Document 1:

As Robert Clark notes in *The Global Imperative*, "there is no doubt that trade networks like the Silk Road made possible the flourishing and spread of ancient civilizations to something approximating a global culture of the times." Goods, people and ideas all travelled along these long-distance routes spanning or circumventing the vast landmass of Eurasia. From earliest times, there have been three main routes, which connected China with the outside world. These were the overland routes that stretched across Eurasia from China to the Mediterranean, known collectively as the "Silk Road"; the Spice Trade shipping routes passing from the South China Sea into the Indian Ocean and beyond, known today as the "Maritime Silk Road"; and the "Southwestern Silk Road," a network of overland passages stretching from Central China through the mountainous areas of Sichuan, Guizhou and Yunnan provinces into the eastern states of South Asia.
