Decline Of Mutapa State:

The Zimbabwe Culture Innocent Pikirayi, Joseph O. Vogel, 2002-07-15 Offering a unique and original perspective on the rise and fall of indigenous states of southern Zambezia The Zimbabwe Culture analyzes the long contentious history of the remains of the remarkable cyclopean masonry ranging from mighty capitals of traditional kings to humble farmsteads Forming a cornerstone of the geographical lore of Africa in the seventeenth and eighteenth centuries debate on the origins development and collapse of the Zimbabwe culture has never ceased and with increasing archaeological research over the twentieth century has become more complex Thoroughly examining the growth and decline of pre colonial states on the entire Zimbabwean Plateau and southern Zambezia Dr Pikirayi has contributed tremendously towards the archaeological understanding of this extraordinary culture The Zimbabwe Culture is essential reading for all students and avocationalists of African archaeology history and culture *Becoming Zimbabwe. A History from the Pre-colonial Period to 2008* Brian Raftopoulos, Alois Mlambo, 2009-09-15 Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country s history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire s opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joesph Mtisi Munyaradzi Nyakudya and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya s chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed History A-Level (ZIMSEC) Past Exam Questions and Model Answers David Chitate , 2024-06-06 This book contains the most comprehensive question bank and model answers for ZIMSEC A Level History exam questions It also includes syllabus review notes and exercises History subject Examiners provide observations and tips and point out common errors that students make when answering questions If you use this book faithfully it will be almost impossible for you to fail Use this book and earn yourself a Grade A in History **Africa from the Sixteenth to the Eighteenth Century** Bethwell A. Ogot, 1992 The result of years of work by scholars from all over the world The UNESCO General History of Africa reflects how the different peoples of Africa view their civilizations and shows the historical relationships between the various parts of the continent Historical connections with other continents demonstrate Africa s contribution to the development of human

civilization Each volume is lavishly illustrated and contains a comprehensive bibliography This fifth volume of the acclaimed series covers the history of the continent from the beginning of the sixteenth century to the close of the eighteenth century in which two themes emerge first the continuing internal evolution of the states and cultures of Africa during this period second the increasing involvement of Africa in external trade with major but unforeseen consequences for the whole world In North Africa we see the Ottomans conquer Egypt South of the Sahara some of the larger older states collapse and new power bases emerge Traditional religions continue to coexist with both Christianity suffering setbacks and Islam in the ascendancy Along the coast particularly of West Africa Europeans establish a trading network which with the development of New World plantation agriculture becomes the focus of the international slave trade The immediate consequences of this trade for Africa are explored and it is argued that the long term global consequences include the foundation of the present world economy with all its built in inequalities

The Archaeology of Africa Bassey Andah,Alex Okpoko,Thurstan Shaw,Paul Sinclair,2014-05-22 Africa has a vibrant past It emerges from this book as the proud possessor of a vast and highly complicated interweaving of peoples and cultures practising an enormous diversity of economic and social strategies in an extraordinary range of environmental situations At long last the archaeology of Africa has revealed enough of Africa s unwritten past to confound preconceptions about this continent and to upset the picture inferred from historic written records Without an understanding of its past complexities it is impossible to grasp Africa s present let alone its future

Modern Economic History of Africa: The nineteenth century Paul Tiyambe Zeleza,1997 The nineteenth century in Africa was a time of revolution and tumultuous change in virtually all spheres Violent dry spells the staggered abolition of the slave trade mass migrations and an influx of new settlers characterized the century Regional trade links grew stronger and spread further The century also saw the beginnings of the ruthless and bloody quest for foreign dominion

[Africa from the Sixteenth to the Eighteenth Century](#) Unesco. International Scientific Committee for the Drafting of a General History of Africa,1999 A history of Africa from the 16th to the 18th centuries this study concentrates on the continuing evolution of African states and cultures the increase in external trade and the consequences of the slave trade The series is co published in Africa with seven publishers in the United States and Canada by the University of California Press and in association with the UNESCO Press

