## **December 2014 Maths Paper 1 Grade 11:**

**Research for Educational Change** Jill Adler, Anna Sfard, 2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research

*Improving Maths and English in Further Education: A Practical Guide*  
Jonathan Kay, 2021-06-04

Improving Maths and English in Further Education provides a strategic, practical and easily applied toolkit for teachers and leaders as they work with students to gain core skills. The book highlights the unique challenges that are faced within the sector and the value of embedding college-wide literacy and numeracy for success, providing a range of strategies to resolve challenges. Structured to make sure that there is always an alternative approach, method or suggestion, the book allows the reader to choose the steps that suit their context best. Each chapter looks at the key priorities, identifies a range of potential solutions to a challenge faced in FE, acknowledges potential implementation pitfalls and remedies. Suggests practical takeaways, key considerations and next steps. Teachers and staff within further and Post-16 education will find this an essential resource for supporting students studying maths and English. Teachers and leaders from curriculum areas across the sector will find scenarios and anecdotes that resonate in this book. Timetabling, accountability, motivation: a must-read. Catherine Sezen, Senior Policy Manager, FE. This is an interesting and engaging read from Jonny who has produced a book that brings together contemporary educational literature with a personal and honest take on leading and teaching English and Maths in FE. Steven Wallis, Executive Director, Quality NCG. This book caters for the many different voices, people and characters in FE; it does exactly what it says on the tin. It will give you all the tools for a great job with an evidence base to boot. Julia Smith, tessmaths. Jonathan Kay has managed and led English and maths departments in Further Education since 2017, as well as working as consultant for the Association of Colleges and Lead English Expert and examiner for a leading exam board. Jonathan has also previously worked as an English teacher, 2nd in Department and Head of English in a range of Secondary schools.
