implement them Too often EMNEs struggle to transfer their weak management practices across national borders as they have limited experience resources and capabilities when compared to MNEs from developed countries Developing a better understanding on the manner in which EMNEs adopt their international human resource management and development practices abroad is therefore paramount to fully understand their globalisation related behaviours This dedicated book will aim to provide a holistic picture and contemporary insights on IHRM in emerging multinational enterprises It will be of interest to researchers academics and students in the fields of business and management especially those with a particular interest in human resource management firm internationalisation and emerging markets **Contemporary Southeast**