Historical Archaeology Pedro Paulo A. Funari,Martin Hall,Sian Jones,2013-03-07 Historical Archaeology demonstrates the potential of adopting a flexible encompassing definition of historical archaeology which involves the study of all societies with documentary evidence It encourages research that goes beyond the boundaries between prehistory and history Ranging in subject matter from Roman Britain and Classical Greece to colonial Africa Brazil and the United States the contributors present a much broader range of perspectives than is currently the trend

History of Zimbabwe A. S. Mlambo,2014-04-07 The first single volume history of Zimbabwe with detailed coverage from pre colonial times to the present this book examines Zimbabwe s pre colonial colonial and postcolonial social economic and

political history and relates historical factors and trends to recent developments in the country Zimbabwe is a country with a rich history dating from the early San hunter gatherer societies The arrival of British imperial rule in 1890 impacted the country tremendously as the European rulers exploited Zimbabwe's resources giving rise to a movement of African nationalism and demands for independence This culminated in the armed conflict of the 1960s and 1970s and independence in 1980 The 1990s were marked by economic decline and the rise of opposition politics In 1999 Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral with political violence and human rights violations making Zimbabwe an international pariah state This book will be useful to those studying Zimbabwean history and those unfamiliar with the country's past The Oxford Handbook of African Archaeology Peter Mitchell, Paul Lane, 2013-07-04 This Handbook provides a comprehensive synthesis of African archaeology covering the entirety of the continent's past from the beginnings of human evolution to the archaeological legacy of European colonialism It includes a mixture of key methodological and theoretical issues and debates and situates the subject's contemporary practice

Crafting Identity in Zimbabwe and Mozambique Elizabeth MacGonagle, 2007 Crosses conventional theoretical temporal and geographical boundaries to show how the Ndau of southeast Africa actively shaped their own identity over a four hundred year period Malawi Zoë Groves, Jessica Johnson, 2025-06-27 This book explores Malawi's recent history in light of longer term historical developments contributing important new insights to debates about migration citizenship chieftaincy language cultural practice anti colonialism and nationalism The book is organised around five key themes Rethinking Kamuzu Banda's Malawi Rural Development and Agricultural Production Power and Politics from pre to post colony Malawi and the Southern African Region and Culture and Cultural Production The focus on a single country facilitates consideration of local particularities as well as identification of similarities in the trajectories and challenges shared with other countries in Africa This book provides a nuanced understanding of Hastings Kamuzu Banda Malawi's first Prime Minister and President 1964-94 and the legacy of his rule Chapters analyse decolonisation in a political and a cultural sense and show how the beginning and end of colonial rule were gradual processes rather than sharp ruptures Individual chapters expand our knowledge of the history of public health development rural livelihoods food production and agricultural policy as well as prompting new debate on migration citizenship chieftaincy language cultural practice anti colonialism and nationalism This book will be of particular interest to scholars of Malawi and the wider Southern African region Nine of the chapters were originally published in a special issue of the Journal of Southern African Studies volume 46 issue 2 2020 This volume contains a revised Introduction five additional chapters all previously published in JSAS and a new Afterword *The Invention of God in Indigenous Societies* James Cox, 2014-09-19 Indigenous societies around the world have been historically disparaged by European explorers colonial officials and Christian missionaries Nowhere was this more evident than in early descriptions of indigenous religions as savage primitive superstitious and fetishistic Liberal intellectuals both indigenous and

