Educational Performance in the Caribbean Emanuela Di Gropello, 2003-01-01. This study represents a first attempt of providing a comprehensive quantification of educational outcomes in the Caribbean region. Its main objectives are: a) to define a set of operationally relevant education indicators; b) to provide a database of comparable education indicators in Caribbean countries where data is available, namely Belize, Dominica, Dominican Republic, Grenada, Guyana, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, and Trinidad and Tobago; and c) to propose methods on how the common set of indicators can be used for analyses of the education sectors. This exercise is all the more important within the framework of the current Education For All (EFA) and Millennium Development Goals (MDGs) initiatives, which require the identification and monitoring of relevant indicators to establish where the countries stand in relation to the target of universal primary education. After a systematic review of educational indicators in coverage, efficiency, and quality, which leads to specific recommendations on the type of indicator relevant to operational diagnostics of the education sectors, the study provides a detailed review of the Caribbean status in producing education indicators and demonstrates how a new database can be used to depict where the education sectors stand. Building on these methods and findings, its final section presents a set of specific recommendations to the Caribbean countries on how to improve the diagnostics of their education sectors. Education in Lithuania OECD, 2017-10-16. This report assesses Lithuania's policies and practices against best practice in education from across the OECD and other countries in the region. It analyses its education system's major strengths and the challenges it faces from early childhood education and care to tertiary education. **Beyond Grades:**

Holistic Assessment and Evaluation in Contemporary Education Dr. Divya Sharma, Dr. Sangeeta Shroff, Dr. Gopa Sharma, Ms. Ruchi Sachan, PREFACE. Grades alone rarely tell the story of learning. They compress months of curiosity, struggle, collaboration, and growth into a single symbol, useful for reporting but insufficient for guiding improvement. Beyond Grades: Holistic Assessment and Evaluation in Contemporary Education is written to help educators move from tallying performance to cultivating it, designing assessments that illuminate what learners know, how they learn, and who they are.
