematically in wide scope with essays that draw upon recent scholarship in literary and cultural studies to offer an authoritative and in depth reassessment of major and minor figures and the contexts that shaped their work To Flourish or Destruct Christian Smith, 2015-03-23 A study of what motivates humans and the activity that gives rise to human social life and social structures In his 2010 book What Is a Person Christian Smith argued that sociology had for too long neglected this fundamental question Prevailing social theories he wrote do not adequately capture our deep subjective experience as persons crucial dimensions of the richness of our own lived lives what thinkers in previous ages might have called our souls or hearts Building on Smith s previous work To Flourish or Destruct examines the motivations intrinsic to this subjective experience Why do people do what they do How can we explain the activity that gives rise to all human social life and social structures Smith argues that our actions stem from a motivation to realize what he calls natural human goods ends that are by nature constitutionally good for all human beings He goes on to explore the ways we can and do fail to realize these ends a failure that can result in varying gradations of evil Rooted in critical realism and informed by work in philosophy psychology and other fields Smith s ambitious book situates the idea of personhood at the center of our attempts to understand how we might shape good human lives and societies Praise for To Flourish or Destruct This major work in sociology theory should be read by social scientists in all disciplines Highly recommended Choice To Flourish or Destruct poses a powerful and important challenge to the entire discipline of sociology Smith is becoming the anchor of a humanist renewal in sociology and although he is not alone in this movement what makes To Flourish or Destruct different is a coherent new oppositional perspective that draws on critical realism to affirm both human personhood and the ever present moral element in human affairs Smith s Personalism could become the banner around which a very different kind of sociology develops one that

respects the centered consciousness that is human personhood Douglas Porpora Drexel University This book represents a major advance in sociology and more specifically within critical realism which is gradually emerging as a full fledged alternative in the social sciences I am fundamentally convinced by this book George Steinmetz University of Michigan

Hume and Machiavelli Frederick G. Whelan, 2004-01-01 Hume and Machiavelli compares the political thought of David Hume usually seen as a classical liberal theorist of the Enlightenment and Niccolo Machiavelli the founder of modern political realism Through an extensive survey of the two authors approaches to political science domestic and foreign statecraft political ethics and historical interpretation Frederick G Whelan demonstrates the presence of numerous Machiavellian themes in Hume including both borrowings and similar patterns of analysis and judgment These similarities indicate that Hume s political theory grounded as it is in the real world of historical experience and moral complexity may be characterized as a realist variant of liberalism standing in contrast to better known rationalist and ideal oriented liberal theories The book concludes with a general account of realist liberalism with illustrations from the Federalist Papers and several recent political philosophers in addition to Hume
