Low-Income Students, Human Development and Higher Education in South Africa

Melanie Walker, Monica McLean, 2022-07-15 This book explores learning outcomes for low income rural and township youth at five South African universities The book is framed as a contribution to southern and Africa centred scholarship adapting Amartya Sen s capability approach and a framework of key concepts capabilities functionings context conversion factors poverty and agency to investigate opportunities and obstacles to achieved student outcomes This approach allows a reimagining of inclusive learning outcomes to encompass the multi dimensional value of a university education and a plurality of valued cognitive and non cognitive outcomes for students from low income backgrounds whose experiences are strongly shaped by hardship Based on capability theorising and student voices the book proposes for policy and practice a set of contextual higher education capability domains and corresponding functionings orientated to more justice and more equality for each person to have the opportunities to be and to do what they have reason to value The book concludes that sufficient material resources are necessary to get into university and flourish while there the benefits of a university education should be rich and multi dimensional so that they can result in functionings in all areas of life as well as work and future study the inequalities and exclusion of the labour market and pathways to further study must be addressed by wider economic and social policies for inclusive learning outcomes to be meaningful and that universities ought to be doing more to enable black working class students to participate and succeed Low Income Students Human Development and Higher Education in South Africa makes an original contribution to capabilitarian scholarship conceptually in theorising a South based multi dimensional student well being higher education matrix and a rich reconceptualisation of learning outcomes as well as empirically by conducting rigorous longitudinal in depth mixed methods research on students lives and experiences in higher education in South Africa The audience for the book includes higher education researchers international capabilitarian scholars practitioners and policy makers

Youth In South Africa Ariane De Lannoy, Malose Langa, 2021-05-05 South Africa is characterised by a youthful population and the challenges and possibilities that characterise the young generation are both warning signs and beacons of hope for a nation founded on social justice Youth in South Africa Agency in visibility and national development takes stock of the nation s development as it affects young people Authors offer both personal and professional

insights into the ways in which the youth navigate their own pathways to adulthood. These include formal and informal engagements with politics as well as protest, unemployment, entrepreneurship, education, religion, experiences with sexuality and violence, and a multitude of other life experiences. Contributors paint a picture of the initiative, agency, and resilience of the youth as well as the challenges before them. Authors also identify the state of liminality faced by those unable to make the transition out of youth into full adulthood as a result of their socio-economic circumstances and political context. By engaging these experiences and insights and primarily informed by the inputs of young people, the authors highlight the limitations of existing youth policies and frameworks. The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment and by the messages the youth communicate about the limitations of current approaches.

Going to University Case, Jennifer, Marshall, Delia, 2018-02-09. Around the world more young people than ever before are attending university. Student numbers in South Africa have doubled since democracy, and for many families higher education is a route to a better future for their children. But alongside the overwhelming demand for higher education, questions about its purposes have intensified. Deliberations about the curriculum, culture, and costing of public higher education abound from student activists, academics, parents, civil society, and policy makers. We know from macro research that South African graduates generally have good employment prospects. But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses. And even less is known about what happens to those who drop out. This accessible book brings together the rich life stories of 73 young people six years after they began their university studies. It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them. The book offers deep insights into the ways in which public higher education is both a private and public good, and it provides significant conclusions pertinent to anyone who works in and cares about universities.

Accessing Post-School Studies Venicia McGhie & Madge du Preez, 2017-12-01. Accessing Post-School Studies: A student's GPS to successful learning makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success, student learning, student support, and student engagement. In this regard, the authors draw on the works of higher education theorists such as Kuh, Tinto, Marton, and Sijltjens. The book is primarily a helpful resource for South African learners in school, students at universities, life orientation teachers, as well as parents of prospective university students. It will especially assist students to adapt to the university environment. Prof. Victor N. Teise Sol Plaatje University, Kimberley, South Africa.

Bildungsentwicklungen und Schulsysteme in Afrika, Asien, Lateinamerika und der Karibik Christel Adick, 2012. Globalisierung und Migration: internationale Begegnungen, Schul- und Hochschulk Kooperationen oder Projekte der Entwicklungszusammenarbeit rücken auch auf europäische Regionen immer mehr in das Blickfeld internationaler pädagogischer Fragestellungen. Über Bildungsentwicklungen außerhalb der westlichen Welt wird jedoch im

deutschen Sprachraum relativ wenig publiziert. Diesem Umstand will der vorliegende Sammelband abhelfen. Teil 1 enthält Regionalstudien zu Bildung in den Arabischen Staaten, der Karibik, Lateinamerika, den Ostasiatischen Staaten, der Pazifikregion, Subsahara Afrika und Süd- und Westasien. In Teil 2 finden sich Länderstudien zum Bildungswesen einzelner Staaten dieser Regionen, die als besonders einflussreich gelten: Brasilien, China, Nigeria, Indien, Japan, Mexiko und Südafrika. Das Buch wendet sich an Wissenschaftler und Studierende aus den Erziehungs-, Kultur-, Politik- oder Sozialwissenschaften, ferner an Experten, Dozenten und Praktiker grenzüberschreitender Bildungskooperationen. Es kann darüber hinaus auch für Journalisten, Mitarbeiter internationaler Wirtschaftsunternehmen oder im Tourismussektor von Interesse sein. Aufgrund der Kombination von regional ausgerichteten Überblicksartikeln und einzelnen Länderstudien eignet es sich als Seminarlektüre oder zum Selbststudium. Mit Beiträgen von Christel Adick, Laura Patricia Cruz Ruiz, Ina Gankam Tambo, Caroline Glöckner, Esther Hahm, Jonathan Kriener, Gregor Lang, Wojtasik, Sabine Meise, Christine Rehlau, Claudia Richter und Volker Schubert.

International Faculty in Higher Education Maria Yudkevich, Philip G. Altbach, Laura E. Rumbley, 2016-11-25. In an interconnected and globally competitive environment, faculty mobility across countries has become widespread, yet is little understood. Grounded in qualitative methodology, this volume offers a cutting-edge examination of internationally mobile academics today and explores the approaches and strategies that institutions pursue to recruit and integrate international teachers and scholars into local universities. Providing a range of research-based insights from case studies in key countries, this resource offers higher education scholars and administrators a comparative perspective helping to explain the impact that international faculty have on the local university, as well as issues of retention, promotion, salaries and the challenges faced by these internationally mobile academics.