colonial reacted to this by claiming that before indigenous peoples ever encountered Europeans they all believed in a Supreme Being The Invention of God in Indigenous Societies argues that by alleging that God can be located at the core of pre Christian cultures this claim effectively invents a tradition which only makes sense theologically if God has never left himself without a witness Examining a range of indigenous religions from North America Africa and Australasia the Shona of Zimbabwe the Rainbow Spirit Theology in Australia the Yupiit of Alaska and the M ori of New Zealand the book argues that the interests of indigenous societies are best served by carefully describing their religious beliefs and practices using historical and phenomenological methods just as would be done in the study of any world religion Climate Change, Trade and Modes of Production in Sub-Saharan Africa Felix Chami, Gilbert Pwiti, Marie de Chantal Radimilahy, 2003 This study intends to update the earlier publication The Economics of Publishing Educational Materials in Africa Bgoya et al 1997 and to incorporate new research and perspectives on public private sector relations and the increasing importance of the local private sector in textbook provision Gender, Politics and Land Use in Zimbabwe 1980ñ2012 Mafa, Onias, Gudhlanga, Enna S., 2015-10-19 The agrarian reform dynamics in southern Africa have to be understood within the framework of colonial land policies and legislation that were designed essentially to expropriate land and natural resource property rights from the indigenous people in favour of the white settlers Colonial land policies institutionalised racial inequity with regard to land although conditions are not homogeneous there are broad themes that cut across the southern Africa region Colonialism dispossessed and impoverished the people by taking away the most productive lands Neoliberal globalization has undermined the people s well being through direct influences on agriculture and rural economies in conjunction with policies promoted by national governments and international agencies Another shared feature is to be found in the high rates of unemployment poor returns to small scale agriculture lack of access to social services such as health and education all of which serve to erode existing livelihood activities and perpetuate relative and absolute poverty in rural areas This comparative study on Zimbabwe s agrarian reforms may provide countries such as South Africa and Namibia with valuable lessons as they attempt their own land reforms Conflicts between colonialists and the indigenous people in the then Rhodesia centred mainly on the land question This inequitable distribution of land resulted in Africans waging liberation struggles in order to reclaim their land from the colonialists In most post colonial countries calls have been made for land redistribution as a way of redressing colonial injustices in land tenure systems The process of reclamation of land and redistributing it to the indigenous people is fraught with problems and has resulted in the present day land crisis in many parts of Africa and other continents These are some of the issues this book examines attempts to understand and explain from a gender perspective Gender relations are viewed in terms of land use and ownership in pre colonial colonial and post colonial Zimbabwe These socially constructed roles have been found to be unequal in terms of power and decision making It is argued that lessening of social inequalities between men and women reduces poverty raises farm efficiency and improves natural resource management The book

emphasizes that once women are empowered the quality of life of their households improves *Port Cities and Intruders* Michael N. Pearson, 2002-10-14 Selected by Choice Magazine as an Outstanding Academic Title In *Port Cities and Intruders* historian Michael Pearson explores the role of port cities and their orientation relations between the coast and the interior the place of the coast in the world economy and the impact of the Portuguese in the early modern period **A History of Mozambique** Malyn Newitt, 1995-03-22 This book summarizes five hundred years of the history of the societies that exist within the area that became Mozambique in 1891 It also takes the story up to the present including the War of Liberation and Mozambique after independence It is work of major scholarship that will appeal to experts and students alike

Historical Dictionary of Mozambique Colin Darch, 2018-12-15 The new edition of *Historical Dictionary of Mozambique* covers the Bantu expansion the arrival of the Portuguese navigators and their str competition with local African power centers and coastal Arab Swahili trading towns the trade cycles of gold ivory and slaves the establishment of the semi Africanized prazos along the Zambezi Valley pacification campaigns and the period of Portuguese weakness in the late 19th and early 20th centuries when vast tracts of land were rented to concessionary companies In the late colonial period the Salazar dictatorship tried to reassert Portuguese power but after ten years of armed struggle for national liberation Mozambique gained its independence in 1975 The book contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Mozambique **Zimbabwe Before 1900** D. N. Beach, 1984 [Selected Themes in African Development Studies](#) Lucky Asuelime, Joseph Yaro, Suzanne Francis, 2014-06-11 Against the background of realities of underdevelopment and economic growth environmental pressures and global governance challenges this volume presents a broad picture of contemporary issues in African development The multi disciplinary collection presents a variety of important themes covering land questions housing water health economic liberalization climate environment and gender The specific country studies illustrate the diversity of the African continent and demonstrate how unique contexts impact upon different levels of achievement The volume seeks to present and promote novel analytical frameworks new conceptual approaches and empirical accounts of relevance to scholars studying Africa as well as practitioners in African development and policy makers
